Quality and Qualities: Tensions in Education Reforms Clementina Acedo, Don Adams, Simona Popa, 2012-09-07 Quality and Qualities Tensions in Education Reforms is a provocative call for understanding and further exploring the elusive concept of quality in education Although education quality has acquired high priority in the past few decades the multiplicity of conceptualizations of quality

also reflects the concerns and foci of multiple stakeholders Coming to an understanding of quality education involves careful analysis of the context from which any particular reform or program emerges and of the continuing struggle to define and achieve it Two main questions persist who benefits from particular policies focused on quality And what are the potential tradeoffs between a focus on quality equitable distribution of education and inclusion of various traditional expectations This book explores notions of quality as understood within various systems of national formal and nonformal education Also it considers the tensions that arise with the introduction of new standardized notions of quality in relation to international measures and educational reforms in developing countries In all cases specific national issues and concerns compete with global agendas Challenges to quality that are given particular attention in the book chapters include changing definitions of quality high expectations for education and issues with implementation and the introduction of English as a means to achieve quality in a globalizing world Special attention is also given to possible actions that support a more equitable education without ignoring the requisite of quality The final chapter suggests three models choices for seeking higher quality and guiding the educational future of nations

Transcultural Flows of English and Education in Asian Contexts Tyler Andrew Barrett,Melissa Fellin,2016-10-20

Transcultural Flows of English and Education in Asian Contexts examines issues concerning the potential of English learning and teaching to go beyond the classroom and affect the multicultural realities of Asian societies Asian societies often carry long histories and traditions that influence beliefs about identities which are changing in our globalizing world The authors in this volume explore the synthesis that occurs when culture is shared and re constructed in different contexts Specifically the authors show how English is appropriated and refashioned through language and culture exchanges both inside and outside of traditional classrooms in East Asia i e Japan South Korea China and Southeast Asia e g Indonesia Thailand Inside the classroom transcultural flows have the potential to result in take up exchange appropriation and refashioning of language and cultural practices that can generate transcultural realities outside the classroom Understanding transcultural flows may also require understanding circumstances outside of the classroom for instance transcultural exchanges that lead to friendships and professional relationships as companies embrace English and attempt to reach a global audience as English facilitates access to global interaction in cyberspace and as membership to nation states recognition and identity often confront the politics of English as a global language For both teachers and

students of English the impact of transcultural connections reaches far beyond the teaching and learning experience English connects people around the globe even after students and teachers have finished their lessons or teachers have left the country To examine the transcultural flows that result from English learning and teaching in Asia this book addresses the following questions What becomes of English when it is unmoored from local national and regional spaces and imaginatively reconceptualized What are new forms of global consciousness and cultural competency How is English rediscovered and reinvented in Asian countries where there are long traditions of cultural beliefs and language practices How are teachers and students taking up and appropriating English inside and outside classrooms How has English learning and teaching affected social political and business relationships This book will be of interest to scholars in sociolinguistics anthropology and education

We Simply Adore India Chöphel,2019-01-01 The government and the people of India welcomed us with open arms when we knocked at her door for sanctuary India not only provided us refuge but also education to our children and helped us to stand on our feet We have been living in India for the last six decades and in the process have accumulated a large number of debts to the government and people of India for their kind hospitality If India had not granted us political asylum and wiped our tears we would not have survived as we are surviving now Words cannot express how grateful we are to the government and the people of India India has provided us with all the necessary tools to safeguard our unique language culture history and traditions and keep the spirit of Tibetan nationalism alive No country has done as much as India has done for us We rely on India like we rely on the sun We have reasons to believe that India will stand by us like a rock and never let us down under the pressure of Beijing We simply adore India It is this message which we want to convey to the 1 35 billion people of India on the sixtieth year of our exile in India

Preferential Education Policies in Multi-ethnic China Naomi C.F. Yamada,2020-10-29 Preferential Education Policies in Multi ethnic China National Rhetoric Local Realities explores the cultural logic of China s preferential policy measures Similar in premise but different in practice and philosophy to American affirmative action the preferential policies evoke controversy on all sides from those who see the measures as insufficient to address problems of

educational disparities between ethnic groups and from those who see the measures as reverse discrimination Yamada shows how the policy measures attempt to manage ethnic based contradictions and appease both majority and minority populations
