Donald A. Carter

Eisenhower's New Look National Security Policy 1953-1961:

Eisenhower's New-Look National Security Policy, 1953-61 S. Dockrill, 1996-08-11 The New Look sought to formulate a more selective and flexible response to Communist challenges The New Look was not simply a bigger bang for a buck nor merely a device for achieving a balanced budget nor did it amount solely to a strategy of massive retaliation as is commonly assumed Dr Dockrill's incisive revisionist analysis of the subject throws new light on US ambitious global strategy during the Eisenhower years

The History of American Foreign Policy from 1895 Jerald A Combs, 2015-02-12 This important text offers a clear concise and affordable narrative and analytical history of American foreign policy since the Spanish American War The book narrates events and policies but goes further to emphasize the international setting and constraints within which American policy makers had to operate the domestic pressures on those policy makers and the ideologies preferences and personal idiosyncrasies of the leaders themselves

America's Cold War Campbell Craig, Fredrik Logevall, 2012-03-05 In a brilliant new interpretation Campbell Craig and Fredrik Logevall reexamine the successes and failures of America's Cold War The United States dealt effectively with the threats of Soviet predominance in Europe and of nuclear war in the early years of the conflict But by engineering this policy American leaders successfully paved the way for domestic actors and institutions with a vested interest in the struggle's continuation Long after the USSR had been effectively contained Washington continued to wage a virulent Cold War that entailed a massive arms buildup wars in Korea and Vietnam the support of repressive regimes and counterinsurgencies and a pronounced militarization of American political culture

America's Cold War Campbell Craig, Fredrik Logevall, 2020-07-14 A creative carefully researched and incisive analysis of US strategy during the long struggle against the Soviet Union Stephen M Walt Foreign Policy Craig and Logevall remind us that American foreign policy is decided as much by domestic pressures as external threats America's Cold War is history at its provocative best Mark Atwood Lawrence author of *The Vietnam War* The Cold War dominated world affairs during the half century following World War II America prevailed but only after fifty years of grim international struggle costly wars in Korea and Vietnam trillions of dollars in military spending and decades of nuclear showdowns Was all of that necessary In this new edition of their landmark history Campbell Craig and Fredrik Logevall engage with recent scholarship on the late Cold War including the Reagan and Bush administrations and the collapse of the Soviet regime and expand their discussion of the nuclear revolution and origins of the Vietnam War Yet they maintain their original argument that America's response to a very real Soviet threat gave rise to a military and political system in Washington that is addicted to insecurity and the endless pursuit of enemies to destroy America's Cold War speaks vividly to debates about forever wars and threat inflation at the center of American politics today

Managing National Security Policy William W. Newmann, 2010-06-15 The U S national security decision making system is a product of the Cold War Formed in 1947 with the National Security Council it developed around the demands of competing with and containing the USSR But

the world after the collapse of communism and particularly the tragedy of September 11 is vastly different. A threatening but familiar enemy has given way to a complex environment of more diverse and less predictable threats. As the creation of the Homeland Security Council and Office of Homeland Security indicate, the United States must now reevaluate standard national security processes for this more uncertain world. In this timely book, William W. Newmann examines the way presidents manage their advisory process for national security decision making and the way that process evolves over the course of an administration's term. Three detailed case studies show how the president and his senior advisors managed arms control and nuclear strategy during the first terms of the Carter, Reagan, and G. H. W. Bush presidencies. These studies, enhanced by interviews with key members of the national security teams including James Baker, Brent Scowcroft, and Zbigniew Brzezinski, reveal significant patterns of structure and adaptation. They provide a window to how decision making in the modern White House really works at a moment when national security decisions are again at the top of the agenda. Specifically, Newmann investigates this pattern: Each president begins his administration with a standard National Security Council-based interagency process, which he then streamlines toward a reliance on senior officials working in small groups and a confidence structure of a few key advisors. Newmann examines the institutional pressures that push administrations in this direction as he also weighs the impact of the leadership styles of the presidents themselves. In so doing, he reaches the conclusion that decision making can be an audition process through which presidents discover which advisors they trust. And the most successful process is one that balances formal, informal, and confidence sources to maintain full discussion of diverse opinions while settling those debates informally at the senior-most levels. Unlike previous studies, *Managing National Security Policy* views decision making as dynamic rather than as a static system inaugurated at the beginning of a president's term. The key to understanding the decision making process rests upon the study of the evolving relationships between the president and his senior advisors. Awareness of this evolution paints a complex portrait of policy making which may help future presidents design national security decision structures that fit the realities of the office in today's world.

The Vienna Summit and Its Importance in International History Günter Bischof, Stefan Karner, Barbara Stelzl-Marx, 2013-12-19. At the beginning of June 1961, the tensions of the Cold War were supposed to abate as both sides sought a resolution. The two most important men in the world, John F. Kennedy and Nikita Khrushchev, met for a summit in Vienna. Yet the high hopes were disappointed. Within months, the Cold War had become very hot. Khrushchev built the Berlin Wall, and a year later he sent missiles to Cuba to threaten the United States directly. Despite the fact that the Vienna Summit yielded barely any tangible results, it did lead to some very important developments. The superpowers came to see for the first time that there was only one way to escape from the atomic hell of their respective arsenals: dialogue. The peace through fear and the hotline between Washington and Moscow prevented an atomic confrontation. Austria successfully demonstrated its new role as neutral state and host when Vienna became a meeting place in the Cold War. In *The Vienna Summit and Its Importance in International*
