Follow the Leader? Gabriel S. Lenz, 2024-05-31 In a democracy we generally assume that voters know the policies they prefer and elect like minded officials who are responsible for carrying them out We also assume that voters consider candidates competence honesty and other performance related traits But does this actually happen Do voters consider candidates policy positions when deciding for whom to vote And how do politicians performances in office factor into the voting decision In *Follow the Leader* Gabriel S Lenz sheds light on these central questions of democratic thought Lenz looks at citizens views of candidates both before and after periods of political upheaval including campaigns wars natural disasters and episodes of economic boom and bust Noting important shifts in voters knowledge and preferences as a result of these events he finds that while citizens do assess politicians based on their performance their policy positions actually matter much less Even when a policy issue becomes highly prominent voters rarely shift their votes to the politician whose position best agrees with their own In fact Lenz shows the reverse often takes place citizens first pick a politician and then adopt that politician s policy views In other words they follow the leader Based on data drawn from multiple countries *Follow the Leader* is the most definitive treatment to date of when and why policy and performance matter at the voting booth and it will break new ground in the debates about democracy

Follow the Leader Laura Tingle,2018-09-17 What is true political leadership and how do we get it What qualities should we wish for in our leaders And why is it killing season for prime ministers In this wise and timely essay Laura Tingle argues that democratic leaders build a consensus for change rather than bludgeon the system or turn politics into a popularity contest They mobilise and guide more than impose a vision Tingle offers acute portraits profiles in courage and cunning of leaders ranging from Merkel and Howard to Macron and Obama She discusses the rise of the strongman including Donald Trump for whom there is no map only sentiment and power And she analyses what has gone wrong with politics in Australia arguing that successful leaders know what they want to do and create the space and time to do it After the Liberal Party s recent episode of political madness where does this leave the nation s new prime minister Scott Morrison The Liberal Party has been ripped apart and our polity is the worse off for having one of its major political parties rendered largely ungovernable Malcolm Turnbull s fate came down to a series of judgements made not just by him but by his colleagues who spent much of his prime ministership failing to follow the leader and also failing in their own collective responsibility for leadership Laura Tingle *Follow the Leader* This issue contains correspondence relating to Dead Right by Richard Denniss from John McTernan W Max Corden John Quiggin Kristina Keneally Adam Creighton Danielle Wood Damien Freeman Michael Keating Roderick Best Richard Denniss

Follow the Leader, Lose the Region Jeffrey Reeves,2023-03-01 As competition among the traditional great powers in the Asia region intensifies Canada faces a stark choice Should it align its foreign policy with the US led free and open Indo

Pacific strategy Shared values and material ties give Canada a clear incentive to follow the lead of the United States and Western aligned democracies in the region However there are other considerations to take into account Follow the Leader presents the case for the development of a foreign policy based on understanding how Asia sees itself rather than Western presumptions Examining a range of key issues it draws on Asian scholarship leadership statements polling and media to demonstrate Western misunderstanding of regional developments and to outline alternative regionally based perspectives on Asia s contemporary dynamics This critical analysis urges the Canadian government to chart an independent policy arguing that whatever Canada might gain from following its traditional allies it equally stands to lose by aligning itself with a consortium of states committed to self preservation over regional stability *Follow the Leader in the Horn* William E.
