Fondements et limites du capitalisme Louis Gill, 1996 *The Political Economy of Bilateral Aid* Peter

Blunt, 2022-12-23 The social and economic consequences of the COVID 19 pandemic and of extreme climate events have brought into sharp relief the serious deficiencies of our political economies The dominant global ideology of neoliberalism and its architects and beneficiaries are responsible for this Bilateral development assistance is an integral part of the neoliberal grand design However while the deficiencies of neoliberalism have been starkly exposed by the pandemic its collapse is unlikely in the short term Much bilateral assistance will therefore continue to be self serving Within these confines and on the basis of a sharply critical analysis of the functioning of technical assistance at the point of the design and delivery of programmes and projects this book identifies crucial supply side nodes of power and influence where feasible and relatively straight forward functional reforms strategy structure selection training would make genuinely developmental results for recipients more likely and enhance donor interests at the same time It argues that more authentic empathetic and altruistic technical assistance will be essential to bringing this about The arguments are supported by primary published evidence gathered by the author during 18 years of full time employment as a team leader or programme manager of technical assistance programmes The book will be of interest to students of development management development economics political economy and international relations as well as policy makers development practitioners and supply and demand side government officials Analyse économique et historique des sociétés contemporaines Marc Montoussé, 2007

Finance Capital Today François Chesnais, 2016-09-07 Finance Capital Today is shortlisted for the The Isaac and Tamara Deutscher Memorial Prize 2017 Finance Capital Today presents a rich new analysis of the specific features of contemporary capitalism notably its truly global nature and its financialisation calling on Marxist analyses of the concentration centralisation and globalisation of capital and Marx's theory of interest bearing and fictitious capital Chesnais shows how financial globalisation and the exponential growth of financial assets have developed alongside the globalisation of productive capital paying special attention to the contemporary operations of transnational corporations and global oligopoly He argues that the macroeconomic perspective is one in which large amounts of capital are looking for profitable investment in a setting of underlying overproduction and low profits The outcome will be low global growth repeated financial shocks and the growing interconnection between the environmental and economic crises **Marx et le capitalisme** Bernard Chavance, 2009-11-12 la fin du XXe siècle la théorie du capitalisme de Marx semblait dans les oubliettes de l'histoire La chute des systèmes socialistes et l'hégémonie de la doctrine absolutiste du marché semblaient enterrer définitivement une conception jugée dépassée dont les prédictions sur la fin prochaine du capitalisme avaient traversé l'histoire La grande crise économique mondiale du début du XXIe siècle ravive la vision critique que Marx avait élaboré celle d'un mode de production capitaliste contradictoire dont le développement s'effectue travers des convulsions périodiques au coût social considérable Cet

ouvrage propose une introduction la thorie marxienne dvelopp e dans Le Capital travers la critique de l conomie politique Le capital y est d fini comme un rapport social comme un processus de fabrication de plus qui s autonomise et finit par instrumentaliser les hommes qui le produisent Deux conflits majeurs engendrent la dynamique singuli re du syst me le premier oppose le travail et le capital le second les capitalistes entre eux dans la concurrence qu ils se livrent Ses contradictions s expriment et se r solvent provisoirement par des crises Penser le capitalisme aujourd hui demeure un imp ratif et un d fi La thorie de Marx ainsi que sa critique peuvent encore y contribuer par cela m me Le Capital reste un ouvrage classique

Informatique et capitalisme Daniel Furjot, Manuel Janco, 1972-01-01T00:00:00+01:00 Dans la situation concrète actuelle la question de l'informatique se présente sous une forme contradictoire qui en fait le lieu théorique de toutes les confusions D'une part un discours surabondant sur valorisant plein de complaisance véritable sous produit culturel de la littérature humaniste D'autre part le mutisme résolu d'une gauche révolutionnaire qui a choisi de se taire craignant que le contre discours ne constitue qu'une mystification au second degré Les auteurs veulent au contraire par leur travail contribuer au débat sur un problème important que les marxistes léninistes ont mené pour leur propre compte des fins militantes

La philosophie et les interprétations de la mondialisation en Afrique, 2009-03-01 Les auteurs donnent ici du phénomène de la mondialisation des lectures différentes Et si la pensée doit toujours précéder l'action la véritable question consisterait se demander quelle pensée a de tout temps précédé la mondialisation Peut-être la philosophie a-t-elle toujours été en retard sur l'action D'où l'importance de la citation de Dominique Folscheid la mondialisation a déjà suffisamment changé le monde il est urgent de la penser sous entendu en philosophes

The Quest for Autonomy in Acadia André Magord, 2008 Acadians remain one of the few North American historical minorities which has been able to survive as a distinct ethno cultural and linguistic group This fact is all the more striking since this people suffered a deportation and dispersion and it does not possess its own territory nor does it have a government of its own Acadians therefore have continually had to face the issue of autonomy in all its varied forms The central issue addressed by this book is an inquiry into the nature of the process which has maintained the unique Acadian minority in existence right up to the present day This study differs from other multidisciplinary analyses of this community principally because it studies the historical continuity of the dynamic of autonomy that has evolved since the beginning of Acadia The research for this

complete chronological framework encompasses a number of intersecting disciplinary approaches at the historical political socio cultural and existential levels These differing perspectives are harmonized by their common objective of defining the process of autonomization and the counter process of heteronomization which lie at the heart of each of the periods studied These approaches allow critical openings between the framework of social history power relationships and the fundamental aspirations of the minority

Les classes sociales en France (2) Maurice Bouvier-Ajam, Gilbert Mury, 1963-01-01 T00:00:00+01:00 Cet ouvrage n'est pas de la collaboration du sociologue Gilbert Mury et de l'économiste Maurice Bouvier-Ajam comble une grave lacune puisqu'il n'en existait pas jusqu'à ce jour qui traite d'une manière scientifique le problème des classes sociales en France la fois sous son aspect théorique et sous ses aspects historiques et conjoncturels Les auteurs ont tout d'abord montré la solidité et l'actualité du critère marxiste qui définit les classes sociales en fonction des rapports sociaux de production Ils examinent les diverses propositions de la doctrine bourgeoise sur la définition des classes et font en ce domaine la part des erreurs et celle des informations utilisables une fois replacées dans un contexte scientifique Puis ils retracent l'évolution et la lutte des classes dans les principales périodes de notre Histoire nationale examinant ainsi les rapports sociaux sous la société esclavagiste la société féodale et la société capitaliste Ils se demandent dans quelle mesure les documents officiels et les enquêtes monographiques et socioprofessionnelles permettent d'appréhender aujourd'hui le problème des classes sous son aspect statistique et retiennent de ces diverses expertises les quelques éléments qui peuvent constituer des approches

Successivement ils entreprennent alors l'analyse des structures modernes de la bourgeoisie de la classe ouvrière de l'ensemble salarial des couches moyennes et des classes rurales Ils montrent comment la multiplicité de ces vastes ensembles humains se situe dans le cadre d'une polarisation générale et la vie collective fondement de l'union des larges masses Enfin ils situent les classes dans la structure sociale de notre temps ce qui les conduit à se pencher sur la texture des familles des budgets familiaux des diverses couches le cas des familles complexes les mouvements entre classes L'opposition est faite entre les conceptions de la classe en soi et la classe pour soi et les auteurs concluent en montrant l'actualité de la lutte des classes dans le capitalisme contemporain et le rôle de cette lutte dans la transformation du monde moderne Pour résoudre le problème scientifique qu'il soit cet ouvrage d'une rédaction simple et d'un style aisé permet tout lecteur attentif de mieux comprendre la conjoncture sociale de son époque

Capitaux publics et stratégies de l'Etat Lionel Monnier, 1977 L'auteur analyse le processus d'interpénétration par filialisation des secteurs public et privé depuis l'après-guerre Il en recherche les raisons dans le contenu des missions confiées aux entreprises publiques alternativement incomplet ou au contraire encombré de stratégies hâtives voire contradictoires celles de l'État celles des directions d'entreprises des groupes de pression etc Il clare ainsi les

bases objectives du dilemme nationalisation ou privatisation auquel les entreprises nationalisées étaient et restent aujourd'hui encore confrontées. *Les groupes financiers au Maroc* Mohamed Saïd Saadi, 1989. *Les fondements doctrinaux de la stratégie soviétique* Groupe d'études et de recherches sur la stratégie soviétique (France), 1979.
