politics at midcentury The cantata Rinaldo is the centerpiece of Carol Hess's consideration of Brahms's music as autobiographical statement Heather Platt's exploration of the twentieth century reception of Brahms's Lieder reveals that advocates of Hugo Wolf's aesthetics have shaped the discourse concerning the composer's songs and calls for an approach more clearly based on Brahms's aesthetics In his examination of the rise of the great symphony as a critical category that carried with it a nearly impossible standard to meet Walter Frisch provides a rich context in which to understand Brahms's well known early struggle with the genre Kenneth Hull suggests that Brahms used ironic allusions to Bach and Beethoven in the tragic Fourth Symphony in order to subvert the enduring assumption that a minor key symphony will end triumphantly in the major mode Peter H Smith examines Brahms's late style by concentrating on Neapolitan tonal relations in the Clarinet Sonata in F Minor Finally David Brodbeck delineates the complex evolution of Brahms's reception of Mendelssohn's music

The Indispensable Composers Anthony Tommasini, 2019-11-05 An exploration of the question of greatness from the chief classical music critic of The New York Times Anthony Tommasini has devoted particular attention to living composers and overlooked repertory But as with all classical music lovers the canon has remained central for him Tommasini resists the neat laws of canon formation and yet he can't help but admit that these exalted composers have guided him through his life resonating with his deepest emotions and profoundly shaping how he sees the world Now in The Indispensable Composers Tommasini offers his own personal guide to what the mercurial concept of greatness really means in classical music As he argues for his particular pantheon of indispensable composers Tommasini provides a masterclass in what to listen for and how to understand what music does to us
