Charles T. O'Reilly

Eisenhower And The German Pows Facts Against Falsehood:

Eisenhower and the German POWs Günter Bischof, Stephen E. Ambrose, 1992 Essays refute charges that Eisenhower deliberately starved to death German POWs during World War II Dwight Eisenhower and the Holocaust Jason Lantzer, 2023-10-24 Dwight Eisenhower's encounter with the Holocaust altered how he understood the Second World War and shaped how he led the United States and the Western Alliance during the Cold War This book is the first to blend scholarship on Eisenhower World War II and the Holocaust together constructing a narrative that offers new insights into all three all while uncovering the story of how he became among the first to vow that such atrocities would never again be allowed to happen From the moment he stepped foot in the concentration camp Ohrdruf in April 1945 defeating Nazi Germany took on a moral hue for Eisenhower that had largely been absent before It spurred the belief that totalitarianism in all its forms needed to be confronted This conviction shaped his presidency and solidified American engagement in the postwar world Putting these pieces of the story together alters how we view and understand the second half of the twentieth century **Regarding Frank Capra** Eric Smoodin, 2005-01-13 Using extensive archival research in fan mail fan magazines army services and educational records Smoodin explores the different reception of Capra films with different popular audiences and how the films meanings were marshalled to a variety of nation Prisoners of War Bob Moore, 2022 The Second World War between the Axis and Allied powers saw over 20 million soldiers taken as prisoners of war Prisoners of War uses a series of case studies to illuminate the personal and collective histories of those who experienced captivity in Eastern and Western Europe during the war and their repatriation and reintegration afterwards *The Impact of War Experiences in Europe* Nina Janz, Denis Scuto, 2024-12-30 During World War II over half a million men and women under Nazi occupation who lacked German citizenship were forcibly conscripted into the German Reichsarbeitsdienst and the Wehrmacht The Nazis sought to legitimize this conscription by labeling these individuals as deutsche Volkszugehörige or Deutschstämmige despite it being a clear violation of international law This collection explores the lives of these non German conscripts focusing on individuals from Slovenia Poland Silesia Luxembourg Belgium and France Each chapter adopts an actor centered approach examining their daily lives social dynamics recruitment military deployment and experiences in German uniform under coercion The authors cover cases of desertion and escapes to neutral countries along with the repercussions for families tracing the capture of conscripts as POWs and the complex processes of redeployment by the Allies against the Germans and the re conscription by national governments Through a rich collection of ego documents and personal records this work vividly captures their complex realities offering nuanced insights into the dynamics of occupation coercion and the shifting allegiances that defined wartime and post war Europe **Hi Hitler!** Gavriel D. Rosenfeld, 2015 Analyzes how the Nazi past has become increasingly normalized within western memory since the start of the new millennium **Hitler's Deserters** Douglas Carl Peifer, 2025 The Wehrmacht executed thousands of its own in World War II

for desertion and undermining the military spirit This study examines who these Wehrmacht deserters were why they deserted what punishment they could expect and how German military justice operated It argues that after the First World War the German military embraced the Dolchstoß legend and determined that if it ever went to war again the military would punish deserters ruthlessly This view arrived at independently accorded fully with that of Adolf Hitler The study analyses the challenges associated with hiding in the Third Reich surrendering to the enemy or crossing over into neutral Switzerland or Sweden After the Second World War Germans began a debate about how these deserters should be remembered Vergangenheitsbewältigung and whether they should be rehabilitated The study analyzes the contested meaning attached to the Wehrmacht deserter in Germany from 1945 to the twenty first century *The Enemy in Our Hands* Robert C. Doyle, 2010-05-14 Revelations of abuse at Baghdad's Abu Ghraib prison and the U S detention camp at Guantanamo Bay had repercussions extending beyond the worldwide media scandal that ensued The controversy surrounding photos and descriptions of inhumane treatment of enemy prisoners of war or EPWs from the war on terror marked a watershed moment in the study of modern warfare and the treatment of prisoners of war Amid allegations of human rights violations and war crimes one question stands out among the rest Was the treatment of America's most recent prisoners of war an isolated event or part of a troubling and complex issue that is deeply rooted in our nation's military history Military expert Robert C Doyle's *The Enemy in Our Hands America's Treatment of Prisoners of War from the Revolution to the War on Terror* draws from diverse sources to answer this question Historical as well as timely in its content this work examines America's major wars and past conflicts among them the American Revolution the Civil War World Wars I and II and Vietnam to provide understanding of the United States treatment of military and civilian prisoners *The Enemy in Our Hands* offers a new perspective of U S military history on the subject of EPWs and suggests that the tactics employed to manage prisoners of war are unique and disparate from one conflict to the next In addition to other vital information Doyle provides a cultural analysis and exploration of U S adherence to international standards of conduct including the 1929 Geneva Convention in each war Although wars are not won or lost on the basis of how EPWs are treated the treatment of prisoners is one of the measures by which history's conquerors are judged *Forgotten Battles* Charles T. O'Reilly, 2001-01-01 Italy's War of Liberation takes issue with the apparently prevalent attitude among Allied commanders during World War II that the Italian military was ineffective O'Reilly recounts the little known story of the significant contribution made by the Italian military during the Italian Campaign including the contribution of relatively unacknowledged Italian Partisan formations that fought in Italy France Yugoslavia and Greece Despite the fact that Italians fought on the front lines with the British and American soldiers and despite the service of the Italian Navy and Air Force the Allies refused repeated Italian pleas for more involvement in combat This book not only attempts to correct the record of military history by illustrating the ways in which the Italians were underutilized by the Allies but it also serves to paint a fair portrait of the Italian military's substantial efforts to defeat

Hitler and eradicate Fascism *Rearming Germany* James S. Corum, 2011-04-11 This book provides a comprehensive view of the rearmament of Germany after World War II. The book centers on the debate on German rearmament inside Germany and in the international context. The issues of military planning and economic effects of German rearmament are discussed as well as the rearmament of the East German State **From Incarceration to Repatriation** Susan C. I.

Grunewald, 2024-07-15 *From Incarceration to Repatriation* explores the lives and memories of the nearly 1.5 million German POWs who were held by the Soviet Union during and after World War II and released in phases through 1956, seven years longer than the prisoners of any other Allied nation. Susan C. I. Grunewald argues that Soviet leadership deliberately kept able-bodied German POWs to supplement their labor force after the end of the war. The Soviet Union lost 27 million citizens and a quarter of its physical assets during the war, motivating Soviet leadership to harness the labor of German POWs for as long as possible. Engaging with recently declassified documents in former Soviet archives, archival material from multiple German governments, as well as innovative use of digital humanities methods and geographic information system (GIS) mapping, Grunewald demonstrates that Soviet authorities detained German POWs primarily for economic rather than punitive reasons. In fact, the GIS mapping of the historical materials makes it clear that most of the four thousand POW camps across the USSR were strategically located near industrial infrastructure and natural resource sites that were critical to postwar economic reconstruction. *From Incarceration to Repatriation* is the first book to draw together the distinct fields of Soviet and German history to provide a more nuanced and comprehensive understanding of German POW captivity in the USSR during and after World War II. Attending to the ways that the memory of German POWs remains in circulation in both the former Soviet Union and Germany, Grunewald tracks the political repercussions of war commemoration *The Royal Navy and German Naval*

Disarmament 1942-1947 Chris Madsen, 2020-05-05 After the bitter lessons of German self-disarmament in 1919, Britain was far more alert and focused when it came to overseeing the disarmament of Germany's naval forces after World War II. This book shows how well prepared the British were, second time around **A German POW in New Mexico** Walter

Schmid, 2005-06-15 Walter Schmid, a member of Rommel's Afrika Korps, was one of hundreds of thousands of POWs interned in the United States during World War II. Drafted into the German army at twenty, he had fought for only five months when captured in Tunisia in May 1943. Schmid was sent first to POW camps in Oklahoma (Gruber, Bixby, and McAlester) and was soon transferred to New Mexico in July 1944. Walter Schmid worked in southern New Mexico's Mesilla Valley, picking cotton and harvesting melons alongside Mexican American laborers. He recalls playing trumpet in the camp orchestra and watching Sunday soccer games between the teams of rival POW camps. Based on his diary and the letters he sent home to his German girlfriend, whom he later married, Schmid's memoir was published in Germany in 2000. This abbreviated English translation begins with his capture in North Africa and his voyage to the United States and ends with his work experience in England, where he was transferred after almost three years of captivity in the United States and his return to Germany in 1947.

Objects of Concern Jonathan F. Vance, 2011-11-01 Hockey magnate Conn Smythe Trudeau cabinet minister Gilles Lamontagne and the composer and former conductor of the Toronto Symphony Orchestra Sir Ernest MacMillan share something other than their fame they all have the dubious distinction of having been captured by the enemy during Canada's wars of the twentieth century Like some 15 000 other Canadians Smythe Lamontagne and MacMillan experienced the bewilderment that accompanied the moment of capture the humiliation of being completely in the captor's power and the sense of stagnating in a backwater while the rest of the world moved forward From prison camps in Eire where POWs were allowed to keep pets and to be members of the local tennis clubs to camps in Japan where prisoners were often severely beaten systematically starved and overworked Canadian prisoners of war throughout the twentieth century have faced a variety of conditions and experiences But they did not fight their war alone and isolated On the home front many other people attempted to help them Against the backdrop of the POW experience Jonathan Vance provides the first comprehensive account of how the Canadian government and non governmental organizations such as the Red Cross have dealt with the problems of prisoners of war Beginning in the nineteenth century Vance traces the growth of Canadian interest in the plight of POWs He goes on to examine the measures taken to assist Canadian POWs during the two world wars and the Korean war The book focuses in particular on the campaigns to ship relief supplies to prison camps and on attempts to secure the prisoners release POWs have sometimes been seen as forgotten casualties whose privations were misunderstood during war and whose needs were neglected afterwards This perception developed out of a tradition in POW memoirs which paid little attention to the efforts of politicians civil servants and individuals who devoted considerable time and energy to their cause Vance argues that this impression is wrong and that in fact every effort was made to ameliorate conditions for men and women in captivity In his book he outlines the difficulties and confusion that arose from jurisdictional squabbling and lack of clear communication Ironically Vance concludes obstacles were more often created by an overabundance of enthusiasm than by a lack of interest in the prisoners fate Canada's wartime bureaucracy often praised by historians is revealed as needlessly complex and in many ways hopelessly inefficient In *Objects of Concern* Jonathan Vance examines Canada's role in the formation of an important aspect of international law traces the growth and activities of a number of national and local philanthropic agencies and recounts the efforts of ex prisoners to secure compensation for the long term effects of captivity In doing so he reminds Canadians of an aspect of war that has often been overlooked in conventional military history

The SAGE Encyclopedia of War: Social Science Perspectives Paul Joseph, 2016-06-15 Traditional explorations of war look through the lens of history and military science focusing on big events big battles and big generals By contrast *The SAGE Encyclopedia of War Social Science Perspective* views war through the lens of the social sciences looking at the causes processes and effects of war and drawing from a vast group of fields such as communication and mass media economics political science and law psychology and sociology Key features include More than 650 entries organized in an A to Z format

authored and signed by key academics in the field Entries conclude with cross references and further readings aiding the researcher further in their research journeys An alternative Reader s Guide table of contents groups articles by disciplinary areas and by broad themes A helpful Resource Guide directing researchers to classic books journals and electronic resources for more in depth study This important and distinctive work will be a key reference for all researchers in the fields of political science international relations and sociology

Carpentry and Joinery: Work Activities Chris Tooke,2014-04-04 This highly illustrated textbook is written to meet the needs of candidates studying for the NVQ levels 2 and 3 in Carpentry and Joinery and other courses at this level Each chapter covers a specific activity such as constructing stairs or windows and includes the selection of produced components setting out marking out assembly and fixing The book contains references to the companion volume by the same authors Bench and Site Skills and to the relevant regulations and standards Together with Carpentry and Joinery Bench and Site Skills this book will form an invaluable resource for students long after they qualify Brian Porter and Reg Rose were both formerly lecturers at the Leeds College of Building They are authors of several successful books on carpentry and joinery

Confronting Captivity Arie J. Kochavi,2011-01-20 How was it possible that almost all of the nearly 300 000 British and American troops who fell into German hands during World War II survived captivity in German POW camps and returned home almost as soon as the war ended In Confronting Captivity Arie J Kochavi offers a behind the scenes look at the living conditions in Nazi camps and traces the actions the British and American governments took and didn t take to ensure the safety of their captured soldiers Concern in London and Washington about the safety of these POWs was mitigated by the recognition that the Nazi leadership tended to adhere to the Geneva Convention when it came to British and U S prisoners Following the invasion of Normandy however Allied apprehension over the safety of POWs turned into anxiety for their very lives Yet Britain and the United States took the calculated risk of counting on a swift conclusion to the war as the Soviets approached Germany from the east Ultimately Kochavi argues it was more likely that the lives of British and American POWs were spared because of their race rather than any actions their governments took on their behalf

Confronting Torture Scott A. Anderson,Martha Nussbaum,2018-04-23 Torture has lately become front page news featured in popular movies and TV shows and a topic of intense public debate It grips our imagination in part because torturing someone seems to be an unthinkable breach of humanity theirs and ours And yet when confronted with horrendous events in war or the prospect of catastrophic damage to one s own country many come to wonder whether we can really afford to abstain entirely from torture Before trying to tackle this dilemma though we need to see torture as a multifaceted problem with a long history and numerous ethical and legal aspects Confronting Torture offers a multidisciplinary investigation of this wrenching topic Editors Scott A Anderson and Martha C Nussbaum bring together a diversity of scholars to grapple with many of torture s complexities including How should we understand the impetus to use torture Why does torture stand out as a particularly heinous means of war fighting

Are there any sound justifications for the use of torture How does torture affect the societies that employ it And how can we develop ethical or political bulwarks to prevent its use The essays here resist the temptation to oversimplify torture drawing together work from scholars in psychology history sociology law and philosophy deepening and broadening our grasp of the subject Now more than ever torture is something we must think about this important book offers a diversity of timely

constructive responses on this resurgent and controversial subject **Relationships/Beziehungsgeschichten. Austria and the United States in the Twentieth Century** Günter Bischof, 2014-04-28 After the breakup of the Habsburg Monarchy the Austrian American relationship was characterized by a dwarf confronting a giant America continued to be a heaven for a better life for many Austrian emigrants For the growing American preponderant position in the world after World War I the small Austrian Republic was insignificant And yet there were times when Austria mattered geopolitically During the post World War II occupation of Austria the U S helped reconstruct Austria economically and was the biggest champion of its independence During the Cold War the U S frequently used Austria as a mediator site of summit meetings American mass production models consumerism and popular culture were adopted by Austrian youth Americanization and American preponderance also produced anti Americanism With the end of the Cold War and Austria s accession to the European Union it once again lost significance for Washington s geopolitics Life and Death in Captivity Geoffrey P. R. Wallace, 2015-08-11

Why are prisoners horribly abused in some wars but humanely cared for in others In Life and Death in Captivity Geoffrey P R Wallace explores the profound differences in the ways captives are treated during armed conflict Wallace focuses on the dual role played by regime type and the nature of the conflict in determining whether captor states opt for brutality or mercy Integrating original data on prisoner treatment during the last century of interstate warfare with in depth historical cases Wallace demonstrates how domestic constraints and external incentives shape the fate of captured enemy combatants Both Russia and Japan for example treated prisoners very differently in the Russo Japanese War of 1904 5 and in World War II the behavior of any given country is liable to vary from conflict to conflict and even within the same war Democracies may be more likely to treat their captives humanely yet this benevolence is rooted less in liberal norms of nonviolence than in concerns over public accountability When such concerns are weak or absent democracies are equally capable of brutal conduct toward captives In conflicts that devolve into protracted fighting belligerents may inflict violence against captives as part of a strategy of exploitation and to coerce the adversary into submission When territory is at stake prisoners are further at risk of cruel treatment as their captors seek to permanently remove the most threatening sources of opposition within newly conquered lands By combining a rigorous strategic approach with a wide ranging body of evidence Wallace offers a vital contribution to the study of political violence and wartime conduct

Right here, we have countless book **Eisenhower And The German Pows Facts Against Falsehood** and collections to check out. We additionally provide variant types and after that type of the books to browse. The gratifying book, fiction, history, novel, scientific research, as with ease as various extra sorts of books are readily clear here.

As this Eisenhower And The German Pows Facts Against Falsehood, it ends stirring monster one of the favored books Eisenhower And The German Pows Facts Against Falsehood collections that we have. This is why you remain in the best website to see the amazing book to have.
