*English/German Dictionary of Idioms* Professor Hans Schemann, 2013-04-15 This dictionary is the ideal supplement to the German English Dictionary of Idioms which together give a rich source of material for the translator from and into each language. The dictionary contains 15 000 headwords each entry supplying the German equivalents variants contexts and the degree of currency rarity of the idiomatic expression. This dictionary will be an invaluable resource for students and professional literary translators. Not for sale in Germany Austria or Switzerland    Guide to the Passion-Play at Oberammergau during the year 1890, 1890    **Christliche Ethik bei Schleiermacher - Christian Ethics according to Schleiermacher** Hermann Peiter, 2010-04-09 No one is so intimately acquainted with Schleiermacher's Christian Ethics material or with the 1821 1822 first edition of his companion volume Christian Faith than Hermann Peiter. The present volume is a collection of Peiter's nineteen essays and thirty reviews. Extensive English summaries are offered for all this material and an English version for four of the essays. Professor Peiter's summary of this volume reads as follows: This book treats of praxis in the Christian life and of Christian responsibility for the world we have in common. The following however forms a background for these considerations: Schleiermacher reminds his Christian brethren who often deck themselves out with alien borrowed plumes from morals and metaphysics of their actual theme that of religion which he also designates as a kind or mode of faith. Like Luther he also turns against both the practical misconception that considers faith itself to be a good work and the theoretical misconception that faith is a product of thinking a theory. Whether a practitioner thinks to give thanks for one's own work or whether a theoretician hopes to find final fulfillment and justification in one's range of metaphysical ideas amounts to the same thing. Faith is the courage to be Paul Tillich. For Schleiermacher to want to have speculation thus metaphysics and praxis without religion is the nonsalutary intention of Prometheus who fainheartedly stole what he could have expected to possess in restful security. If taken seriously the gods to use that pagan expression for once are that nature to which a human being belongs. Each human being is their possession. When one steals what the gods have one steals oneself can thank oneself for a robbery. For a gift that is stolen one cannot possibly be thankful. Only a pure gift awakens true joy. A human being has the chance to receive the gift that one is or is not in case it is stolen not from a thief but from religion. Thanks to one's birth both physical and spiritual one gains oneself and has oneself. To steal means to take away to deprecate. In contrast whoever has oneself from elsewhere is no longer extracted from oneself or from the one to whom one belongs.

Transcendental unity is a figure of thought of the Latin Middle Ages which is indebted to Avicenna's renewal of metaphysics and which is wrongly attributed to Aristotle A specific interpretation of the demonstrable attribute determines the metaphysical reflection on the one and turns it into a transcendental attribute of being Notwithstanding the variety of epistemic constellations however this metaphysical relationship of being and unity always turns out to be a fundamental state of affairs Transcendental unity identifies as a problem constellation the principles of which are still effective in the critique of scholastic metaphysics in classical German philosophy
