El Dorado In West Africa Mining Frontier African Entrepreneurship Western African Studies:

El Dorado in West Africa Raymond E. Dumett, 1998 *El Dorado in West Africa* explores the first modern gold rush of Ghana in all its dimensions land labor capital traditional African mining technology transport management the clash of cultures and colonial rule The rich tapestry of events is textured with unexpected ironies and paradoxes Professor Dumett tells the story of the expatriate led gold boom of 1875 1900 against the background of colonial capitalism Through the use of field interviews he also brings to light the expansion of a parallel African gold mining frontier which outpaced the expatriate mining sector

Africanizing Knowledge Toyin Falola, 2017-11-30 Nearly four decades ago Terence Ranger questioned to what extent African history was actually African and whether methods and concerns derived from Western historiography were really sufficient tools for researching and narrating African history Despite a blossoming and branching out of Africanist scholarship in the last twenty years that question is still haunting The most prestigious locations for production of African studies are outside Africa itself and scholars still seek a solution to this paradox They agree that the ideal solution would be a flowering of institutions of higher learning within Africa which would draw not only Africanist scholars but also financial resources to the continent While the focus of this volume is on historical knowledge the effort to make African scholarship more African is fundamentally interdisciplinary The essays in this volume employ several innovative methods in an effort to study Africa on its own terms The book is divided into four parts Part 1 *Africanizing African History* offers several diverse methods for bringing distinctly African modes of historical discourse to the foreground in academic historical research Part 2 *African Creative Expression in Context* presents case studies of African art literature music and poetry It attempts to strip away the exotic or primitivist aura such topics often accumulate when presented in a foreign setting in order to illuminate the social historical and aesthetic contexts in which these works of art were originally produced Part 3 *Writing about Colonialism* demonstrates that the study of imperialism in Africa remains a springboard for innovative work which takes familiar ideas about Africa and considers them within new contexts Part 4 *Scholars and Their Work* critically examines the process of African studies itself including the roles of scholars in the production of knowledge about Africa This timely and thoughtful volume will be of interest to African studies scholars and students who are concerned about the ways in which Africanist scholarship might become more African

Mining Tycoons in the Age of Empire, 1870-1945 Raymond E. Dumett, 2016-12-05 The years of the late nineteenth and early twentieth centuries aptly described by Mark Twain as the Gilded Age witnessed an unprecedented level of technological change material excess untrammled pursuit of profit and imperial expansion Within this dynamic and often ruthless environment many colorful characters strode across the world stage among them the great mining tycoons who with the thousands of prospectors diggers shift bosses timbermen blastmen and muckers in mining enterprise constituted one of the major spearheads of global capitalistic expansion and colonial exploitation This volume which carries the epic story to the mid twentieth century provides a truly international perspective

on the role of mining entrepreneurs investors and engineers in shaping the economic and political map of the globe in testing management techniques and in setting a vogue for extravagant displays of wealth among the world's rich. Each chapter is loosely focussed on a biographical account of a particular mining tycoon that allows for broad and comparative accounts to be made about the individuals, their business interests, the technologies they employed and the national and international political considerations under which they operated. Furthermore, this structure also allows for consideration of the effect that these tycoons had on the countries and territories in which they worked, particularly the often long lasting impact on indigenous populations, the environment, transport links and economic development. By approaching the subject matter through this stimulating mix of cultural, social, economic, business and colonial history, many intriguing and thought provoking conclusions are reached that will reward any scholars with an interest in late nineteenth and early twentieth century history.

Global Gold Production Touching Ground Boris Verbrugge, Sara Geenen, 2020-05-04. In recent decades, gold mining has moved into increasingly remote corners of the globe. Aside from the expansion of industrial gold mining, many countries have simultaneously witnessed an expansion of labor intensive and predominantly informal artisanal and small scale gold mining. Both trends are usually studied in isolation, which contributes to a dominant image of a dual gold mining economy. Counteracting this dominant view, this volume adopts a global perspective and demonstrates that both industrial gold mining and artisanal and small scale gold mining are functionally integrated into a global gold production system. It couples an analysis of structural trends in global gold production, expansion, informalization and technological innovation to twelve country case studies that detail how global gold production becomes embedded in institutional and ecological structures.

Spaces of Responsibility Diana Ayeh, 2021-09-20. *Spaces of Responsibility* explores the role of ethics in re-ordering extractive relations under the global condition. Through an empirical investigation of actors, places and ideas in and around Burkina Faso's industrial gold mining sector, this volume carries out an anti-essentialist yet critical examination, offering new insights into global mining capitalism. Corporate concession making practices, the implementation of national mining legislation and civil society interventions in mining areas all contribute in different ways to the dialectics of the global. Accordingly, the ongoing territorialization of mining investment often has considerable impacts on the well-being of populations in the Global South. At the same time, multinational corporations today cannot completely distance or isolate themselves from the political, economic and social contexts they are interacting in and with. Drawing on theoretical debates about the links between resource extraction and socio-economic development, multi-scalar negotiations of ethics in mining governance are ethnographically retraced. In terms of gains and benefits, these negotiations manifest themselves spatially, providing access for some actors while excluding others.

Bibliography of Imperial, Colonial, and Commonwealth History Since 1600 Andrew N. Porter, 2002. The twentieth century witnessed an unprecedented growth of research and publication on the history of Britain's empire, the Commonwealth and British expansion overseas. Historical work by area specialists has

transformed the state of knowledge concerning colonial North America India the Caribbean sub Saharan Africa South and South East Asia the Pacific and Australasia Much has been written about Britain s interests and presence in areas and societies never formally subjected to British rule such as Latin America and the Middle and Far East Most recently a preoccupation with the reciprocal impact of overseas expansion and colonial possessions on Britain itself has produced a rapidly growing historiography Publication on this scale has made it virtually impossible for anyone either to keep track of the results or to follow up particular interests Britain s overseas history has never been well supplied with comprehensive bibliographical aids and despite extensive public interest in the subject the position has steadily worsened Following the recent Oxford History of the British Empire this volume is therefore designed to provide a general source of reference and bibliographical guidance at once wide ranging up to date and accessible

Opportunities Handbook International Business Publications, Inc.,2013-07-01 African Countries Mineral and Mining Industry Business Opportunities Handbook Volume 1 West Africa **Mining Africa. Law, Environment, Society and Politics in Historical and Multidisciplinary Perspectives** Artwell Nhemachena,V. Warikandwa,2017-05-01 This book is a pacesetter in matters of mining and the environment in Africa from multidisciplinary and spatio temporal perspectives The book approaches mining from the perspectives of law politics archaeology anthropology African studies geography human ecology sociology history economics and development It interrogates mining and environment from the perspectives of customary law as well as from the perspectives of Euro modern laws In this sense the book straddles precolonial colonial and postcolonial mining and environmental perspectives In all this it maintains a Pan Africanist perspective that also speaks to contemporary debates on African Renaissance and to the unity of Africa From scrutinising the lived realities of African miners who are often insensitively and unjustly addressed as illegal miners the book also interrogates transnational mining corporations matters of corporate social responsibility as well as matters of tax evasions by transnational corporations whose commitment to accountability to African governments is questioned With both theoretical chapters and chapter based on empirical studies on mining and the environment across the African continent the book provides a much needed holistic one

stop shop for scholars activists researchers and policy makers who need a comprehensive treatise on African mining and the environment The book comes at the right time when matters of African mining and environment are increasingly coming to the fore in the light of discourses about the new 21st century scramble for African resources in which big transnational corporations and nations are jostling to suck Africa dry in their race to control planetary resources It is a book that speaks to contemporary broader issues of de coloniality and transformation of African minds and African environmental resources

The West Africa El Dorado: Mapping the Illicit Trade of Gold in Côte D'Ivoire, Mali and Burkina Faso Alan Martin,Hélène Helbig de Balzac,2017 **Mining and Social Transformation in Africa** Deborah Fahy Bryceson,Eleanor Fisher,Jesper Bosse Jønsson,Rosemarie Mwaipopo,2013-10-15 After more than three decades of economic malaise many African countries are experiencing an upsurge in their economic fortunes linked to the booming international market for minerals Spurred by the shrinking viability of peasant agriculture rural dwellers have been engaged in a massive search for alternative livelihoods one of the most lucrative being artisanal mining While an expanding literature has documented the economic expansion of artisanal mining this book is the first to probe its societal impact demonstrating that artisanal mining has the potential to be far more democratic and emancipating than preceding modes Delineating the paradoxes of artisanal miners working alongside the expansion of large scale mining investment in Africa Mining and Social Transformation in Africa concentrates on the Tanzanian experience Written by authors with fresh research insights focus is placed on how artisanal mining is configured in relation to local regional and national mining investments and social class differentiation The work lives and associated lifestyles of miners and residents of mining settlements are brought to the fore asking where this historical interlude is taking them and their communities in the future The question of value transfers out of the artisanal mining sector value capture by elites and changing configurations of gender age and class differentiation all arise

Worlds of Debts Cristiana Panella,2010 **Mining Frontiers of the Far West, 1848-1880** Rodman Wilson Paul,2001
Long out of print this study of western mining is now available with three new chapters by Elliott West When originally published in 1963 Professor Paul s book offered the first comprehensive view of western mining as an integral part of the settlement process In his supplemental chapters Professor West presents a social history of mining camps encompassing discussions of gender class race labor and the environment The combined scholarship of Paul and West makes a strong case for the transforming effects of the mining frontier on western society in particular and American society in general This revised expanded edition continues to offer a distinctively vivid voice and an unusually keen eye for telling detail BOOK
