

PURPOSE

The purpose of my science project is to learn about the Arctic ecosystem and how climate change impacts the ecosystem.

HYPOTHESIS

I think the Arctic ecosystem is changing due to global warming.

REPORT

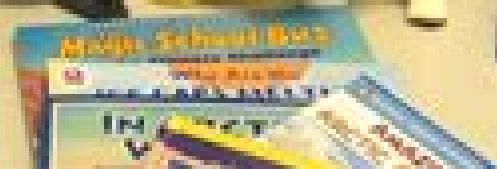

ARCTIC ECOSYSTEM

CONCLUSION

In conclusion, I learned that the Arctic ecosystem is being affected by global warming. The ice is melting, and the polar bears are losing their habitat. This is a serious problem, and we need to take action to stop global warming. We can do this by reducing our carbon footprint, using renewable energy, and supporting organizations that are working to protect the environment.
