Tom Lisanti, 2015-05-07 During the 1960s a bushel of B movies were produced and aimed at the predominantly teenage drive in movie audience At first teens couldn't get enough of the bikini clad beauties dancing on the beach or being wooed by Elvis Presley but by 1966 young audiences became more interested in the mini skirted go go boot wearing independent minded gals of spy spoofs hot rod movies and biker flicks Profiled herein are fifty sexy young actresses that teenage girls envied and teenage boys desired including Quinn O'Hara Melody Patterson Hilarie Thompson Donna Loren Pat Priest Meredith MacRae Arlene Martel Cynthia Pepper and Beverly Washburn Some like Sue Ane Langdon Juliet Prowse Marlyn Mason and Carole Wells appeared in major studio productions while others such as Regina Carroll Susan Hart Angelique Pettyjohn and Suzie Kaye were relegated to drive in movies only Each biography contains a complete filmography Some also include the actresses candid comments and anecdotes about their films the people they worked with and their feelings about acting A list of web sites that provide further information is also included [Children's Books on the Big Screen](#) Meghann Meeusen, 2020-06-04

In *Children's Books on the Big Screen* Meghann Meeusen goes beyond the traditional adaptation approach of comparing and contrasting the similarities of film and book versions of a text By tracing a pattern across films for young viewers Meeusen proposes that a consistent trend can be found in movies adapted from children's and young adult books that representations of binaries such as male/female self/other and adult/child become more strongly contrasted and more diametrically opposed in the film versions The book describes this as binary polarization suggesting that starker opposition between concepts leads to shifts in the messages that texts send particularly when it comes to representations of gender race and childhood After introducing why critics need a new way of thinking about children's adapted texts *Children's Books on the Big Screen* uses middle grade fantasy adaptations to explore the reason for binary polarization and looks at the results of polarized binaries in adolescent films and movies adapted from picture books Meeusen also digs into instances when multiple films are adapted from a single source such as *The Wonderful Wizard of Oz* and ends with pragmatic classroom application suggesting teachers might utilize this theory to help students think critically about movies created by the Walt Disney corporation Drawing from numerous popular contemporary examples *Children's Books on the Big Screen* posits a theory that can begin to explain what happens and what is at stake when children's and young adult books are made into movies **The Lone Black Pioneer:**
