Orientalism and Identity in Latin America Erik Camayd-Freixas, 2013-03-14 Building on the pioneering work of Edward Said in fresh and useful ways contributors to this volume consider both historical contacts and literary influences in the formation of Latin American constructs of the Orient and the Self from colonial times to the present In the process they unveil wide ranging manifestations of Orientalism Contributors scrutinize the other great encounter not with Europeans but with Arabic Chinese and Japanese cultures as they marked Latin American societies from Mexico Central America and the Caribbean to Peru Argentina and Brazil The perspectives experiences and theories presented in these examples offer a comprehensive framework for understanding wide ranging manifestations of Orientalism in Latin America and elsewhere in the developing world Orientalism and Identity in Latin America expands current theoretical frameworks juxtaposing historical biographical and literary depictions of Middle Eastern and Asian migrations both of people and cultural elements as they have been received perceived refashioned and integrated into Latin American discourses of identity and difference Underlying this intercultural dialogue is the hypothesis that the discourse of Orientalism and the process of Orientalization apply equally to Near Eastern and Far Eastern subjects as well as to immigrants regardless of provenance and indeed to any individual or group who might be construed as Other by a particular dominant culture *Spanish Spaces* Ann

Davies, 2012-01-01 Contemporary cultural geography and contemporary Spanish culture are married in this pioneering study of space and place Spain's varied terrain with complex negotiations between the rural urban and coastal offers an ideal setting in which to explore questions of landscape space and place In *Spanish Spaces* Ann Davies draws on contemporary Spanish film and literature to explore Spain's sophisticated sense of its geographical and spatial self **Secondary**

**Moderns** Brett Levinson, 1996 *Secondary Moderns* examines Lezama Lima's analyses of Latin American history and culture The study begins by carefully demonstrating how Lezama breaks with the modern Latin American intellectual tradition that has explored the question of Latin American in terms of an identity politics and moves on to a close reading of the theories of aesthetics representation resistance criticism death religion and ethics that Lezama puts forth via his notion of the American expression The work concludes by analyzing Lezama's politics of affirmation by scrutinizing his writings on Cuba and the Cuban Revolution *Secondary Moderns* represents a thorough analysis of Lezama's cultural project Latin American twentieth century thought and the complex intersection of Latin American studies and the post Heideggerian philosophical tradition Refuting labels that have too hastily been attached to Lezama's difficult works those works have been dubbed elitist or transcendentalist the text strives to establish Lezama as one of the great thinkers of historicity in the modern age For while many critics have suggested that Latin American modernity is born via a reading and rewriting of Western discourses Lezama's American expression is the site where this theory is most radically put into practice The practice moreover permits one to understand not only Latin American cultural theory but Western thought itself indeed Lezama's aberrant reading of

the West by its very aberrant character reveals aspects of the Western tradition never before explored **BOOK JACKET Title**

**Empires of Vision** Martin Jay,Sumathi Ramaswamy,2014-03-14 Combining visual culture and postcolonial studies this  
reader shows that an appreciation of the role of visual experience is necessary for understanding how colonialism worked  
and how colonized subjects spoke to imperial rulers **Rethinking Juan Rulfo's Creative World** Nuala Finnegan,Dylan  
Brennan,2016-05-05 Though primarily known for his haunting enigmatic novel Pedro P ramo and the unrelenting depictions  
of the failures of post revolutionary Mexico in his short story collection El Llano en llamas Juan Rulfo also worked as  
scriptwriter on various collaborative film projects and his powerful interventions in the area of documentary photography  
ensure that he continues to inspire interest worldwide Bringing together some of the most significant names in Rulfian  
scholarship this anthology engages with the complexity and diversity of Rulfo s cultural production The essays in the  
collection bring the Rulfian texts into dialogues with other cultural traditions and techniques including the Japanese Noh or  
mask plays and modernist experimentation in the Irish language They also deploy diverse theoretical frameworks that range  
from Roland Barthes work on studium and punctum in photography to Henri Lefebvre s ideas on space and spatiality and the  
postmodern insights of Jean Baudrillard on the nature of the simulacrum and the hyperreal In this way innovative approaches  
are brought to bear on the Rulfian texts as a way of illuminating the rich tensions and anxieties they evoke about Mexico  
about history about art and about the human condition Transborder Media Spaces Ingrid Kummels,2017-07-01

book puts into context the evolution of mural art in recent years particularly the case of the contemporary muralism in  
Uruguay While the focus of this volume revolves around Uruguay the editors demonstrate that circumstances found in  
Uruguay are also reflected widely in a large number of cases worldwide Mural art has evolved from an elite audience to a

more popular objective At the same time it does not lose the necessity of high value artists that not only technically but also conceptually will be able to connect to the audience and provide a sense of identity and necessity of preservation of this art This leads to a down top approach where different actors take part in the process from the conceptualization to the conservation Moreover mural art has been studied as a driver of local economic development attracting visitors and tourists can access these open air museums easily This book is of interest to students and researchers working in fine art heritage and museum studies     Barrelled Locally Convex Spaces P.
