

ELECTRONIC FLASH Simplified

If you've ever had to pass up a one-in-a-million shot for lack of a flashbulb, you understand the true meaning of frustration. Electronic flash is an increasingly popular solution to the problem. You can fire it thousands of times before replacement parts are needed, and it eliminates the problems of carrying, changing, and disposing flashbulbs. Peter Gowland relies on this top-quality photographic accessory for much of his finest work, and in **Electronic Flash Simplified**, illuminates the hows, whys, when's, and where's of using speedlight.

The term "electronic flash" often conjures up an image in people's minds of technically complex equipment, but this book will permanently dispel that notion. The opening

chapters highlight its ease of operation and provide helpful hints for buying a flash unit to suit your needs. Synchronization, bounce light, multiple electronic flash, action shots, and photographic techniques for black-and-white and color film are then discussed in readily understandable language. Charts are included whenever necessary for further ease of comprehension, and a handy glossary clarifies the photographic jargon. Numerous photographs demonstrate every technique described and provide a feast for the eyes, with lovely ladies models.

Electronic flash affords you the opportunity to be light's master rather than its slave. **Electronic Flash Simplified** will ease the transition.

PETER GOWLAND

Although expert in photographing children, pets, still lifes, and other subjects, Peter Gowland is best known as a glamour photographer par excellence. His photographs of beautiful girls are sought after around the globe. To enhance his specialty, he invented the 4" x 5" twin-lens Gowlandflex, and now sells a complete line of Gowlandflex cameras and accessories. His wife,

Alice, aptly assists him in all his endeavors; together they have produced over a dozen books on photography. While he will add to his enormous file of stock photos, Mr. Gowland now concentrates most of his energy on producing documentary movies. The Gowlands reside in southern California, and work primarily out of their unusual home-studio.
