Elements Of Military Strategy:

Elements of Military Strategy Bloomsbury Publishing, 1996-09-30 This book uses history in two ways as the source of ideas about strategy and as examples to illustrate the elements by showing their application to specific campaigns and their utility in understanding the role of strategy in military operations The focus is on American military campaigns from the American Indian Wars to the War in the Gulf Those case studies are used to illustrate the strategy behind land sea and air campaigns Over a fifth of the book examines the U S war against Japan because it furnishes such fine examples of independent and interdependent operations on land on the sea and in the air The cases studied are not only intended to illustrate strategic ideas but also to show the utility of the author's distinctive approach to organizing military strategy The book will appeal to military professionals students of military science and enthusiasts The Art and Practice of Military Strategy George Edward Thibault, 1984 **A Handbook of Military Strategy and Tactics** Michiko Phifer, 2012-07-13 The book discusses the importance of Military Strategy and Tactics during conflicts with some proven examples **The Lure and Related Elements of Military Strategy** Mark Smith Thompson, 1968 *Ethics and Military Strategy in the 21st Century* George Lucas, Jr., 2019-07-10 This book examines the importance of military ethics in the formulation and conduct of contemporary military strategy Clausewitz's original analysis of war relegated ethics to the side lines in favor of political realism interpreting the proper use of military power solely to further the political goals of the state whatever those may be This book demonstrates how such single minded focus no longer suffices to secure the interest of states for whom the nature of warfare has evolved to favor strategies that hold combatants themselves to the highest moral and professional standards in their conduct of hostilities Waging war has thus been transformed in a manner that moves beyond Clausewitz's original conception rendering political success wholly dependent upon the cultivation and exercise of discerning moral judgment by strategists and combatants in the field This book utilizes a number of perspectives and case studies to demonstrate how ethics now plays a central role in strategy in modern armed conflict This book will be of much interest to students of just war ethics military strategy and international relations **Professional Journal of the United States Army**, 1997 **Parameters**, 1998 **United States Military Posture for FY ...** United States. Organization of the Joint Chiefs of Staff, 1989 **Quarterly Review of Military Literature**, 1992 **Department of Defense Appropriations for ...** United States. Congress. House. Committee on Appropriations, 1985 **Department of Defense Appropriations** United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Defense, 1988 *British Strategy* Sir Frederick Maurice, 1929 *Military Review*, 1990 **Special Warfare**, 2012 Military Thought, 2016 **Collected Works of the Thirtieth Chief of Staff, United States Army** John Adams Wickham, 1987 This book a compilation of written and spoken works is intended to provide insight into the author's tour as Army Chief of Staff The book includes major addresses to military and civilian audiences Congressional testimony interviews published articles letters to General Officers

and edited White Papers The editors have prepared a prologue an introduction to each section in the book and an epilogue to assist the reader in using these collected works from DTIC abstract Review of Current Military Literature ,1990

Strategic Review ,1976 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **Defence Policy of Nigeria: Capability and Context** Charles Quarker Dokubo,Celestine Oyom Bassey,2011-01-20 This Reader provides a structurally coherent explanation and review of the magnified role conception and organizational task expansion for the Nigerian military establishment in foreign policy It argues essentially that one of the most problematic and intractable areas of public policy in Nigeria since the Civil War concerns the development of a professional defence establishment adequate to meet the challenges arising from the altered parameters of our security environment The correction of this condition is the primary motivation of the Armed Forces modernization and augmentation program that touches upon all elements of Nigeria s military power This Reader is at once a review and a critique of the major facets of this modernization and augmentation process of the Nigerian armed forces within the operative context of the changing dimension of threat perception and the strategic parameters that have guided Nigerian military planning since the Civil War in 1970 Marine Corps University Command and Staff College Catalog, AY 1998-99 ,1998
