Elephants Edge The Republicans As A Ruling Party:

Elephant's Edge Andrew J. Taylor, 2005-08-30 The Republican Party currently enjoys an edge The advantage can be seen in Congress state politics judicial rulings foreign and domestic policy party finances the media public attitudes and economic and demographic developments Yet the Republicans do not seem capable of translating this into a durable electoral majority Conditions now exist within American politics that will facilitate the establishment of Republican rule Many of these conditions have ripened during the past decade They include rules governing elections and campaign finance shifts in core political values among the public that are consistent with Republican philosophy and fundamental social and economic changes in American society that are likely to increase the ranks of Republican voters The author explains in lucid engaging terms how Republicans have taken control of both houses of Congress and experienced a remarkable resurgence at the state level He explores how conservatives are utilizing the courts to simultaneously move policy rightward and mobilize sympathetic parts of the electorate He also examines social and economic changes to show how racial politics religiosity and the nature of work and wealth benefit today s Republican Party Republican rule should not be confused with Republican realignment These conditions will advantage Republicans in future elections and bring about consistent Republican control of government at all levels federal state and local executive legislative and judicial However current conditions do not guarantee the kind of enduring Republican majority many journalists and strategists have predicted Taylor explains the factors that will prohibit the Republicans from fully exploiting their advantages and dominating American politics the way the Democrats did in the 30 years following the New Deal These factors include internal and intractable tensions within the Republican Party the parties sophisticated political information gathering strategies and the innate risk aversion of the campaign industry

Encyclopedia of U.S. Political History Andrew Robertson, Michael A. Morrison, William G. Shade, Robert Johnston, Robert Zieger, Thomas Langston, Richard Valelly, 2010-04-01 Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political

movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader's guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors

VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence

VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system

VOLUME 3 Expansion Division and Reconstruction 1841 1877 Volume Editor William Shade Lehigh University emeritus This volume examines three decades in the middle of the nineteenth century which witnessed the emergence of the debate over slavery in the territories which eventually led to the Civil War the military conflict itself from 1861 until 1865 and the process of Reconstruction which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877

VOLUME 4 From the Gilded Age through the Age of Reform 1878 1920 Volume Editor Robert Johnston University of Illinois at Chicago With the withdrawal of federal soldiers from Southern states the previous year 1878 marked a new focus in American politics and it became recognizably modern within the next 40 years This volume focuses on race and politics economics labor and capitalism agrarian politics and populism national politics progressivism foreign affairs World War I and the end of the progressive era

VOLUME 5 Prosperity Depression and War 1921 1945 Volume Editor Robert Zieger University of Florida Between 1921 and 1945 the U S political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts the Great Depression and World War II The main topics covered in this volume are declining party identification the Roosevelt Coalition evolving party organization congressional inertia in the 1920s the New Deal Congress during World War II the growth of the federal government Franklin D Roosevelt's presidency the Supreme Court's conservative traditions and a new judicial outlook

VOLUME 6 Postwar Consensus to Social Unrest 1946 1975 Volume Editor Thomas Langston Tulane University This volume examines the postwar era with the consolidation of the New Deal the onset of the Cold War and the Korean War It then moves into the 1950s and early 1960s and discusses the Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War

VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977

1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan. The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes, social policy, and the size of national government. It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War. Stateless terrorism symbolized by the 9/11 attacks, the continuing American tradition of civil liberties, and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered.

Encyclopedia of U.S. Political History Andrew Whitmore Robertson, 2010. Annotation st1 behavior url ieouui

Unparalleled coverage of U.S. political development through a unique chronological framework. Encyclopedia of U.S. Political History explores the events, policies, activities, institutions, groups, people, and movements that have created and shaped political life in the United States. With contributions from scholars in the fields of history and political science, this seven-volume set provides students, researchers, and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day. With greater coverage than any other resource, the Encyclopedia of U.S. Political History identifies and illuminates patterns and interrelations that will expand the reader's understanding of American political institutions, culture, behavior, and change. Focusing on both government and history, the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered. With each volume covering one of seven time periods that correspond to key eras in American history, the essays and articles in this authoritative encyclopedia focus on the following themes of political history: The three branches of government; Elections and political parties; Legal and constitutional histories; Political movements and philosophies; and key political figures; Economics; Military politics; International relations, treaties, and alliances; Regional histories.

Key Features: Organized chronologically by political eras; Reader's guide for easy topic searching across volumes; Maps, photographs, and tables enhance the text; Signed entries by a stellar group of contributors.

VOLUME 1: Colonial Beginnings through Revolution, 1500-1783 Volume Editor: Andrew Robertson, Herbert H. Lehman College. The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic. This volume discusses the diversity of the colonial political experience, a diversity that modern scholars have found defies easy synthesis, as well as the long-term conflicts, policies, and events that led to revolution and the ideas underlying independence.

VOLUME 2: The Early Republic, 1784-1840 Volume Editor: Michael A. Morrison, Purdue University. No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic. This volume discusses the era of Confederation, the shaping of the U.S. Constitution, and the development of the party system.

The American Congress Sara L. Hagedorn, Michael C. LeMay, 2019-06-24. This volume thoroughly examines the operations and politics of the U.S. Congress. It guides readers to their own assessment of congressional politics and provides them with the basis for future reading and study of the subject.

The American Congress A Reference Handbook covers Congress from its inception to the present day discussing the constitutional functions of Congress and how they have evolved over time It presents a detailed discussion of 15 problems with which Congress copes some associated concerns with those problems and how they might be resolved The book opens with a brief history of Congress and how it has changed over time It discusses a series of problems and concerns and proposed solutions to those problems It also comprises nine original essays by other scholars and persons involved in congressional politics as well as profiles of the major organizations and actors involved Data and documents and a detailed chronology of Congress from 1789 to 2018 allow readers to situate significant legislation within the history of Congress while an annotated list of sources the major books and scholarly journals concerned with Congress in addition to a number of feature length films and videos provide readers with vetted resources for further study

The Right Talk Mark A. Smith, 2011-07-24 Political analyst Mark Smith offers the most original and compelling explanation yet of why America has swung to the right in recent decades How did the GOP transform itself from a party outgunned and outmaneuvered into one that defines the nation s most important policy choices Conventional wisdom attributes the Republican resurgence to a political bait and switch the notion that conservatives win elections on social issues like abortion and religious expression but once in office implement far reaching policies on the economic issues downplayed during campaigns Smith illuminates instead the eye opening reality that economic matters have become more central not less to campaigns and the public agenda He analyzes a half century of speeches campaign advertisements party platforms and intellectual writings systematically showing how Republican politicians and conservative intellectuals increasingly gave economic justifications for policies they once defended through appeals to freedom He explains how Democrats similarly conceived economic justifications for their own policies but unlike Republicans they changed positions on issues rather than simply offering new arguments and thus helped push the national discourse inexorably to the right The Right Talk brings clarity reason and hard nosed evidence to a contentious subject Certain to enrich the debate about the conservative ascendancy in America this book will provoke discussions and reactions for years to come

Defying the Odds James W. Ceaser, Andrew E. Busch, John J. Pitney Jr., 2019-02-11 Now updated to include the 2018 midterms and previewing the coming 2020 election cycle Defying the Odds provides the most comprehensive and authoritative account of the national election including the presidential nomination process and election and congressional elections With its keen insights into the issues and events that drove the 2016 election Defying the Odds will be an invaluable resource for students and all political observers seeking to understand an election that was decades in the making and will continue to resonate throughout American politics for many years to come

Hard Line Colin Dueck, 2010-09-05 Conservatives and liberals alike are currently debating the probable future of the Republican Party What direction will conservatives and republicans take on foreign policy in the age of Obama This book tackles this question

American Politicians Confront the Court Stephen M. Engel, 2011-06-13 Politicians have long

questioned or even been openly hostile to the legitimacy of judicial authority but that authority seems to have become more secure over time What explains the recurrence of hostilities and yet the security of judicial power Addressing this question anew Stephen Engel points to the gradual acceptance of dissenting views of the Constitution that is the legitimacy and loyalty of stable opposition Politicians changing perception of the threat posed by opposition influenced how manipulations of judicial authority took shape Engel s book brings our understanding of these manipulations into line with other developments such as the establishment of political parties the acceptance of loyal opposition the development of different modes of constitutional interpretation and the emergence of rights based pluralism **Robert H. Michel** Frank H. Mackaman, Sean Q. Kelly, 2023-08-18 As incredible as it might seem there was a time when Congress worked a time when partisan competition produced consensus and good public policy At the center of it all for four decades was Robert H Michel the longest serving Republican leader in the history of the US House of Representatives In this book top congressional scholars historians and political scientists provide a compelling picture of Bob Michel and the congressional politics of his day Marshaling a wealth of biographical historical and political detail they describe Michel s House of Representatives and how the institution became what it is now During the thirty eight years that Michel represented Illinois s 18th congressional district January 3 1957 January 3 1995 the last fourteen as Republican leader in the House his party was in the minority Drawing on archival material that captures politics in the making the authors of this volume show how Michel made the most of that minority status They write about his legislative efforts as with President Ronald Reagan s tax cuts and President George H W Bush s North American Free Trade Agreement negotiations The resulting friction between Michel s leadership on the national stage and his responsibilities to constituents back home almost cost him reelection in 1982 forcing a change in his home style Their essays also cover Michel s strategies for House minority leadership his party s proposals to reform the House and his retirement one election before Republicans became the House majority party the result of a generational and ideological shift to a more combative style of politics practiced by Michel s successor Newt Gingrich An innovative approach to biography with its examination of Bob Michel s career from a variety of angles this volume offers both an unusually nuanced portrait of one important politician and a uniquely informed perspective on politics in the latter half of the twentieth century **Presidential Swing States** Donald W. Beachler, Matthew L. Bergbower, Chris Cooper, David F. Damore, Bas Van Dooren, Sean D. Foreman, Rebecca D. Gill, Henriët Hendriks, Donna Hoffmann, Rafael Jacob, Gibbs Knotts, Neil Kraus, Christopher Larimer, John McGlennon, Scott L. McLean, Niall J. A. Palmer, Robert R. Preuhs, Norman Provizer, Andrew Thangasamy, Kenneth F. Warren, Aaron C. Weinschenk, 2015-10-29 The 2016 presidential race is arguably already over in 40 states and the District of Columbia If recent presidential election trends are any indication of what will happen in 2016 Democrats in Texas and Republicans in New York might as well stay home on election day because their votes will matter little in the presidential race The same might be said for the voters in 38 other states too Conversely for those in Ohio Florida

Colorado Iowa and a handful of other states their votes matter These states will be battered with a barrage of presidential candidate visits commercials political spending and countless stories about them by the media Understanding why the presidential race has been effectively reduced to only ten states is the subject of *Presidential Swing States Why Ten Only Matter* Stacey Hunter Hecht and David Schultz offer a first of its kind examination of why some states are swing states in presidential elections capable of being won by either of the major candidates *Presidential Swing States* describes what makes these few states unique and why the presidency is decided by who wins them With case studies written by prominent political scientists who are experts on these swing states *Presidential Swing States* also explains why some states have been swing states but no longer are why some are swinging and what states beyond 2016 may be the future ones that decide the presidency

Scandal and Silence Robert M. Entman, 2013-08-26 This timely and engaging book challenges the conventional wisdom on media and scandal in the United States The common view holds that media crave and actively pursue scandals whenever they sense corruption *Scandal and Silence* argues for a different perspective Using case studies from the period 1988-2008 it shows that Media neglect most corruption providing too little not too much scandal coverage Scandals arise from rational controlled processes not emotional frenzies and when scandals happen it's not the media but governments and political parties that drive the process and any excesses that might occur Significant scandals are indeed difficult for news organizations to initiate and harder for them to maintain and bring to appropriate closure For these reasons cover ups and lying often work and truth remains essentially unrecorded unremembered Sometimes bad behavior stimulates an avalanche of media attention with demonstrable political consequences yet other times equally shoddy activity receives little notice This book advances a theoretical model to explain these differences revealing an underlying logic to what might seem arbitrary and capricious journalism Through case studies of the draft and military scandals involving Dan Quayle George W Bush Bill Clinton and John Kerry alleged sexual misconduct of politicians including but not limited to Clinton and questionable financial dealings of Clinton and George W Bush the book builds a new understanding of media scandals which will be essential reading for anyone concerned with the relationship between media and democracy today

When Politicians Attack Tim Groeling, 2010-07-19 A study of the consequences of partisan communication on the stability of unified government of the United States

The American Congress Steven S. Smith, Jason M. Roberts, Ryan J. Vander Wielen, 2011-08-31 The American Congress provides the most current treatment of congressional politics available in an undergraduate text Informed by the authors Capitol Hill experience and scholarship this book presents a crisp introduction to major features of Congress parties and committee systems leadership voting and floor activity This text contains discussions of the importance of presidents courts and interest groups in congressional policy making Recent developments are also discussed within the context of congressional political history The seventh edition includes complete coverage of the first Congress of the Obama presidency the 2010 midterm elections healthcare reform and an early perspective on the 112th

Congress with a Republican majority The Stronghold Thomas F. Schaller, 2015-01-28 Once the party of presidents the GOP in recent elections has failed to pull together convincing national majorities Republicans have lost four of the last six presidential races and lost the popular vote in five of the last six In their lone victory the party incumbent won during wartime by the slimmest of margins In this fascinating and important book Thomas Schaller examines national Republican politics since President Ronald Reagan left office in 1989 From Newt Gingrich's ascent to Speaker of the House through the defeat of Mitt Romney in 2012 Schaller traces the Republican Party's institutional transformation and its broad consequences not only for Republicans but also for America Gingrich's Contract with America set in motion a vicious cycle Schaller contends as the GOP became more conservative it became more Congress centered and as its congressional wing grew more powerful the party grew more conservative This dangerous loop unless broken may signal a future of increasing radicalization dependency on a shrinking pool of voters and less viability as a true national party In a thought provoking conclusion the author discusses repercussions of the GOP decline among them political polarization and the paralysis of the federal government *The View of the Courts from the Hill* Mark C. Miller, 2009-04-28 The book concludes with a call for the protection of judicial independence in order to preserve the voice of the federal courts in the constitutional interpretation dialogue **Congress** Andrew J. Taylor, 2013-03-26 An innovative examination of Congress performance using benchmarks and aspirations to assess whether or not it can be considered a successful legislative body **Compound Democracies** Sergio Fabbrini, 2010-08-19 A major and broad ranging new comparison of the American and European political systems that argues provocatively that they are growing increasingly similar and offers a compelling new model for understanding them **American Book Publishing Record** , 2005 **Choice** , 2006-03 *The British National Bibliography* Arthur James Wells, 2006
