Elements Of Tragedy:

Elements of Tragedy Dorothea Krook-Gilead, 1969 **Elements of Tragedy** Dorothea Krook, 1969 *Archetypes and the Fourth Gospel* Brian Larsen, 2018-06-14 Employing Northrop Frye's system of archetypal literary criticism the use of romance tragedy irony and satire and comedy Brian Larsen offers a compelling summary of the essential governing framework and means of exchange between literature and theology Characters in the Fourth Gospel are examined through a specific archetype and reciprocally these characters illuminate and inform important theological aspects of their respective archetypes Jesus and romance hero story Pilate and tragedy the Jews and Thomas and irony and Peter and comedy This volume further clarifies the understanding of Frye's archetypes and identifies the key variable between each one the relationship between 1 a belief or ideal and 2 experience or reality Helping to advance dialogue between literature biblical studies and theology and providing insightful readings for a number of Fourth Gospel characters and texts Larsen's examination will appeal to those seeking a new perspective on the themes of the New Testament or those seeking theological insights into literature *Paracomedy* Craig Jendza, 2020-04-07 *Paracomedy Appropriations of Comedy in Greek Drama* examines the previously overlooked practice of paracomedy how ancient Greek tragedians appropriated elements from comedy such as costumes scenes plots or language Theorizing a new relationship between tragedy and comedy it redefines how we should understand tragedy and reveals a dynamic theatrical world filled with mutual influence **On Poetry and Style** Aristotle, 1989-01-01 Contains the Poetics and the first twelve chapters of the Rhetoric Book III **Tragedy in the Victorian Novel** Jeannette King, 1978-01-26 How does one dominant literary genre fall into decline to be superseded by another The classic instance is the rise of the novel in the nineteenth century and how it came to embody the tragic vision of life which had previously been the domain of drama Dr King focuses on three novelists George Eliot Thomas Hardy and Henry James All three while trying to offer a realistic picture of life in prose narrative wrote with the concept of tragedy clearly in mind The concern was widespread and Victorian literary critics found themselves discussing the problem of how one might reconcile concepts as dissimilar as tragedy and realism Their criticism provides Dr King with her starting point Dr King examines the work of her three authors in relation to the large concepts of traditional tragic thought and also examines how the form of specific novels was affected by their differing ideas of tragedy **Elements of Tragedy in Flavian Epic** Sophia Papaioannou, Agis Marinis, 2021-01-18 In the light of recent scholarly work on tragic patterns and allusions in Flavian epic the publication of a volume exclusively dedicated to the relationship between Flavian epic and tragedy is timely The volume concentrating on the poetic works of Silius Italicus Statius and Valerius Flaccus consists of eight original contributions two by the editors themselves and a further six by experts on Flavian epic The volume is preceded by an introduction by the editors and it concludes with an Afterword by Carole E Newlands Among key themes analysed are narrative patterns strategies or type scenes that appear to derive from tragedy the Aristotelian notions of hamartia and

anagnorisis human and divine causation the transfer of individual characters from tragedy to epic as well as instances of tragic language and imagery The volume at hand showcases an array of methodological approaches to the question of the presence of tragic elements in epic Hence it will be of interest to scholars and students in the area of Classics or Literary Studies focusing on such intergeneric and intertextual connections it will be also of interest to scholars working on Flavian epic or on the ancient reception of Greek and Roman tragedy

James Baldwin and the Short Story Benedict Ushedo,2018-03-21 This book examines the range of issues that echo in James Baldwin s short stories It articulates and defends the claim that the stories in the collection Going to Meet the Man are driven by the autobiographical memory of the author To support this line of thought and the related proposition that the stories feed into themes relevant to self knowledge vicarious suffering love and forgiveness their effectiveness as transformative and revelatory texts is highlighted By drawing on contemporary studies and challenging the view that short stories are no more than miniature pieces merely echoing major works of their authors this book demonstrates that the short story genre can be profoundly forceful and effective in the articulation of complex human issues This study shows also that the humanistic import of the Baldwin stories is amplified by their ability to accumulate moral tension as they elicit the participation of the reader in an imaginative quest for a better world

Unworking Choreography Frédéric Pouillaude,2017-03-14 There is no archive or museum of human movement no place where choreographies can be collected and conserved in pristine form The central consequence of this is the incapacity of philosophy and aesthetics to think of dance as a positive and empirical art In the eyes of philosophers dance refers to a space other than art considered both more frivolous and more fundamental than the artwork without ever quite attaining the status of a work Unworking Choreography develops this idea and postulates an unworking as evidenced by a conspicuous absence of references to actual choreographic works within philosophical accounts of dance the late development and partial dominance of the notion of the work in dance in contrast to other art forms such as painting music and theatre the difficulties in identifying dance works given a lack of scores and an apparent resistance within the art form to the possibility of notation and the questioning of ends of dance in

Arguing the Apocalypse Stephen D. O'Leary,1998-08-20 Apocalyptic expectations of Armageddon and a New Age have been a fixture of the American cultural landscape for centuries With the approach of the year 2000 such millennial visions seem once again to be increasing in popularity Stephen O Leary sheds new light on the age old phenomenon of the End of the Age by proposing a rhetorical explanation for the appeal of millennialism Using examples of apocalyptic argument from ancient to modern times O Leary identifies the recurring patterns in apocalyptic texts and

movements and shows how and why the Christian Apocalypse has been used to support a variety of political stances and programs The book concludes with a critical review of the recent appearances of doomsday scenarios in our politics and culture and a meditation on the significance of the Apocalypse in the nuclear age Arguing the Apocalypse is the most thorough examination of its subject to date a study of a neglected chapter of our religious and cultural history a guide to the politics of Armageddon and a map of millennial consciousness
