Wilkes, 2014-01-21 This book uses the contradictions, fractures, and coincidences of a twentieth-century rural landscape to explore new methods of writing place beyond new nature writing. In doing so, it opens up new ways of reading modernist artists and writers such as Vanessa Bell, Mary Butts, and Paul Nash **Ronald Johnson's Modernist Collage Poetry** R. Hair, 2010-12-20 Using a critical examination of the collage poetics of Ronald Johnson, this book sets out to understand Johnson's poetry in the context of the New American collage tradition stretching from Ezra Pound to Louis Zukofsky and beyond. Additionally, the book assesses Johnson's work in relation to wider questions concerning literary chronologies, especially the discontinuities commonly seen to exist between nineteenth-century Romantic and twentieth-century modernist literary forms **Relics, dreams, voyages** Peter Davidson, 2024-07-30 *Relics, dreams, voyages* is a closely focused sequence of studies of worldwide connections in all the arts in the baroque period. Drawing on original research in libraries, collections, and archives in five countries and in as many languages, this book draws many astonishing, unfamiliar, and beautiful texts, things, and events into a cartography of the secret and strange patterns of baroque cultures worldwide. The visual arts are examined across a wide temporal and geographical span, and many subversive iconographies are decoded at the French and English courts, in remote Scotland, in Nagasaki, in Valladolid. This book offers a new extraordinary cultural geography of the baroque world, opening doors to many rich and strange cultural artefacts from China to Peru *Robert Morris's Folly* Ryan K. Smith, 2014-09-23 In 1798, Robert Morris, financier of the American Revolution, confidant of George Washington, former U.S. senator, plunged from the peaks of wealth and prestige into debtors' prison and public contempt. How could one of the richest men in the United States, one of only two founders who signed the Declaration of Independence, the Articles of Confederation, and the Constitution, suffer such a downfall? This book examines for the first time the extravagant Philadelphia town house Robert Morris built and its role in bringing about his ruin. Part biography, part architectural history, the book recounts Morris's wild successes as a merchant, his recklessness as a land speculator, and his unrestrained passion in building his palatial, doomed mansion, once hailed as the most expensive private building in the United States but later known as Morris's Folly. Setting Morris's tale in the context of the nation's founding, this volume refocuses attention on an essential yet nearly forgotten American figure while also illuminating the origins of America's ongoing ambivalent attitudes toward the superwealthy and their sensational excesses [Haunting Modernity and the Gothic Presence in British Modernist Literature](#) Daniel Darvay, 2016-09-02 This book explores the complex relationship between British modernism and the Gothic tradition over several centuries of modern literary and cultural history. Illuminating the blind spots of Gothic criticism and expanding the range of cultural material that falls under the banner of this tradition, Daniel Darvay focuses on how late nineteenth and

early twentieth century British writers transform the artifice of Gothic ruins into building blocks for a distinctively modernist architecture of questions concerns images and arguments To make this argument Darvay takes readers back to early exemplars of the genre thematically rooted in the English Reformation tracing it through significant Victorian transformations to finally the modernist period Through writers such as Oscar Wilde Joseph Conrad Virginia Woolf E M Forster and D H Lawrence this book ultimately expands the boundaries of the Gothic genre and provides a fresh new approach to better understanding the modernist movement

Gothic Antiquity Dale Townshend, 2019-09-19 Gothic Antiquity History Romance and the Architectural Imagination 1760 1840 provides the first sustained scholarly account of the relationship between Gothic architecture and Gothic literature fiction poetry drama in the late eighteenth and early nineteenth centuries Although the relationship between literature and architecture is a topic that has long preoccupied scholars of the literary Gothic there remains to date no monograph length study of the intriguing and complex interactions between these two aesthetic forms Equally Gothic literature has received only the most cursory of treatments in art historical accounts of the early Gothic Revival in architecture interiors and design In addressing this gap in contemporary scholarship Gothic Antiquity seeks to situate Gothic writing in relation to the Gothic architectural theories aesthetics and practices with which it was contemporary providing closely historicized readings of a wide selection of canonical and lesser known texts and writers Correspondingly it shows how these architectural debates responded to and were to a certain extent shaped by what we have since come to identify as the literary Gothic mode In both its survivalist and revivalist forms the architecture of the Middle Ages in the long eighteenth century was always much more than a matter of style Incarnating for better or for worse the memory of a vanished Gothic age in the modern enlightened present Gothic architecture be it ruined or complete prompted imaginative reconstructions of the nation s past a notable visionary turn as the antiquary John Pinkerton put it in 1788 in which Gothic writers architects and antiquaries enthusiastically participated The volume establishes a series of dialogues between Gothic literature architectural history and the antiquarian interest in the material remains of the Gothic past and argues that these discrete yet intimately related approaches to vernacular antiquity are most fruitfully read in relation to one another

The Vatican to Vegas Norman M. Klein, 2024-10-27 A guided tour through the nuanced politics of architectural illusion The Vatican to Vegas takes the reader from lavish Baroque fantasies of the seventeenth century to the Electronic Baroque of today The scripted spaces described by Norman M Klein are punctuated with devices widely used in special effects since 1500 shocks surprise twists grand fakes and copies Since its first publication 2004 The Vatican To Vegas has emerged as a classic across many fields from media and architecture to the fine arts and urban planning Its timing was ironic Klein assumed in 2004 that the future of scripted illusion was about to radically shift This new edition brings the ironic story up to the present and into the digitally overwhelmed scripted spaces of

the future *Notes from the Garden* Ruth Petrie, 2012-06-05 This charming guide gathers together writings on all aspects of British gardening from the nineteenth century plant hunters such as China Wilson and the Veitches who brought seeds and specimens from every corner of the world to the designers such as Capability Brown and Gertrude Jekyll who set their mark on gardening styles In pieces written by the paper's stellar list of gardening correspondents Vita Sackville West Penelope Hobhouse Monty Don Carol Klein not to mention Christopher Lloyd the grand old man of British gardening it explores our dedication to the growing garden And with stories about the restoration of the Lost Gardens of Heligan the building of the great glasshouses at Chatsworth and the preservation work carried out at Kew it paints a picture of how history can be unearthed through gardening and emphasises how important it is to preserve our green fingered heritage Coming right up to the present day with pieces on the advances at the Eden project *Notes on the Garden* is the perfect bedside companion for anyone who loves the feeling of soil between their fingers **Sculpture and the Garden** Patrick Eyres, 2017-07-05

Although the integration of sculpture in gardens is part of a long tradition dating back at least to antiquity the sculptures themselves are often overlooked both in the history of art and in the history of the garden This collection of essays considers the changing relationship between sculpture and gardens over the last three centuries focusing on four British archetypes the Georgian landscape garden the Victorian urban park the outdoor spaces of twentieth century modernism and the late twentieth century sculpture park Through a series of case studies exploring the contemporaneous audiences of gardens the book uncovers the social political and gendered messages revealed by sculpture's placement and suggests that the garden can itself be read as a sculptural landscape *Ruined by Design* Inger Sigrun Brodey, 2013-01-11 By examining the motif of ruination in a variety of late eighteenth century domains this book portrays the moral aesthetic of the culture of sensibility in Europe particularly its negotiation of the demands of tradition and pragmatism alongside utopian longings for authenticity natural goodness self governance mutual transparency and instantaneous kinship This book argues that the rhetoric of ruins lends a distinctive shape to the architecture and literature of the time and requires the novel to adjust notions of authorship and narrative to accommodate the prevailing aesthetic Just as architects of eighteenth century follies pretend to have discovered authentic ruins novelists within the culture of sensibility also build purposely fragmented texts and disguise their authorship invoking highly artificial means of simulating nature The cultural pursuit of human ruin however leads to hypocritical and sadistic extremes that put an end to the characteristic ambivalence of sensibility and its unusual structures
