Food Discovery Through Geography:

The nutrition and health potential of geographical indication foods Food and Agriculture Organization of the United Nations ,2021-03-30 Traditional foods diets and food systems play an important role in people s nutritional status As the best products of traditional food systems geographical indication GI foods have a great potential to contribute to healthy diets and curb non communicable diseases This paper presents five case studies around the world on the nutritional potential of registered GI foods and explores the link between the production processes and the nutritional composition of the final products The nutritional characteristics of these foods can be largely attributed to their unique ingredients and production procedures which are linked to their geographical origins The paper also discusses the development of GI specifications to maintain and improve nutritional values the role of GI foods in healthy diets and the determination of food composition Finally suggestions on how to leverage GI foods for healthy diets are provided

The Restaurant, A Geographical Approach Olivier Etcheverria,2020-03-31 This book analyzes the way in which restaurants are geographical objects that reveal locational logics and strategies and how restaurants weave close relationships with the space in which they are located Originating from cities restaurants feed off the urban environment as much as they feed it participating in the qualification differentiation and hierarchy of cities Indeed restaurants in both the city and the countryside maintain a dialogical relationship with tourism They can be vital players in the establishment of emerging types of gourmet tourism sometimes even constituting as gourmet tourist destinations in their own right They participate in the establishment of necessary conditions for local development Some restaurants are even praised as historic sites recognized as part of the local heritage which reinforces their localization and their identity as a gourmet tourist destination

GeoAI and Human Geography Xiao Huang,Siqin Wang,John Wilson,Peter Kedron,2025-07-30 This volume outlines a comprehensive journey into how geospatial artificial intelligence GeoAI is reshaping our understanding of people and places Merging traditional geographic inquiry with AI technologies it offers a holistic view of digital tools and advanced algorithms that redefine human geography Across twenty eight chapters the book chronicles the evolution of geographic thought into the GeoAI era Innovative methodologies from explainable spatial analysis and natural language processing to human centered computer vision and high performance computing reveal new patterns and relationships beyond conventional approaches Each contribution highlights both technical strides in data processing and enriched perspectives on cultural economic political health and urban studies Showcasing diverse applications in disaster management climate change adaptation and urban planning the volume demonstrates GeoAI s transformative potential It also engages with ethical sustainable and social challenges emphasizing that technological innovation must serve real world impacts and inclusivity Ideal for researchers students and practitioners alike this volume invites you to explore new frontiers at the intersection of technology and human experience
