*Brian Honyouti* Zena Pearlstone,2018-05-17 Although Hopi carver Brian Honyouti 1947-2016 was deeply embedded in his culture and produced ritual artworks throughout his life he nevertheless also created unique commercial artworks The latter the focus of this volume increasingly diverged from the world view embodied in Hopi art ceremony and philosophy to become a new form of storytelling While it is unlikely that anyone familiar with Hopi carvings dolls would look to Honyouti's artworks expecting to unearth political social or environmental truths and circumstances these are nonetheless the messages he determined to convey In *Brian Honyouti Hopi Carver* art historian Zena Pearlstone explores the ideas Honyouti sought to communicate through his work She examines as well how he transmitted them by turning a traditional art form the carved representations of katsinas into a modernistic critique of local Native American and global concerns It is as a result of these universal implications that Honyouti's art will endure Because Honyouti's attachment to Hopi culture was so profound he veiled his critical reflections with humor and imagination to avoid exposing too much to public scrutiny Feeling that there should be a public record of his intentions however he set aside many of his self-imposed limitations when he agreed to collaborate with Pearlstone It was his hope that having made his intentions public for the first time his work would be seen as a window into Hopi life as well as a reflection of contemporary mainstream American society *Education Beyond the*

*Mesas* Matthew Sakiestewa Gilbert, 2010-12-01 Education beyond the Mesas is the fascinating story of how generations of Hopi schoolchildren from northeastern Arizona turned the power by using compulsory federal education to affirm their way of life and better their community Sherman Institute in Riverside California one of the largest off reservation boarding schools in the United States followed other federally funded boarding schools of the late nineteenth and early twentieth centuries in promoting the assimilation of indigenous people into mainstream America Many Hopi schoolchildren deeply conversant in Hopi values and traditional education before being sent to Sherman Institute resisted this program of acculturation Immersed in learning about another world generations of Hopi children drew on their culture to skillfully navigate a system designed to change them irrevocably In fact not only did the Hopi children strengthen their commitment to their families and communities while away in the land of oranges they used their new skills fluency in English and knowledge of politics and economics to help their people when they eventually returned home Matthew Sakiestewa Gilbert draws on interviews archival records and his own experiences growing up in the Hopi community to offer a powerful account of a quiet enduring triumph
