International Bibliography of Economics, 2003 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences *Reconstructing Development Theory* E.A. Brett, 2009-07-08 The book provides a systematic assessment of the evolution of development theory its relationship to orthodox social science analysis and the liberal pluralistic orthodoxy that now dominates the mainstream approach to international development showing how we can transcend its failure to address some key problems of late and uneven development **Globalization and the Southern African Economies** Mats Lundahl, 2004 Focuses on the place of Southern Africa in the globalized economy Identifies the overall economic trends in the African continent and the responses required and actual to the impact of an increasingly interdependent world economy *The Geopolitics of Regional Power* Sören Scholvin, 2016-03-09 In the last two decades various states from the Global South have emerged as important players in international relations Most popular among them is China Brazil India and South Africa have also taken essential roles in global and regional politics Compared to traditional great powers they can be labelled regional great powers or regional powers because their influence is with the exception of China concentrated on their neighbourhood The impact of regions meaning the impact of geography on the economics and politics of regional powers is surprisingly understudied This book analyses how geographical conditions influence the regional economics and politics of South Africa allowing the author to delineate its region of influence **Revisiting the**

Informal Sector Sarbajit Chaudhuri,Ujjaini Mukhopadhyay,2009-10-15 This book provides insight into the diverse aspects of the informal sector its role in the context of unemployment child labor globalization and environment as well as its multi faceted interaction with the other sectors of the economy

From African Peer Review Mechanisms to African Queer Review Mechanisms? Nhemachena, Artwell,Warikandwa, Tapiwa Victor,2019-04-22 Tracing recent bouts of globalised Mugabephobia to Robert Mugabe s refusal to be neoimperially penetrated this book juxtaposes economic liberalisation with the mounting liberalisation of African orifices Reading land repossession and economic structural adjustment programmes together with what they call neoimperial structural adjustment of African orifices the authors argue that there has been liberalisation of African orifices in a context where Africans are ironically prevented from repossessing their material resources Juxtaposing recent bouts of Mugabephobia with discourses on homophobia the book asks why empire prefers liberalising African orifices rather than attending to African demands for restitution restoration and reparations Noting that empire opposes African sovereignty autonomy and centralisation of power while paradoxically promoting transnational corporations centralisation of power over African economies the book challenges contemporary discourses about shared sovereignty distributed governance heterarchy heteronomy and onticology Arguing that colonialists similarly denied Africans of their human essence the tome problematises queer sexualities homosexuality ecosexuality cybersexuality and humanoid robotic sexuality all of which complicate supposedly fundamental distinctions between human beings and animals and machines Provocatively questioning queer sexuality and liberalised orifices that serve to divert African attention from the more serious unfinished business of repossessing material resources the book insightfully compares Robert Gabriel Mugabe Thomas Sankara and Julius Kambarage Nyerere who emphasised the imperatives of African autonomy ownership control and sovereignty over natural resources Observing Africans interest in repossessing ownership and control over their resources the book wonders why so much queer international attention is focused on foisting queer sexuality while downplaying more burning issues of resource repossession human dignity equality and equity craved by Africans for whom life is not confined to sexuality With insights for scholars in sociology development studies law politics African studies anthropology transformation decolonisation and decoloniality the book argues that liberal democracy is a fa ade in a world that is actually ruled through criminocracy

Africa's Development Impasse Doctor Stefan Andreasson,2013-07-04 Orthodox strategies for socio economic development have failed spectacularly in Southern Africa Neither the developmental state nor neoliberal reform seems able to provide a solution to Africa s problems In Africa s Development Impasse Stefan Andreasson analyses this failure and explores the potential for post development alternatives Examining the post independence trajectories of Botswana Zimbabwe and South Africa the book shows three different examples of this failure to overcome a debilitating colonial legacy Andreasson then argues that it is now time to resuscitate post development theory s challenge to conventional development In doing this he claims we face the enormous challenge of translating post development into actual politics for a

socially and politically sustainable future and using it as a dialogue about what the aims and aspirations of post colonial societies might become This important fusion of theory with empirical case studies will be essential reading for students of development politics and Africa

Zimbabwe: The End of the First Republic Jacob W. Chikuhwa, 2013-10-03 Dr Jacob Chikuhwa continues with his academic analysis of both the political and economic developments in Zimbabwe Supported by well researched historical narrative and economic data Zimbabwe The End of the First Republic examines the triumphs and tribulations of the Zimbabwean national project leading to the adoption of a home grown constitution and the July 31 2013 elections Although the war of liberation led to Zimbabwes independence in 1980 it has not established democracy functioning health and education systems and equal opportunities for Zimbabweans What Zimbabweans experience is decay of infrastructure with very little in the state coffers despite abundant natural resources The theme on economic performance focuses on numerous failed economic blueprints that began with the Economic Structural Adjustment Programme during the early 1990s The haphazard land reform programme and the exploitation of mineral resources take centre stage While Zimbabwe is poised to supply 25% of world diamond output the way tenders are being awarded for the diamond mining has highlighted the need for accountability and transparency Before the coalition government was formed in 2009 the country had gone from being one of Africas strongest economies to one of its weakest as Zimbabweans grappled with hyperinflation mass unemployment and widespread poverty Although the Short Term Emergency Recovery Programme brought some semblance of economic stability the way indigenisation and economic empowerment are being carried out make investors shun the southern African country Chikuhwas economic study focuses on how corruption and a lack of transparency and accountability in Zimbabwes governance have intensified social problems crime and poverty and have alienated the IMF and World Bank as well as potential foreign investors This study rich in statistical data and heartfelt commentary will serve as a useful introduction for those studying Zimbabwes recent history and economic development and entrepreneurs looking for investment opportunities

The Impact of Structural Adjustment Programmes on the Public Health Sector: The Case of Zimbabwe Tsitsi Muvunzi, 2015 Structural Adjustment Programmes of the International Monetary Fund IMF and World Bank WB were implemented as part of aid conditionality in Africa and Latin America since the 1980s There is a wide range of literature critical of SAPs Several debates have focused on whether the failure of SAPs was a result of the inherent weaknesses of the IMF WB sponsored structural adjustment or whether it was caused by structural failures of policy implementation within the African continent The author uses the Zimbabwean case to analyze the impact of SAPs on social service sectors in particular the public health sector

Making History in Mugabe's Zimbabwe Blessing-Miles Tendi, 2010 The crisis that has engulfed Zimbabwe since 2000 is not simply a struggle against dictatorship It is also a struggle over ideas and deep seated historical issues still unresolved from the independence process that both Robert Mugabe s ZANU PF regime and Morgan Tsvangirai s MDC are vying first to define and then to address This book traces the

role of politicians and public intellectuals in media civil society and the academy in producing and disseminating a politically usable historical narrative concerning ideas about patriotism race land human rights and sovereignty It raises pressing questions about the role of contemporary African intellectuals in the making of democratic societies In so doing the book adds a new and rich dimension to the study of African politics which is often diluted by the neglect of ideas The Rise of China and India A. Santos-Paulino,G. Wan,2010-10-13 This volume is a timely addition to the emerging literature on the rise of China and India focusing on how rapid economic growth and geopolitical changes in these countries are reshaping the world economy and global governance It covers issues such as productivity labor market trade competition and energy

Multinationals and Asia Axele Giroud,Deli Yang,Alex Mohr,2007-05-07 Adopting an international business perspective this book surveys recent business developments in Asia and the activities of multinational firms in the region focusing in particular on the changing nature of organizational and institutional relationships including intra and inter organizational relationships business relationships with institutions and relationships with stakeholders The international team of contributors discuss the current and future trends in a wide range of business sectors across the region as well as assessing how the nature of multinationals activities in the region is changing as the business environment evolves and becomes more globalized

Gendering the Settler State Kate Law,2015-11-06 White women cut an ambivalent figure in the transnational history of the British Empire They tend to be remembered as malicious haridans personifying the worst excesses of colonialism as vacuous fusspots whose lives were punctuated by a series of frivolous pastimes or as casualties of patriarchy constrained by male actions and gendered ideologies This book which places itself amongst other new imperial histories argues that the reality of the situation is of course much more intricate and complex Focusing on post war colonial Rhodesia *Gendering the Settler State* provides a fine grained analysis of the role s of white women in the colonial enterprise arguing that they held ambiguous and inconsistent views on a variety of issues including liberalism gender race and colonialism

Natural Disasters, Cultural Responses Christof Mauch,Christian Pfister,2009-03-16 Catastrophes it seems are becoming more frequent in the twenty first century According to UN statistics every year approximately two hundred million people are directly affected by natural disasters_seven times the number of people who are affected by war Discussions about global warming and fatal disasters such as Katrina and the Tsunami of 2004 have heightened our awareness of natural disasters and of their impact on both local and global communities Hollywood has also produced numerous disaster movies in recent years some of which have become blockbusters This volume demonstrates that natural catastrophes_earthquakes hurricanes floods etc _have exercised a vast impact on humans throughout history and in almost every part of the world It argues that human attitudes toward catastrophes have changed over time Surprisingly this has not necessarily led to a reduction of exposure or risk The organization of the book resembles a journey around the globe_from Europe to North Africa the Middle East and Asia and from the Pacific through South America and Mexico to the United States While natural

disasters appear everywhere on the globe different cultures societies and nations have adopted specific styles for coping with disaster Indeed how humans deal with catastrophes depends largely on social and cultural patterns values religious belief systems political institutions and economic structures The roles that catastrophes play in society and the meanings they are given vary from one region to the next they differ_and this is one of the principal arguments of this book_from one cultural political and geographic space to the next The essays collected here help us to understand not only how people in different times throughout history have learned to cope with disaster but also how humans in different parts of the world have developed specific cultural social and technological strategies for doing so **Journal of Economic Literature** ,2003
