Eleven Western Presses Roby Wentz, 1956      *Eleven Western Presses* Meir, Roby Wentz, 2012-09-01      *Eleven Western Presses* Roby Wentz, 1956      **Eleven Western Presses. An Account of how the First Printing Press Came to Each of the Eleven Western States, Etc** Roby WENTZ, 1956      *A Literary History of the American West* Western Literature Association (U.S.), 1987

Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance

**Printing Presses** James Moran, 1978-01-01      **A Bibliographic History of the Book** Joseph Rosenblum, 1995 skillfully compiled should be useful to anyone interested in placing his or her studies in the context of printed and bound literature

ENGLISH LITERATURE IN TRANSITION 1880 1920      Printing in Deseret Richard L. Saunders, 2000 Saunders special collections and archives at the U of Tennessee Martin library describes the advent of printing in Utah and of the earliest printed documents incunabula created during the initial settlement years of the State It also includes a bibliographic history of the press chronicling some 50 printed items which have never previously been described

This first ever volume to comprehensively explore President Abraham Lincoln's ties to the American West brings together a variety of scholars and experts who offer a fascinating look at the sixteenth president's lasting legacy in the territory beyond the Mississippi River

Editor Richard W Etulain's extensive introductory essay treats these western connections from Lincoln's early reactions to Texas Oregon and the Mexican War in the 1840s through the 1850s and during his presidency providing a framework for the nine essays that follow

Each of these essays offers compelling insight into the many facets of Lincoln's often complex interactions with the American West

Included in this collection are a provocative examination of Lincoln's opposition to the Mexican War a discussion of the president's antislavery politics as applied to the new arena of the West new perspectives on Lincoln's views regarding the Thirteenth Amendment and his reluctance regarding the admission of Nevada to the Union a fresh look at the impact of the Radical Republicans on Lincoln's patronage and appointments in the West and discussion of Lincoln's favorable treatment of New Mexico and Arizona primarily Southern and Democratic areas in an effort to garner their loyalty to the Union

Also analyzed is The Tribe of Abraham Lincoln's less than competent appointments in Washington Territory made on the basis of political friendship and the ways in which Lincoln's political friends in the Western Territories influenced his western policies

Other essays look at Lincoln's dealings with the Mormons of Utah who supported the president in exchange for his tolerance and American Indians whose relations with the government suffered as the president's attention was consumed by the crisis of the Civil War

In addition to these illuminating discussions Etulain

includes a detailed bibliographical essay complete with examinations of previous interpretations and topics needing further research as well as an extensive list of resources for more information on Lincoln's ties west of the Mississippi. Loaded with a wealth of information and fresh historical perspectives, *Lincoln Looks West* explores yet another intriguing dimension to this dynamic leader and to the history of the American West. Contributors: Richard W. Etulain, Michael S. Green, Robert W. Johannsen, Deren Earl Kellogg, Mark E. Neely Jr., David A. Nichols, Earl S. Pomeroy, Larry Schweikart, Vincent G. Tegeder, Paul M. Zall.

**Hollywood's West** Peter C. Rollins, John E. O'Connor, 2005-11-11 An excellent study that should interest film buffs, academics, and non academics alike. *Journal of the West*. Hollywood's West examines popular perceptions of the frontier as a defining feature of American identity and history. Seventeen essays by prominent film scholars illuminate the allure of life on the edge of civilization and analyze how this region has been represented on big and small screens. Differing characterizations of the frontier in modern popular culture reveal numerous truths about American consciousness and provide insights into many classic Western films and television programs from RKO's 1931 classic *Cimarron* to Turner Network Television's recent made-for-TV movies. Covering topics such as the portrayal of race, women, myth, and nostalgia, *Hollywood's West* makes a significant contribution to the understanding of how Westerns have shaped our nation's opinions and beliefs, often using the frontier as metaphor for contemporary issues. *Press Releases*. Defense Transport Administration (U.S.), 1951.

*Pioneer Imprints from Fifty States* Roger J. Trienens, Library of Congress, 2022-11-21 *Pioneer Imprints from Fifty States* is a historical account of the first printed documents in the United States. The book provides descriptions of the first printed documents, including broadsides, newspapers, individual laws, almanacs, primers, and longer works, and gives a brief statement about the origin of every item.

*Europe and Asia beyond East and West* Gerard Delanty, 2006-10-03 This major new book tackles key questions on Europe in the context of shifting parameters of East and West. The contributors, sociologists, anthropologists, philosophers, and historians, show from a variety of different perspectives that the conventional equation of Europe with the West must be questioned. Featuring four thematically organized chapters, the book looks at a post-Western world. Asia in Europe, encounters in history between Europe and Asia, otherness in Europe and Asia. Exploring new expressions of European self-understanding in a way that challenges recent ideological notions of the clash of civilizations, this outstanding work draws on recent scholarship that shows how Europe and Asia were mutually linked in history and in contemporary perspective. It argues that as a result of current developments and the changing geopolitical context, both Europe and Asia have much in common and that it is possible to speak of cosmopolitan links rather than clashes. This book will be of great value to students and researchers in the fields of sociology, European politics, and history and cultural theory.

Religion in the Modern American West Ferenc Morton

Szasz,2002-01-01 When Americans migrated west they carried with them not only their hopes for better lives but their religious traditions as well Yet the importance of religion in the forging of a western identity has seldom been examined In this first historical overview of religion in the modern American West Ferenc Szasz shows the important role that organized religion played in the shaping of the region from the late nineteenth to late twentieth century He traces the major faiths over that time span analyzes the distinctive response of western religious institutions to national events and shows how western cities became homes to a variety of organized faiths that cast only faint shadows back east While many historians have minimized the importance of religion for the region Szasz maintains that it lies at the very heart of the western experience From the 1890s to the 1920s churches and synagogues created institutions such as schools and hospitals that shaped their local communities during the Great Depression the Latter day Saints introduced their innovative social welfare system and in later years Pentecostal groups carried their traditions to the Pacific coast and Southern Baptists among others set out in earnest to evangelize the Far West Beginning in the 1960s the arrival of Asian faiths the revitalization of evangelical Protestantism the ferment of post Vatican II Catholicism the rediscovery of Native American spirituality and the emergence of New Age sects combined to make western cities such as Los Angeles and San Francisco among the most religiously pluralistic in the world Examining the careers of key figures in western religion from Rabbi William Friedman to Reverend Robert H Schuller Szasz balances specific and general trends to weave the story of religion into a wider social and cultural context Religion in the Modern American West calls attention to an often overlooked facet of regional history and broadens our understanding of the American experience

world order together with the relative decline of US power and its abdication of its global leadership role will lead to more conflict disorder and chaos and how far non Western actors including China India and the Muslim world are capable of establishing visionary policy initiatives which reconfigure the paths and rules of economic integration and globalization and the mechanisms of global governance The book also assesses the sustainability of the economic rise of China and other non Western actors explores the Western liberal democratic order s capacity for resilience and discusses how far the outlook is pessimistic or optimistic

**Non-Fiction Cinema in Postwar Europe** Lucie Cesalkova,Johannes Praetorius-Rhein,Perrine Val,Paolo Villa,2025-10-01 After WWII cinema was everywhere in movie theatres public squares factories schools trial courts trains museums and political meetings Seen today documentaries and newsreels as well as the amateur production show the kaleidoscopic portrait of a changing Europe How did these cinematic images contribute to shaping the new societies emerging from the ashes of war both in the Western and in the Eastern bloc Why were they so crucial in framing and regulating new places and practices political systems economic dynamics educational frameworks and memory communities This edited volume explores the multiple ways nonfiction cinema reconfigured public spaces collective participation democratisation and governmentality between 1944 and 1956 Looking back at it through a transnational perspective and the critical category of spatiality nonfiction cinema appears in a new light simultaneously as a specifically situated and as a highly mobile medium it was a fundamental agent in reshaping Europe s shared identity and culture in a defining decade
