En un mundo en que prima lo inmanente este libro tiene el interés de plantear el valor de lo trascendente. Son muchos los que sienten esta necesidad. Lo trascendente no se agota en lo religioso. Hay una dimensión también intelectual tendente hacia lo trascendente. Es una necesidad humana que se relaciona con lo filosófico y lo literario y que plantea la cuestión de hasta qué punto todo esto puede servir para la ordenación de la sociedad y hasta qué punto el mundo trascendente puede ser una realidad en sí misma. Pero por contrapartida también se presentan los riesgos de esta traslación de la realidad trascendente a la ordenación social y en este contexto se explica el origen de los totalitarismos. La dimensión social al final está muy presente en el libro cuando se pone en contraposición lo jurídico o social y lo intelectual. El libro tiene un carácter ameno con numerosas citas que permiten al lector además aprovechar el tiempo de la lectura para tomar cultura.
