American Gothic Art and Architecture in the Age of Romantic Literature Kerry Dean Carso,2014-11-15 American Gothic Art and Architecture in the Age of Romantic Literature analyses the influence of British Gothic novels and historical romances on American art and architecture in the Romantic era **Ceilings and Dreams** Paul Emmons,Federica Goffi,Jodi La Coe,2019-07-08 Where is the space for dreaming in the twenty first century Lofty thoughts like dreams are born and live overhead just as they have been represented in Renaissance paintings and modern cartoons Ceilings are often repositories of stories events and otherwise invisible oneiric narratives Yet environments that inspire innovative thinking are dwindling as our world confronts enormous challenges and almost all of our thinking debating and decision making takes place under endless ceiling grids Quantitative research establishes that spaces with taller ceilings elicit broader more creative thoughts Today ceilings are usually squat conduits of technology they have become the blind spot of modern architecture The twenty essays in this book look across cultures places and ceilings over time to discover their potential to uplift the human spirit Not just one building element among many the ceiling is a key to unlock the architectural imagination Ceilings and Dreams aims to correct this blind spot and encourages architects and designers researchers and students to look up through writings organized into three expansive categories reveries suspensions and inversions The contributors contemplate the architecture of levity and the potential of the ceiling once again as a place for dreaming **The Michener Companion** Sue Binkley Tatem,2009-12-07 The book is a reference guide to James Michener and his work A general section about Michener relating to his origins in Bucks County is followed by synopses of Michener s books The focus is on information that does not appear elsewhere and a bit of a tour of Doylestown Meet a Michener you may not have met before Metamorphism Ákos Moravánszky,2017-11-20 Materiality is a recurring and central issue in architecture This book explains how materials are constructed how they become cultural substances Metamorphism investigates the complex relationship between natural materials and technology science and sensuality Gottfried Semper 1803 1879 made the notion of Stoffwechsel the key element of his theory With this concept he intended to explain how a structural form originally bound to a method of processing is transferred from one material to another liberated from its original function For the first time the book investigates the subject from a historic point of view whilst reflecting on current interdisciplinary research Examples from Aalto to Zumthor illustrate the specific aspects of historic and contemporary material concepts *Stoffwechsel* Ákos Moravánszky,2017-11-20 Materiality is a recurring and central issue in architecture This book explains how materials are constructed how they become cultural substances Metamorphism investigates the complex relationship between natural materials and technology science and sensuality Gottfried Semper 1803 1879 made the notion of Stoffwechsel the key
