

Economic Voting

Francis E Hutchinson, Lee Hwok Aun

Economic Voting:

The Economic Vote Raymond M. Duch, Randolph T. Stevenson, 2008-03-17 This book proposes a selection model for explaining cross national variation in economic voting Rational voters condition the economic vote on whether incumbents are responsible for economic outcomes because this is the optimal way to identify and elect competent economic managers under conditions of uncertainty This model explores how political and economic institutions alter the quality of the signal that the previous economy provides about the competence of candidates The rational economic voter is also attentive to strategic cues regarding the responsibility of parties for economic outcomes and their electoral competitiveness Theoretical propositions are derived linking variation in economic and political institutions to variability in economic voting The authors demonstrate that there is economic voting and that it varies significantly across political contexts The data consist of 165 election studies conducted in 19 different countries over a 20 year time period *Economic Voting* Han Dorussen, Michael Taylor, 2003-09-02 Economic voting is a phenomenon that political scientists and economists can hardly overlook There is ample evidence for a strong link between economic conditions and government popularity However not everything is that simple and this edited collection focuses on the comparative puzzle of economic voting Economic Voting emphasises the importance of comparative research design and argues that the psychology of the economic voter model needs to be developed further **Economic Voting** Han Dorussen, Michael Taylor, 2002 Economic voting is a phenomenon that political scientists and economists can hardly overlook There is ample evidence for a strong link between economic conditions and government popularity However not everything is that simple and this edited collection focuses on the comparative puzzle of economic voting Economic Voting emphasises the importance of comparative research design and argues that the psychology of the economic voter model needs to be developed further *Voting in Quebec Municipal Elections* Éric Bélanger, Cameron D. Anderson, R. Michael McGregor, 2022-02-23 While Quebec is well known for its provincial level party politics and thriving nationalism voting behaviour and electoral campaigning at the municipal level have failed to gain much attention to date *Voting in Quebec Municipal Elections* seeks to transform the state of municipal elections research in Quebec through a systematic study of the 2017 Montreal and Quebec City elections Drawing upon data from the Canadian Municipal Election Study the authors demonstrate not only the importance of Quebec municipal politics but the many ways that municipal elections research can inform our broader understanding of voting behaviour in the province This volume considers the features particular to the Quebec local context such as the importance of language and nationalism the effects of local party labels for down ballot races and the role of ideology *Voting in Quebec Municipal Elections* represents the largest ever collection of work on local elections in the province s history making a significant contribution to our understanding of the municipal voter in Quebec *Decentralization, Economic Voting, and Accountability in a New Democracy* Paloma Bauer de la Isla, 2006 **Economic Voting** Austin Hart, 2016-09 Highlighting the power of campaign strategy this study challenges

the notion that economic performance necessarily drives electoral outcomes

The Oxford Handbook of Comparative Politics Carles Boix, Susan Carol Stokes, 2007 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science Each volume focuses on a particular part of the discipline with volumes on Public Policy Political Theory Political Economy Contextual Political Analysis Comparative Politics International Relations Law and Politics Political Behavior Political Institutions and Political Methodology The project as a whole is under the General Editorship of Robert E Goodin with each volume being edited by a distinguished international group of specialists in their respective fields The books set out not just to report on the discipline but to shape it The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines The Oxford Handbook of Comparative Politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by 47 top scholars in the discipline of comparative politics Part I includes chapters surveying the key research methodologies employed in comparative politics the comparative method the use of history the practice and status of case study research the contributions of field research and assessing the possibility of constructing a science of comparative politics Parts II to IV examine the foundations of political order the origins of states and the extent to which they relate to war and to economic development the sources of compliance or political obligation among citizens democratic transitions the role of civic culture authoritarianism revolutions civil wars and contentious politics Parts V and VI explore the mobilization representation and coordination of political demands Part V considers why parties emerge the forms they take and the ways in which voters choose parties It then includes chapters on collective action social movements and political participation Part VI opens up with essays on the mechanisms through which political demands are aggregated and coordinated This sets the agenda to the systematic exploration of the workings and effects of particular institutions electoral systems federalism legislative executive relationships the judiciary and bureaucracy Finally Part VII is organized around the burgeoning literature on macropolitical economy of the last two decades

The Defeat of Barisan Nasional Francis E Hutchinson, Lee Hwok Aun, 2019-12-16 The results of Malaysia's 14th General Elections of May 2018 were unexpected and transformative Against conventional wisdom the newly reconfigured opposition grouping Pakatan Harapan PH decisively defeated the incumbent Barisan Nasional BN ending six decades of uninterrupted dominant one party rule Despite a long running financial scandal dogging the ruling coalition pollsters and commentators predicted a solid BN victory or at least a narrow parliamentary majority Yet on the day deeply rooted political dynamics and influential actors came together sweeping aside many prevailing assumptions and reconfiguring the country's political reality in the process In order to understand the elections and their implications this edited volume brings together contributions from ISEAS Yusof Ishak Institute researchers and a group of selected collaborators to examine the elections from three angles campaign dynamics important trends among major interest groups and local level dynamics and developments in key states This analytical work

is complemented by personal narratives from a selection of GE 14 participants

The Oxford Handbook of American Elections and Political Behavior Jan E. Leighley, 2012-02-16 The Oxford Handbooks of American Politics are the essential guide to the study of American political life in the 21st Century With engaging contributions from the major figures in the field The Oxford Handbook of American Elections and Political Behavior provides the key point of reference for anyone working in American Politics today

The post-crisis Irish voter Michael Marsh, David M. Farrell, Theresa Reidy, 2018-08-31 This is the definitive study of the Irish general election of 2016 the most dramatic election in a generation which resulted in the worst electoral outcome for Ireland's established parties the most fractionalized party system in the history of the state and the emergence of new parties and groups These outcomes follow a pattern seen across a number of Western Europe's established democracies in which the deep crisis of the Great Recession has wreaked havoc on party systems The objective of this book is to assess this most extraordinary of Irish elections both in its Irish and wider cross national context With contributions from leading scholars on Irish elections and using a unique dataset the Irish National Election Study 2016 this volume explores voting patterns at Ireland's first post crisis election and it considers the implications for the electoral landscape and politics in Ireland

A Conservative Revolution? Michael Marsh, David M. Farrell, Gail McElroy, 2017-03-02 The 2011 general election in the Republic of Ireland which took place against a backdrop of economic collapse was one of the most dramatic ever witnessed The most notable outcome was the collapse of Fianna Fáil one of the world's most enduring and successful parties In comparative terms Fianna Fáil's defeat was among the largest experienced by a major party in the history of parliamentary democracy It went from being the largest party in the state a position it had held since 1932 to being a bit player in Irish political life And yet ultimately there was much that remained the same perhaps most distinctly of all the fact that no new parties emerged It was if anything a conservative revolution A Conservative Revolution examines underlying voter attitudes in the period 2002-11 Drawing on three national election studies the book follows party system evolution and voter behaviour from boom to bust These data permits an unprecedented insight into a party system and its voters at a time of great change as the country went through a period of rapid growth to become one of Europe's wealthiest states in the early twenty first century to economic meltdown in the midst of the international Great Recession all of this in the space of a single decade In the process this study explores many of the well established norms and conventional wisdoms of Irish electoral behaviour that make it such an interesting case study for comparison with other industrialized democracies

The Taiwan Voter Christopher Henry Achen, T. Y. Wang, 2017-07-26 The Taiwan Voter examines the critical role ethnic and national identities play in politics utilizing the case of Taiwan Although elections there often raise international tensions and have led to military demonstrations by China no scholarly books have examined how Taiwan's voters make electoral choices in a dangerous environment Critiquing the conventional interpretation of politics as an ideological battle between liberals and conservatives The Taiwan Voter demonstrates in

Taiwan the party system and voters responses are shaped by one powerful determinant of national identity the China factor Taiwan s electoral politics draws international scholarly interest because of the prominent role of ethnic and national identification While in most countries the many tangled strands of competing identities are daunting for scholarly analysis in Taiwan the cleavages are powerful and limited in number so the logic of interrelationships among issues partisanship and identity are particularly clear The Taiwan Voter unites experts to investigate the ways in which social identities policy views and partisan preferences intersect and influence each other These novel findings have wide applicability to other countries and will be of interest to a broad range of social scientists interested in identity politics The SAGE Encyclopedia of Political Behavior Fathali M. Moghaddam,2017-05-03 The SAGE Encyclopedia of Political Behavior explores the intersection of psychology political science sociology and human behavior This encyclopedia integrates theories research and case studies from a variety of disciplines that inform this established area of study *Economics and Elections* Michael S. Lewis-Beck,1990 A cross national study of the effect of economic conditions on voting behavior in the United States and the Western democracies **The SAGE Handbook of Electoral Behaviour** Kai Arzheimer,Jocelyn Evans,Michael S. Lewis-Beck,2017-02-27 The study of voting behaviour remains a vibrant sub discipline of political science The Handbook of Electoral Behaviour is an authoritative and wide ranging survey of this dynamic field drawing together a team of the world s leading scholars to provide a state of the art review that sets the agenda for future study Taking an interdisciplinary approach and focusing on a range of countries the handbook is composed of eight parts The first five cover the principal theoretical paradigms establishing the state of the art in their conceptualisation and application and followed by chapters on their specific challenges and innovative applications in contemporary voting studies The remaining three parts explore elements of the voting process to understand their different effects on vote outcomes The SAGE Handbook of Electoral Behaviour is an essential benchmark publication for advanced students researchers and practitioners in the fields of politics sociology psychology and research methods The Oxford Handbook of Public Choice Roger D. Congleton,Bernard Grofman,Stefan Voigt,2019 This two volume collection provides a comprehensive overview of the past seventy years of public choice research written by experts in the fields surveyed The individual chapters are more than simple surveys but provide readers with both a sense of the progress made and puzzles that remain Most are written with upper level undergraduate and graduate students in economics and political science in mind but many are completely accessible to non expert readers who are interested in Public Choice research The two volume set will be of broad interest to social scientists policy analysts and historians The ^AOxford Handbook of Public Choice, Volume 1 Roger D. Congleton,Bernard N. Grofman,Stefan Voigt,2018-12-07 The Oxford Handbook of Public Choice provides a comprehensive overview of the research in economics political science law and sociology that has generated considerable insight into the politics of democratic and authoritarian systems **The Comparative Study of Electoral Systems** Hans-Dieter Klingemann,2009-02-05 Citizens living in

presidential or parliamentary systems face different political choices as do voters casting votes in elections governed by rules of proportional representation or plurality Political commentators seem to know how such rules influence political behaviour They firmly believe for example that candidates running in plurality systems are better known and held more accountable to their constituencies than candidates competing in elections governed by proportional representation However such assertions rest on shaky ground simply because solid empirical knowledge to evaluate the impact of political institutions on individual political behaviour is still lacking The Comparative Study of Electoral Systems has collected data on political institutions and on individual political behaviour and scrutinized it carefully In line with common wisdom results of most analyses presented in this volume confirm that political institutions matter for individual political behaviour but contrary to what is widely believed they do not matter much

Economics and Politics Helmut Norpoth, Michael S.

Lewis-Beck, Jean-Dominique Lafay, 1991 An important study on the effects of economic performance on elections

The Economic Vote

Duch Raymond M Stevenson Randolph T, Raymond M. Duch, Randolph T. Stevenson, 2014-05-14 Defining and measuring the economic vote Patterns of retrospective economic voting in western democracies Estimation measurement and specification Competency signals and rational retrospective economic voting What do voters know about economic variation and its sources Political control of the economy Responsibility contention and the economic vote The distribution of responsibility and economic vote The pattern of contention and the economic vote
