examines the role of illustration in the translation process of picturebooks and how the word image interplay inherent in the
medium can have an impact both on translation practice and the reading process itself The book draws on a wide range of
picturebooks published and translated in a number of languages to demonstrate the myriad ways in which information and
meaning is conveyed in the translation of multimodal material and in turn the impact of these interactions on the readers
experiences of these books The volume also analyzes strategies translators employ in translating picturebooks including
issues surrounding culturally specific references and visual and verbal gaps and features a chapter with excerpts from
translators diaries written during the process Highlighting the complex dynamics at work in the translation process of
picturebooks and their implications for research on translation studies and multimodal material this book is an indispensable
resource for students and researchers in translation studies multimodality and children's literature **D. Fernando el**
