Vietnam* Keith Griffin,2016-01-20 Vietnam along with China stands out as a rare success story among transition economics  
This authoritative study of the reform process since 1989 pays particular attention to the way the macroeconomics  
framework can contribute to an environment that encourages human development and helps to reduce poverty Thus there  
are chapters on macroeconomics reforms international trade policies the role of the state rural development education and  
health environmental issues and poverty and gender inequality Although areas of weakness are indicated emphasis is placed  
on the success Vietnam has experienced compared to other transition economies The lessons of both the successes and  
failures of the reform process for policymakers elsewhere are outlined      Commonwealth Public Administration Reform

This volume presents more than 500 indicators for 53 African countries with which to monitor development programmes and aid flows in the region. The data covers the period 1980-2000 and has been derived mainly from national statistical services in Africa supplemented by information from international agencies and World Bank staff estimates where available. The book is divided into 15 chapters which cover selected background data, national accounts, prices and exchange rates, money and banking, external sector issues, external debt and related flows, government finance, agriculture, power, communications and transportation, the privatisation of public enterprises, labour force and employment, aid flows, social indicators, environmental indicators and the Heavily Indebted Poor Countries (HIPC) Initiative.

Rural Development Policies and Sustainable Land Use in the Hillside Areas of Honduras: A Quantitative Livelihoods Approach Jansen, Hans G. P., Pender, John L., Damon, Amy, Schipper, Robert A., 2006. Poverty is deep and widespread in Honduras. This is especially the case in the hillside areas home to one third of the country's population, the majority of whom earn their living through agriculture. While both policymakers and donors are under strong pressure to provide adequate interventions, they require guidance on what drives sustainable rural productivity growth, how to prioritize expenditures and how to formulate effective development strategies. In this report, the authors develop an integrated econometric framework based on the livelihoods concept and demonstrate how it can be used as a policy targeting tool. Using this framework, the authors provide policymakers and stakeholders with empirical information on the livelihood strategies currently employed in the hillside areas of Honduras, existing opportunities for alleviating poverty and potential priorities for policy and investments.

Conflict and Change in the Horn of Africa Odi Moghalu, 2015-09-09. The Horn of Africa consists of five nations with unique historical experiences, from lofty and distinguishing to awful and tarnishing. North East Africa is a region shaped by history, from migrations and invasions to modern global politics and internal dynamics of historical ethnic and religious sectarian divisions. Aside from Ethiopia, the other nations of Africa's horn have been significantly shaped by the delineation of boundaries by Islamic and later European empires. That has defined its political and economic antecedents. Its location as a regional nexus to inevitable trade routes between three continents had made concerns by world powers over its affairs to endure. This historical account concentrates on the 20th century political and economic challenges that had characterized individual nations in the region to the new millennium. Their quite spectacular and thought-provoking internal and external legacies while transforming national lives also remain enduring in certain aspects.
