Collected Works of Georg Wilhelm Friedrich Hegel. Illustrated Georg Wilhelm Friedrich Hegel, 2021-04-14 The works of German thinker Georg Wilhelm Friedrich Hegel represent the apex of German classical philosophy It was Hegel who pounded out the dialectical methodology that shaped the doctrine of idealism into a fully formed and deeply thought out philosophical system For many philosophical contemporaries the name Hegel is synonymous with the word philosopher Friedrich Nietzsche once boldly stated that Hegel is taste and speaking of Hegel the thinker Vladimir Solovyov remarked of all the philosophers only to Hegel did philosophy mean everything The book includes the following of Hegel's works The Phenomenology of Spirit The Logic of Hegel Hegel's Philosophy of Mind Elements of the Philosophy of Right The Philosophy of Fine Art The Philosophy of History Lectures on the History of Philosophy Lectures on the Proofs of the Existence of God

The Philosophy of Right Georg Wilhelm Hegel, 1952 Hegel's Political Philosophy Dr Thom Brooks, 2007 Hegel's Elements of the Philosophy of Right is widely acknowledged to be one of the most important works in the history of political philosophy It is broadly agreed that Hegel intended this work to be interpreted as a significant part of his greater system of speculative philosophy Where disagreement occurs is on the question of the relevance of Hegel's larger philosophical system to understanding his Philosophy of Right This is the first book on the subject to take Hegel's system of speculative philosophy seriously as an important component of any robust understanding of his Philosophy of Right It sets out the difference between systematic and non systematic readings of the text before discussing important relevant features of Hegel's system in particular the unique structure of his philosophical arguments The greater part of the book demonstrates the results of this systematic reading by exploring several areas of Hegel's political philosophy his theories of property punishment morality law monarchy and war It is shown that by looking beyond the text to Hegel's larger philosophical system we can achieve an improved understanding of Hegel's Philosophy of Right The Philosophy of Right G. W. F. Hegel, 2015-01-02 A modern highly readable translation of a primary text in Western philosophy Complete translation in English with introduction notes and glossary The glossary is keyed to the primary occurrences of important terms in the text and provides insights into the concepts beyond the translation especially useful pedagogical device for students coming to Hegel for the first time Focus Philosophical Library translations are close to and are non interpretative of the original text with the notes and a glossary intending to provide the reader with some sense of the terms and the concepts as they were understood by Hegel's immediate audience *Right, Morality, Ethical Life* Jussi Kotkavirta, 1997-01-01 This book is the Studies in G W F Hegel's Philosophy of Right Hegel's elements of the Philosophy of right is his last major published statement not only on the philosophy of law but on ethical theory natural law social and political theory as well The studies of Right Morality Ethical Life discuss Hegel's views both historically and systematically contributing to the lively discussions concerning the significance of Hegel's view in the present philosophical context This book is meant for students of Religion philosophy
