Economic Bulletin For Europe V49:

Germany, Europe and the Persistence of Nations Stephen Wood, 2018-12-20 Published in 1998 this book is an articulate and densely documented account of political cultural and historical forces and tensions involved in contemporary European integration most especially concerning Germany In doing so it provides an effective fusion of a vast array of material from what are normally separate disciplines The book investigates contemporary resonances of identifications and conceptions of political boundaries that appeared in Europe in the late eighteenth and nineteenth century It argues that within a supranationalising Europe national identity and nationalism have not disappeared as cultural and political phenomena Rather they persist and manifest themselves in variable forms at popular and elite levels This is the basis for Europe's condition of far from completed unity at the centre of which is now a reunited Germany more sure of itself but less sure of the world around it *Index to Legal Periodicals & Books*, 2006 Monthly Bulletin San Francisco Public

Kumah, Jannick Damgaard, Thomas Elkjaer, 2009-11-01 This paper analyzes the seven valuation methods for unlisted direct investment equity included in the recently adopted IMF Balance of Payments and International Investment Position Manual Sixth Edition BPM6 Based on publicly available Danish data we test the three methods that are generally applicable and find that the choice of valuation method and estimation technique can have a highly significant impact on the international investment position pointing to the need for further harmonization The results show that the price to book value method generates more robust market value estimates than the price to earnings method This finding suggests that the valuation basis for the forthcoming Coordinated Direct Investment Survey own funds at book value will provide useful information for compiling the international investment position **Economic Bulletin for Europe. to legally end the state of war between Japan and its Pacific War enemies many other considerations some of which had hardly anything to do with the Pacific War were involved The US Soviet rivalry was the most representative but this was not the only factor For instance the decision to invite Cambodia Laos and Vietnam as signatories was determined based on French colonial interests Indochinese yearning for independence and the need for French contribution in the North Atlantic Treaty Organization Similarly German reparations settlements after the First and Second World Wars impacted Japanese reparations settlement Meanwhile the commercial terms of the treaty were informed by the Great Depression and its legacies This book addresses these aspects of the peace treaty that are hitherto not sufficiently elaborated upon in existing studies Highlighting the importance of the treaty for shaping postwar East Asia and international relations in the region to the present day this book will be a valuable resource for students and scholars of post war Japan International relations and the Cold War
