Economic Aid And The American Policy Toward Egypt 1955 1981:

Economic Aid and American Policy toward Egypt, 1955-1981 William Joseph Burns, 1985-01-01 Gamal Abdel Nasser's 1955 decision to barter Egyptian cotton for Soviet bloc weaponry thrust Egypt onto center stage in the Cold War in the Middle East. What Egypt needed most and what the United States was uniquely equipped to provide was economic aid. For the Egyptian government, eager to take rapid strides toward economic development but crippled by a burgeoning population, a paucity of arable land, and a meager reserve of foreign exchange, American economic aid promised to serve as an enormously important crutch. For American policymakers, economic assistance appeared to be an ideal means of developing American influence in Egypt. Few aid relationships in the last three decades can match the drama and significance of the U.S. Egyptian experience. This study shows how the American government attempted to use its economic aid program to induce or coerce Egypt to support U.S. interests in the Middle East in the quarter century following the 1955 Czech-Egyptian arms agreement. William J. Burns has analyzed recently released government documents and interviews with former policymakers to throw light on the use of aid as a tool of American policy toward the Nasser regime. He also offers valuable observations on the role of the American economic assistance program in the Sadat era. *Egypt and the Politics of U.S. Economic Aid* Marvin G. Weinbaum, 2019-03-04 The massive U.S. economic aid program for Egypt initiated in 1975 resulted in a bilateral aid relationship shaped by the interaction of political and development goals. In this study of the program's origins and consequences, Professor Weinbaum describes its scope and identifies the constraints that delayed and limited program implementation. The author discusses the modest U.S. leverage designed to encourage economic reforms and argues that far-reaching reforms could only be attained through a major change in Egypt's political structure. He finds that despite its failure to make Egypt more economically self-reliant, U.S. assistance has enabled the country to attain a level of consumption and development planning possible with no other alternative. The profit to the United States results from the regime's moderate foreign policies and compatible views on strategic threats to the region. Despite the mutual benefits of this aid program, Professor Weinbaum concludes that the United States must display greater sensitivity to Egypt's political and economic problems if the special relationship is to survive through the 1980s. *Egypt and American Foreign Assistance 1952-1956* J. Alterman, 2002-10-03 From the ground up, the story of missed opportunities, mixed messages, and mutual frustrations in American relations with Egypt at a seminal time. Unprecedented in its drawing on Egyptian official sources, *Hopes Dashed* sheds new light on the difficulties and challenges of a nascent relationship characterized by missed opportunities, mixed messages, and mutual frustrations. However beneficial the intentions of those on the ground, their desire for Egyptian economic development was stymied by bureaucratic obstacles both in Egypt and the United States. And as Egypt became embroiled in the Cold War, policy decisions increasingly were made at higher levels by officials more concerned with geopolitical and Arab-Israeli issues and less how U.S. assistance could help the domestic political economy of Egypt. Alterman

compellingly shows how the interests of both countries diverged to eventually undermine an early American attempt at economic assistance

The Struggle for Egypt Steven A. Cook, 2013-03-21 A half century ago Egypt under Nasser became the putative leader of the Arab world and a beacon for developing nations. Yet in the decades prior to the 2011 revolution it was ruled over by a sclerotic regime plagued by nepotism and corruption. During that time its economy declined into near shambles, a severely overpopulated Cairo fell into disrepair, and it produced scores of violent Islamic extremists. In *The Struggle for Egypt* now with a new epilogue on the post Mubarak era, noted regional specialist Steven A. Cook provides a sweeping and incisive account of how this parlous state of affairs came to be, why the revolution occurred, and where Egypt might be headed next. From p. 4 of cover.

The Right Kind of Revolution Michael E. Latham, 2011-01-15 After World War II a powerful conviction took hold among American intellectuals and policymakers that the United States could profoundly accelerate and ultimately direct the development of the decolonizing world, serving as a modernizing force around the globe. By accelerating economic growth, promoting agricultural expansion, and encouraging the rise of enlightened elites, they hoped to link development with security, preventing revolutions and rapidly creating liberal capitalist states. In *The Right Kind of Revolution*, Michael E. Latham explores the role of modernization and development in U.S. foreign policy from the early Cold War through the present. The modernization project rarely went as its architects anticipated. Nationalist leaders in postcolonial states such as India, Ghana, and Egypt pursued their own independent visions of development. Attempts to promote technological solutions to development problems also created unintended consequences by increasing inequality, damaging the environment, and supporting coercive social policies. In countries such as Guatemala, South Vietnam, and Iran, U.S. officials and policymakers turned to modernization as a means of counterinsurgency and control, ultimately shoring up dictatorial regimes and exacerbating the very revolutionary dangers they wished to resolve. Those failures contributed to a growing challenge to modernization theory in the late 1960s and 1970s. Since the end of the Cold War, the faith in modernization as a panacea has reemerged. The idea of a global New Deal, however, has been replaced by a neoliberal emphasis on the power of markets to shape developing nations in benevolent ways. U.S. policymakers have continued to insist that history has a clear universal direction, but events in Iraq and Afghanistan give the lie to modernization's false hopes and appealing promises.

Historical Dictionary of Egypt Arthur Goldschmidt, Jr., 2023-07-25 Egypt is the world's oldest continuous country with a recorded past of over 6,000 years. Often invaded, conquered, and occupied by foreign armies, Egypt has never lost its identity. The Egyptians of today, although they have changed their language once and their religion twice, descend mainly from the Egyptians who built the Giza Pyramids and the Temple of Karnak, who served Alexander the Great and his heirs, who submitted to Augustus Caesar, and raised much of the grain that fed the Roman Empire, who started Christian monasticism, and the veneration of the Virgin Mary, and who advanced and sustained Muslim learning in what is now the world's oldest functioning university. It was and is one of the most important countries in the world. Historical
