The History of the Implementation of the Library Computer System (LCS) at the University of Illinois at Urbana-Champaign Leigh Kimmel, Originally the author's thesis for a master's degree at Illinois State University this work examines the history of library automation at the University of Illinois at Urbana Champaign from

the earliest beginnings through the implementation of the Library Computer System LCS under the leadership of Hugh Atkinson to the creation of the ILLINET Online IO system All of the changes are studied in the context of the Illinois Board of Higher education IBHE mandate for library resource sharing throughout Illinois academic libraries to reduce expenditures while maintaining quality scholarship and education and of the effects these changes had on library services to the user population The process of implementing LCS is studied to show the way in which the library administration handled the various crises as they arose and what effects these decisions had on the long term structure of the system Following implementation it continues to study the subsequent developments of the online computer system to increase service to the library's users In addition three doctoral dissertations are examined which used LCS as a research tool for the study of collection and use patterns in academic libraries Finally the author examines the results of automation at the University of Illinois at Urbana Champaign in the context of the academic community and the state of Illinois at large and draws conclusions from them

Foundations in Music Bibliography Richard D Green, 2012-12-06 As more and more music literature is published each year librarians scholars and bibliographers are turning to music bibliography to retain control over the flood of information Based on the Conference of Music Bibliography this timely book provides vital information on the most important aspects of the scholarly practice of music bibliography Foundations in Music Bibliography provides librarians with great insight into bibliographic issues they face every day including bibliographic control of primary and secondary sources the emergence of enumerative and analytical bibliography bibliographic instruction and bibliographic lacunae Foundations in Music Bibliography features the perspectives of prominent scholars and music librarians on contemporary issues in music bibliography often encountered by music librarians It offers practical insights and includes chapters on teaching students how to use microcomputer programs to search music bibliographies organizing a graduate course in music bibliography and researching film music bibliography The book also provides a supplement to Steven D Westcott's A Comprehensive Bibliography of Music for Film and Television This insightful volume demonstrates the many ways that bibliography relates music publications to each other and endows greater meaning to individual scholarly observations Some of the fascinating topics covered by Foundations in Music Bibliography include the history of thematic catalogs indexing Gregorian chant manuscripts general principles of bibliographic instruction analyses of Debussy discographies musical ephemera and their importance in various types of musicological research bibliographical lacunae i.e. lack of access to visual sources failure to control primary sources and lack of communication with the rest of the performing arts Foundations in Music Bibliography shows librarians how bibliography can be used to help music students and researchers find the information they need among the innumerable available sources It is an indispensable asset to the shelves of all music reference libraries that wish to provide their patrons with the latest bibliographic tools
