## **El Estado De Quintana Roo:**

**Quintana Roo, procesos políticos y democracia** María Cristina Castro,1986      *Dynamics and Conflicts in a Cross-Border Region* Mónica Toussaint,Marisol Garzón,2023-04-07 This volume explores several issues pertinent to the history of the cross border region between Mexico Guatemala and Belize from new explanatory approaches in order to reflect on a history and a reality that are shared by three neighbouring societies emphasizing the actors and local practices that shape cross border dynamics This analysis is contributed by eight specialists who study aspects that are fundamental to our understanding of a process involving various persons and institutions in a specific space Dynamics and Conflicts in a Cross Border Region addresses an issue of current relevance through studies that focus on the problems inhabitants of the region have faced over the years the realities of a porous border the existence of family trade and cultural ties that surpass the administrative limits negotiated by the states late in the 19th century the impact of the internal conflicts of neighbour countries in the border space experiences of exile and refuge at the border and the violence they entail the role of local authorities in managing regional problems the pending task of cross border territorial organization the efforts of local institutions to promote regional development and the presence of phenomena like contraband drug trafficking organized crime and human trafficking in an increasingly complex and challenging space This provides a way to use the region's history as a springboard for conceiving of mechanisms by which we can together face the challenges presented today to the inhabitants of the cross border region between Mexico Guatemala and Belize This book will be a valuable resource for students and scholars of Latin American history and Social History

**Socio-Environmental Regimes and Local Visions** Minerva Arce Ibarra,Manuel Roberto Parra Vázquez,Eduardo Bello Baltazar,Luciana Gomes de Araujo,2020-09-13 This book presents oral histories collective dialogues and analyses of rural and indigenous livelihoods facing global socio environmental regime change in Latin America LA Since the late twentieth century rural and indigenous producers in LA including agriculturists coffee growers as well as small scale farmers fishers and others have had to resist cope with or adapt to a range of neoliberal socio environmental regimes that impact their territories and associated resources including water production systems and ultimately their cultural traditions In response rural producers are using local visions and innovation niches to decide what when and how to resist cope with uncertainty and still be successful in using their customary laws to retain their land rights and livelihoods This book presents a range of ethnically diverse case studies from LA which addresses socio environmental educational and law regimes effects using transdisciplinary research approaches in rural traditional and indigenous production systems Based on both the results and insights gained into how producers are resisting and adapting to these regimes as well as decades of research carried out in LA rural territories by the participating authors the book puts forward a baseline for devising new public policies that are better suited to the real challenges of livelihoods poverty and environmental degradation in LA These recommendations are rooted in post development thinking they promote territorial

public policy with social inclusion and a human rights approach. The book draws on over 20 years of research carried out by Latin American academics and their undergraduate and graduate students who have addressed collaborative work, participatory research and transdisciplinary approaches with rural commons and communities in Latin America. It features 19 case studies with contributions from Argentina, Bolivia, Brazil, Colombia, Cuba, Honduras and Mexico.

**Timber, Tourists, and Temples** Richard B. Primack, David Bray, Hugo A. Galletti, Ismael Ponciano, 2013-04-10

Stretching across southern Mexico, northern Guatemala and Belize, the Maya Forest or Selva Maya constitutes one of the last large blocks of tropical forest remaining in North and Central America. Home to Mayan speaking people for more than 5 000 years, the region is also uncommonly rich in cultural and archaeological resources. *Timber, Tourists, and Temples* brings together the leading biologists, social scientists and conservationists working in the region to present, in a single volume, information on the intricate social and political issues and the complex scientific and management problems to be resolved there. Following an introductory chapter that presents GIS and remote sensing data, the book considers perspectives on managing forest resources and the forestry and conservation policies of each nation; examines efforts by communities to manage their forest resources; explains the connections between resource conservation and use by local people; highlights research projects that integrate baseline biological research with impact assessments; explains the need to involve local people in conservation effort; *Timber, Tourists, and Temples* explores methods of supporting the biological foundation of the Maya Forest and keeping alive that unique and diverse ecosystem. While many areas face similar development pressures, few have been studied as much or for as long as the Maya Forest. The wealth of information included in this pathbreaking work will be valuable not only for researchers involved with the Maya Forest, but for anyone concerned with the protection, use and management of tropical forest ecosystems throughout the world.

*Big-Leaf Mahogany* Ariel E. Lugo, Julio C. Figueroa Colón, Mildred Alayón, 2006-04-10. *Big Leaf Mahogany* is the most important commercial timber species of the tropics. Current debate concerning whether to protect it as an endangered species has been hampered by the lack of complete, definitive scientific documentation. This book reports on vital research on the ecology of big leaf mahogany, including genetic variations, regeneration, natural distribution patterns and the silvicultural and trade implications for the tree.

**Biodiversity and Conservation of the Yucatán Peninsula** Gerald Alexander Islebe, Sophie Calmé, Jorge L. León-Cortés, Birgit Schmook, 2015-11-17. This book provides information relevant for the conservation of biodiversity and the sound management of the coastal and forest ecosystems of the Yucatan Peninsula in the face of global change. Various aspects of the biodiversity of the Yucatan Peninsula are analyzed in an integrative manner, including phenological, ecophysiological, ecological and conservation aspects of plants and animals and their relationships with humans in coastal and forest ecosystems.

Both campaigns were successful despite opposition from industry supporters Meanwhile simultaneous campaigns to manage land in another part of the Yucatán and to conserve migratory birds in Egypt had far less success In this book Kemi Fuentes George uses these four cases to analyze factors that determine the success or failure of efforts by TANs to persuade policymakers and private sector actors in developing countries to change environmental behavior Fuentes George argues that in order to influence the design and implementation of policy TANs must generate a scientific consensus create social relationships with local actors and advocate for biodiversity in a way that promotes local environmental justice Environmentally just policies would allow local populations access to their lands provided they use natural resources sustainably Justice claims are also more likely to generate needed support among local groups for conservation projects In their conservation efforts Jamaica Mexico and Egypt were attempting to meet their obligations under the UN Convention on Biological Diversity and other regional agreements Fuentes George's innovative analysis shows the importance of local environmental justice for the implementation of international environmental treaties     *Partnerships for Sustainable Forest Ecosystem Management* Avelino B. Villa, 1996-06     **Progress in Botany Vol. 78** Francisco M. Cánovas, Ulrich Lüttege, Rainer Matyssek, 2016-12-10 With one volume each year this series keeps scientists and advanced students informed of the latest developments and results in all areas of the plant sciences The present volume includes reviews on plant physiology biochemistry ecology and ecosystems     *Phytochemistry of Medicinal Plants* John T. Arnason, Rachel Mata, John T. Romeo, 2013-11-11 Phytochemicals from medicinal plants are receiving ever greater attention in the scientific literature in medicine and in the world economy in general For example the global value of plant derived pharmaceuticals will reach 500 billion in the year 2000 in the OECD countries In the developing countries over the counter remedies and ethical phytomedicines which are standardized toxicologically and clinically defined crude drugs are seen as a promising low cost alternatives in primary health care The field also has benefited greatly in recent years from the interaction of the study of traditional ethnobotanical knowledge and the application of modern phytochemical analysis and biological activity studies to medicinal plants The papers on this topic assembled in the present volume were presented at the annual meeting of the Phytochemical Society of North America held in Mexico City August 15-19 1994 This meeting location was chosen at the time of entry of Mexico into the North American Free Trade Agreement as another way to celebrate the closer ties between Mexico the United States and Canada The meeting site was the historic Calinda Geneve Hotel in Mexico City a most appropriate site to host a group of phytochemists since it was the address of Russel Marker Marker lived at the hotel and his famous papers on steroid saponins from *Dioscorea composita* which launched the birth control pill bear the address of the hotel     *COMPENDIO DE COMERCIO EXTERIOR ECONÓMICO 2019* Ediciones Fiscales ISEF, COMPENDIO DE COMERCIO EXTERIOR La mejor recopilación en Materia de Comercio Exterior Es el compendio que combina perfectamente una presentación impecable y las leyes que necesitas al mejor precio Siempre actualizado Contenido Abreviaturas e Índice

*Paisajes patrimoniales: filosofía, estética y arte* Mariano Castellanos Arenas, 2024-08-16 El paisaje es una experiencia de contemplaci n emocional y reflexi n al mismo tiempo es el resultado del trabajo de hombres y mujeres en el espacio geogr fico Es una consecuencia cultural y su naturaleza se constituye en una revelaci n en el universo de las formas al ser concebida vivida y modelada por las sociedades dentro de un permanente proceso de transformaci n Se trata de un dispositivo de convergencia de la percepci n los sentimientos y las representaciones en el que se construye la historia desde sus or genes Asimismo el patrimonio contenido en los paisajes crea una memoria capaz de llevarnos por nuevas v as del conocimiento solo se deben de interpretar el lenguaje que est expresado en el territorio y en sus bienes materiales e inmateriales Ahora bien en la con figuraci n est tica del paisaje es dilucidar sobre lo sublime de la vida el pensamiento y la creaci n art stica En el marco de estos indicadores se encuentra la percepci n y la imaginaci n como una amalgama del goce pero tambi n de la angustia o el miedo Comprender lo est tico en el paisaje es desentra ar la funci n del gusto en la historia que se organiza en el terreno de la sensibilidad y en la reflexi n sobre las complejas manifestaciones de la naturaleza humana Proceso que se convierte en un instrumento para captar y transmitir lo invisible en el espacio y crear en el campo de estudio sobre el paisaje patrimonial nuevas significaciones En este sentido el ejercicio de delimitar paisajes para despu s aprehenderlos y estudiarlos es un ritual creativo que a lo largo de la historia se ha desarrollado y ha formado parte de las tantas maneras de adaptarnos al medio al tiempo que lo interpretamos y es precisamente en este punto en el que se centra este libro en las distintas posibilidades de imag nalo y representarlo Por ello en este volumen se compendia una serie de trabajos donde se hace una reflexi n profunda sobre el pensamiento y la creaci n de los paisajes patrimoniales desde diversas miradas disciplinares y enfoques epistemológicos que disciernen sobre la filosof a la est tica y el arte en los paisajes y los paisajes en el arte *Same Sex Couples - Comparative Insights on Marriage and Cohabitation* Macarena Sáez, 2015-05-06 This book shows six different realities of same sex families They range from full recognition of same sex marriage to full invisibility of gay and lesbian individuals and their families The broad spectrum of experiences presented in this book share some commonalities in all of them legal

scholars and civil society are moving legal boundaries or thinking of spaces within rigid legal systems for same sex families to function In all of them there have been legal claims to recognize the existence of same sex families The difference between them lies in the response of courts Regardless of the type of legal system when courts have viewed claims of same sex couples and their families as problems of individual rights they have responded with a constitutional narrative protecting same sex couples and their families When courts respond to these claims with rigid concepts of what a family is and what marriage is as if legal concepts where unmodifiable same sex couples have remained outside the protection of the law Until forty years ago marriage was the only union considered legitimate to form a family Today more than 30 countries have granted rights to same sex couples including several that have opened up marriage to couples of the same sex Every day there is a new bill being discussed or a new claim being brought to courts seeking formal recognition of same sex couples Not all countries are open to changing their legal structures to accommodate same sex couples but even those with no visible changes are witnessing new voices in their communities challenging the status quo and envisioning more flexible legal systems

**Bullying, Impact on Health, and Beyond** Jorge C. Srabstein,2024 Initially this book was intended to raise awareness among health and public health professionals about what is known about the evolving understanding of the multifaceted and toxic nature of bullying as a psychosocial stressor linked to a wide range of morbidity and prevalent across social settings along the lifespan and around the world In this context this book was primarily aimed at fostering the role of health and public health practitioners in developing strategies for the prevention and detection of bullying and treatment of its associated health risks The recognition during the process of developing this book that bullying is a type of maltreatment which may be associated with other forms of victimization led me to go beyond the notion of bullying and explore the spectrum of maltreatment

Pot-Honey Patricia Vit,Silvia R. M. Pedro,David Roubik,2013-01-17 The stingless bees are one of the most diverse attractive fascinating conspicuous and useful of all the insect groups of the tropical world This is a formidable and contentious claim but I believe it can be backed up They are fifty times more species rich than the honey bees the other tribe of highly eusocial bees They are ubiquitous in the tropics and thrive in tropical cities In rural areas they nest in a diversity of sites and are found on the flowers of a broad diversity of crop plants Their role in natural systems is barely studied but they almost certainly deserve that hallowed title of keystone species They are popular with the general public and are greatly appreciated in zoos and gardens The chapters of this book provide abundant further evidence of the ecological and economic importance of stingless bees
