first book length ecocritical study of American theatre Earth Matters examines both familiar dramas but also lesser known grassroots plays in an effort to show that theatre can be a powerful force for social change From frontier drama of the late nineteenth century to the eco theatre movement Earth Matters argues that theatre has been part of the history of environmental ideas and action in the U S Earth Matters also maps the rise of an ecocritical thought and ecotheatre practice what the author calls ecodramaturgy showing how theatre has informed environmental perceptions and policies Through key plays and productions it identifies strategies for artists who want their work to contribute to cultural transformation in the face of climate change

An idea for a theatre ecology Carl Lavery, 2025-09-02 An Idea for a Theatre Ecology is the first book in the discipline of Theatre and Performance Studies to provide a rigorous and coherent theory of the ecology that is immanent to the theatrical medium Over six clearly written chapters the book provides a genealogy outlines a method provides a lexicon and demonstrates an alternative practice of ecoperformance analysis grounded in the figure of the archipelago Focusing on Antonin Artaud s theatre of cruelty the book argues that theatre has no need to provide ecological messages nor to transform itself into a platform for the narration of ecological stories Instead more is to be gained environmentally and politically by concentrating on the power of images gestures and voices to create corporeal affects and sensations that implicate the spectators in a terrestrial event

Bullen, Christine Plastow, 2024-06-12 Through a series of case studies this book explores the interrelations among Greek tragedy theatre practices and education in the United Kingdom This is situated within what the volume proposes as the Classics ecology The term ecology frequently used in Theatre Studies understands Classics as a field of cultural production dependent on shared knowledge circulated via formal and informal networks which operate on the basis of mutually beneficial exchange Productions of Greek tragedy may be influenced by members of the team studying Classics subjects at school or university or reading popular works of Classical scholarship or else by working with an academic consultant All of these have some degree of connection to academic Classics albeit filtered through different lenses creating a network of

mutual influence and benefit the ecology In this way theatrical productions of Greek drama may in the long term influence Classics as an academic discipline and certainly contribute to attesting to the relevance of Classics in the modern world The chapters in this volume include contributions by both theatre makers and academics whose backgrounds vary between Theatre Studies and Classics They comprise a variety of case studies and approaches exploring the dissemination of knowledge about the ancient world through projects that engage with Greek tragedy theories and practices of theatre making through the chorus and practical relationships between scholars and theatre makers By understanding the staging of Greek tragedy in the United Kingdom today as being part of the Classics ecology the book examines practices and processes as key areas in which the value of engaging with the ancient past is re negotiated This book is primarily suitable for students and scholars working in Classical Reception and Theatre Studies who are interested in the reception history of Greek tragedy and the intersection of the two fields It is also of use to more general Classics and Theatre Studies audiences especially those engaged with current debates around saving Classics and those interested in a structural systemic approach to the intersection between theatre culture and class

Ecodramaturgies Lisa Woynarski, 2021-12-10 This book addresses theatre's contribution to the way we think about ecology our relationship to the environment and what it means to be human in the context of climate change It offers a detailed study of the ways in which contemporary performance has critiqued and re imagined everyday ecological relationships in more just and equitable ways The broad spectrum of ecologically oriented theatre and performance included here largely from the UK US Canada Europe and Mexico have problematised reframed and upended the pervasive and reductive images of climate change that tend to dominate the ecological imagination Taking an inclusive approach this book foregrounds marginalised perspectives and the multiple social and political forces that shape climate change and related ecological crises framing understandings of the earth as home Recent works by *Fevered Sleep* Rimini

Looking at European drama through an ecological lens this book chronicles nature and the environment as primary topics in major plays from ancient to recent times Cless focuses on the few yet well known plays in which nature is at stake in the action or the environment is a dramatic force Though theater predominantly explores human and cultural themes these plays fully display the power of the other than human world and its endangerment during the history of Europe While offering a broad overview the book features extensive case studies of several playwrights plays and eco theater productions

Aristophanes The Birds Marlowe's Doctor Faustus Shakespeare's A Midsummer Night's Dream and The Tempest and Giraudoux's The Madwoman of Chaillot In each case Cless connects nature in the play to nature in the life of the playwright based on biographical research into the understanding of natural philosophy and awareness of the immediate environment that influenced the specific play The book is one of the first of its kind in a growing field of ecocriticism and emerging eco studies of theater **Rethinking the Theatre of the Absurd** Carl Lavery, Clare Finburgh Delijani, 2015-11-05 Rethinking the Theatre of the Absurd is an innovative collection of essays written by leading scholars in the fields of theatre performance and eco criticism which reconfigures absurdist theatre through the optics of ecology and environment As well as offering strikingly new interpretations of the work of canonical playwrights such as Beckett Genet Ionesco Adamov Albee Kafka Pinter Shepard and Churchill the book playfully mimics the structure of Martin Esslin's classic text The Theatre of the Absurd which is commonly recognised as one of the most important scholarly publications of the 20th century By reading absurdist drama for the first time as an emergent form of ecological theatre Rethinking the Theatre of the Absurd interrogates afresh the very meaning of absurdism for 21st century audiences while at the same time making a significant contribution to the development of theatre and performance studies as a whole The collection's interdisciplinary approach accessibility and ecological focus will appeal to students and academics in a number of different fields including theatre performance English French geography and philosophy It will also have a major impact on the new cross disciplinary paradigm of eco criticism

The New Wave of British Women Playwrights Elisabeth Angel-Perez, Aloysia Rousseau, 2023-01-30 It is a fact that today's British stages resound with powerfully innovative voices and that very often these voices have been those of young women playwrights This collection of essays gives visibility and pride of place to these fascinating voices by exploring the vitality inventiveness and particularly strong relevance of these poetics These women playwrights sometimes invent radically new forms and sometimes experiment with conventional ones in fresh and unexpected ways as for example when they re energize naturalism and provide it with new missions The plays that are addressed are all concerned with the necessity to grasp the complexity of the contemporary world and to further investigate what it means to be human Intimate or epic and sometimes both at once visionary or closer to everyday life these plays approach the contemporary world through a multitude of prisms
