Ecstasy And Holiness Counter Culture And The Open Society:

Ecstasy and Holiness Frank Musgrove, 2019-03-19 This book first published in 1974 argues that the counter culture is not the outcome of alienation but of opportunity being the result of a new generational consciousness an openness which has characterised industrial societies of the West since the 1950s Its roots lie in economic expansion and population movement and growth the same factors that are cited in the decline of religiousness **British Counter-Culture 1966-73** Elizabeth Nelson, 1989-09-25 A study of the atmosphere out of which the counter culture grew the anti bomb movement and the emergence of youth and its music and culture The underground press forms the focus of an examination of its aspirations and significance and the failure of the counter culture to achieve its aims **Musgrove F. Ecstasy and Holiness** Frank Musgrove, 1974 **Consuming Technologies** Eric Hirsch, Roger Silverstone, 2003-09-02 Consuming Technologies opens for analysis some crucial but rarely examined areas of social cultural and economic life At its core is a concern with the complex set of relationships that mark and define the place of the domestic in the modern world and an explanation of the relationship between the domestic and public spheres as they are mediated by consumption and technology Children of the New Age Steven Sutcliffe, 2003 As the first true social history of New Age culture this presents an unrivalled overview of the diverse varieties of New Age belief and practise from the 1930s to the present day **Horrible Workers** Donald A. Nielsen, 2005-01-01 The cultural logic contained within Emile Durkheim's work specifically categories he puts forth in Suicide creates the ground for Horrible Workers This book is constructed to allow its readers to study the cases of Max Stirner Arthur Rimbaud Robert Johnson and the Charles Manson Circle independently of one another or in a comparative fashion Each case demonstrates in what ways particular social experiences lead to what have been perceived as unique forms of cultural expression **Consumption: Theory and issues in the study of consumption** Daniel Miller, 2001 *Seven Lives from Mass Observation* James Hinton, 2016-09-29 What was it like to live in Britain during the second half of the twentieth century In a successor to his acclaimed *Nine Wartime Lives* Mass Observation and the Making of the Modern Self James Hinton uses autobiographical writing contributed to Mass Observation since 1981 to explore the social and cultural history of late twentieth century Britain Prompted by thrice yearly open ended questionnaires Mass Observation's volunteers wrote about their political attitudes religious beliefs work childhoods education friendships marriages sex lives mid life crises aging the whole range of human emotion feeling attitudes and experience At the core of the book are seven biographical essays intimate portraits of individual lives set in the context of the shift towards the more tolerant and permissive society of the 1960s and the rise of Thatcherite neo liberalism as the structures of Britain's post war settlement crumbled from the later 1970s The mass observers featured in the book four women and three men are drawn from across the social spectrum wife of a small businessman teacher social worker RAF wife mechanic lorry driver City banker all active and forceful characters with strong opinions and lives crowded with struggle and drama The honesty and frankness with which they wrote

about themselves takes us below the surface of public life to the efforts of ordinary but exceptionally articulate and self reflective people to make sense of their lives in rapidly changing times **Explaining Environmentalism** Philip W.

Sutton,2019-06-04 This title was first published in 2000 The author examines those current theories which purport to explain the emergence and character of new social movements in the advanced industrial societies since the 1960s In particular it sets out to test the efficacy of these explanations in relation to the history of the environmental movement in Britain The book breaks new ground in bringing together both short term and the more historically orientated long term explanations into a single volume thus providing an invaluable resource for students of social movements Its critical exposition of major theories also points to the need for a more developmental approach which seeks to connect old and new movement forms thus allowing for a more balanced evaluation of the potential of the environmental movement to bring about significant social change Moral Markets Nico Stehr,2015-12-03 Nothing affects modern society more than the decisions made in the

marketplace especially but not only the judgments of consumers Stehr s designation of a new stage in modern societies with the term moral markets signals a further development in the social evolution of markets Market theories still widely in use today emerged in a society that no longer exists Consumers were hardly in evidence at all in early theories of the market Today growing affluence greater knowledge and high speed communication among consumers builds into the marketplace notions of fairness solidarity environment health and political considerations imbued with a long term perspective that can disrupt short term pursuits of the best buy Importantly such social goals individual apprehensions and modes of consumer conduct become inscribed today in products and services offered in the marketplace as well as in the rules and regulations that govern market relations Stehr uses examples to illustrate these trends and build new theory fitting today s changing consumerism **Subversive Family** Ferdinand Mount,2010-06-15 British politician and writer Ferdinand Mount challenges

contemporary beliefs about society and family including the history of divorce childcare and the concept of the nuclear family In Subversive Family politician and writer Ferdinand Mount argues that society is shaped by a series of powerful revolutionary movements the leaders of which whether they be political ideologues theologians feudal lords or feminist writers have done their utmost to render the family a subordinate instrument of their purpose but that in spite of it all the family endures Mount maintains that many widely held contemporary beliefs about the family are based on a willful misreading of the evidence among the myths are that arranged marriages were the norm until this century that child care is a modern innovation that in earlier societies children were treated as expendable objects that the nuclear family is not a 20th century invention and that romantic love never existed before the troubador poets glorified adultery Divorce he contends is no great novelty either he shows that in many times and places it has been almost as easy to obtain as it is today Far from diminishing the general desire and respect for family life Mount contends that the provision for divorce has been popularly regarded as an integral part of any sensible system of family law This study should jolt the reader into a re assessment of one

of the most familiar and ancient institutions and encourage greater consideration for policies today that support the family

Easternization of the West Colin Campbell, 2015-11-17 In this provocative and groundbreaking book Colin Campbell shows that the civilization of the West is undergoing a revolutionary process of change one in which features that have characterized the West for two thousand years are in the process of being marginalized to be replaced by those more often associated with the civilizations of the East Moving far beyond popular trends Campbell assembles a powerful range of evidence to show how Easternization has been building throughout the last century especially since the 1960s Campbell demonstrates how it was largely in the 1960s that new interpretations in theology political thought and science were widely adopted by a new generation of young culture carriers This highly original and wide ranging book advances a thesis that will be of interest to scholars in many disciplines in the humanities and social sciences

Consuming Symbolic Goods Wilfred Dolfsma, 2013-09-13 The phenomenon of consumption has increasingly drawn attention from economists While the sole purpose of production is consumption as Adam Smith has claimed economists have up to recently generally ignored the topic This book brings together a range of different perspectives on the topic of consumption that will finally shed the necessary light on a largely neglected theme such as Why is the consumption of symbolic goods different than that of goods that are not constitutive of individuals identity How does the consumption of symbolic goods affect social processes and economic phenomena Will taking consumption of symbolic goods seriously impact economics itself The book discusses these issues theoretically and through analyses of such cases as food religion fashion empirically as well It also discusses the possible role in the future of consumption This book was previously published as a special issue of *Review of Social Economy*

Consumption and Consumer Society Colin Campbell, 2021-11-15 This collection of high quality largely previously published essays analyses a range of controversies in the field of the sociology of culture and consumption Campbell made a major contribution to the development of this field and he has a clear and coherent theoretical position which he employs to comment on interesting disputes among scholars seeking to understand consumer culture Containing a brand new expansive essay reflecting on consumption in the age of a pandemic and drawing out some of the conceptual and practical implications of the relationship between wants and needs science and norms this synthesis will be an invaluable resource for students and researchers of consumption consumer and cultural sociology

[A Social History of](#)

England 1851-1990 Francois Bedarida,2013-06-17 In this the second edition of A Social History of England Francois B darida has added a new final chapter on the last fifteen years The book now traces the evolution of English society from the height of the British Empire to the dawn of the single European market Making full use of the Annales school of French historiography B darida takes his inquiry beyond conventional views to penetrate the attitudes behaviour and psychology of the British people

The Romantic Ethic and the Spirit of Modern Consumerism Colin Campbell,2005 The Romantic Ethic and the Spirit of Modern Consumerism was first published by Basil Blackwell of Oxford in 1987 A paperback edition appeared two years later while in the following five years it was reprinted four times However although the intervening years have seen the appearance of Italian Portuguese Slovenian and Chinese editions no copies have been available in English since 1998 This Alcuin Academic edition has therefore been published in order to fill this gap and more specifically to meet the needs of those academics and students who have contacted me over the past six or seven years in search of an English language version of the book Naturally I have considered writing a revised edition which indeed some critics as well as a few friends have suggested is long overdue Amazon com

Youth Gill Jones,2009 This accessible book takes a fresh and original approach to the concept of youth placing changes in the social construction of youth within a more general story of the rise and fall of grand theory in social science Gill Jones evaluates the current relevance of these wider social theories to understanding youth in late modernity in the light of key examples of empirical work on young people Individual chapters are organized around the themes of action identity transition inequality and dependence conceptual themes which cross cut young people s lives The book considers the validity of youth as a social concept and examines ways of identifying what is specific to young people without resorting to seeing them as a homogeneous group defined by their age in so doing it uncovers notions which are erroneously attributed to young people Youth represents a thought provoking challenge to a new generation of social science students youth researchers and practitioners to distance themselves from the politically and emotively charged issue of youth in contemporary society and move further towards re theorizing the concept of youth in ways which are relevant to young people s lives today Jacket

strategies in Tourism Marketing Play and Power in Religion André Droogers, 2011-11-30 At a religion's margins a counterpoint can be found for its power center. In a creative manner relatively free from clerical control religious virtuosos take new initiatives there. Inspired by their experience with the sacred they explore their liberty to play with meanings, images and practices. Yet the eventual success of such an innovation calls for organization and thus for the exercise of power. Accordingly new movements slow down into institutions till a new virtuoso brings the cycle to a fresh start. Over the last thirty years André Droogers has extensively published on the relation between religion, power and play. In this collection of essays the most relevant articles are reprinted. For this volume Droogers wrote an autobiographical introduction showing how the contingencies of a career may nevertheless lead to a more or less consistent approach. In Part I of the book articles are included that represent the basic ideas of Droogers' approach with an emphasis on margin inversion, ritual and meaning making. In part II some of his articles on syncretism and Pentecostalism illustrate his views. Part III contains articles that apply the play and power perspective to methodological issues in the study of religion.
