soledad que la de un pensar cuya autoconciencia pocas veces alcanza a la asunción de sus propios límites y a una comprensión no primaria de la historia del pensamiento y la ciencia humana. La extraordinaria profundidad del pensamiento europeo ha determinado sin embargo en parte de su epistemología contemporánea la transposición de la idea de progreso a una interpretación lineal desconocedora tanto de la realidad histórica como de la vida del espíritu. Esta racionalidad es sometida implacablemente por Lezama a la quizás más dura crítica: la refracción por negativa en la imagen del contrario es decir una enmienda a la totalidad de esa deriva ya científicista o ya sociologista. Y para ello nuestro autor se sitúa en el mejor momento de la más positiva de sus evoluciones humanas y respuesta a los desastres de la guerra: la gran obra crítica de Ernst Robert Curtius. Por demás en esto demuestra que su revitalización de la epistemología barroca dada por definitivamente disuelta a manos de los neopositivismos desde un primer momento sucede que adquiere vida es activada más allá de su aparente muerte y por sí misma permite la original y ardua propuesta de alcanzar el futuro. *De música y músicos* Jorge Velazco, 1983
