Historical Knowledge Susanna Fellman, Marjatta Rahikainen, 2011-10-18 Historical Knowledge approaches the topic of historical knowledge in depth and from various angles It seeks to offer theoretical and methodological building blocks for the use of anyone pursuing historical research This book brings novel insights into classic and topical issues currently under debate the importance of theory in historical thinking the dialectic of text and annotation the actor and observer levels the relationship between the general and the individual the issue of comparison and the problem of sporadic sources and of understanding the singularity of each one The overall theme of the book the possibility of historical knowledge reflects the very issue that makes historical research distinctive the challenges of evidence and the problems both concrete and conceptual with deciphering and interpreting remnants of the past This book refreshes the discussion about sources and proper evidence two issues that the linguistic turn and the postmodern challenge pushed into the background The book addresses these issues in an easily accessible way and serves as an introduction and guide to the role of theory method and evidence in historical research not only for students and scholars of history but also for anyone outside the field with an interest in the topic Historical Knowledge is the first book to include texts by the three eminent historians Professors Natalie

Burrison,2025-04-22 For most of human history all pottery was what we would now consider traditional folk pottery Not all artifacts go beyond the basic requirements of utility in pursuit of beauty but Beautiful Clay considers those that do In Beautiful Clay noted scholar of traditional ceramics John A Burrison writes about how a potter applies aesthetics to utilitarian objects to transform raw clay into something beautiful Though what is considered beautiful in art changes from culture to culture and person to person there are universal techniques such as manipulating form color texture and more that tap into clay's potential for beauty Burrison uses an approach from a perspective of international artistry rather than an approach bound by history or geography After beginning with more than 40 000 images that the author curated as a study resource Beautiful Clay narrows it down to around 230 images that capture the artistry within traditional ceramics worldwide Beautiful Clay examines the aesthetic dimensions of what is essentially a traditional utilitarian craft the ancient clay based craft of pottery from earliest times to the present Is South Asia Ready for Take Off? Ms.Manuela Goretti,Mr.Daisaku Kihara,Mr.Ranil M Salgado,Ms.Anne Marie Gulde,2019-11-04 Since the mid 1980s durable reforms coupled with prudent macroeconomic management have brought steady progress to the South Asia region making it one of the world's fastest growing regions Real GDP growth has steadily increased from an average of about 3 percent in the 1970s to 7 percent over the last decade Although growth trajectories varied across countries reforms supported strong per capita income growth in the region lifting over 200 million people out of poverty in the last three decades Today South Asia accounts for one fifth of the world's population and thanks to India's increasing performance contributes to over 15 percent of global growth Looking ahead the authors find that South Asia is poised to play an even bigger role in the global economy in both relative and absolute terms India has overtaken China as the fastest growing large economy and South Asia's contribution to global growth is set to increase while more mature economies decelerate Greater economic diversification with an expansion of the

service sector improvements in education and a still sizable demographic dividend are among the key elements underpinning this performance Based on demographic trends more than 150 million people in the region are expected to enter the labor market by 2030 This young and large workforce can be South Asia s strength if supported by a successful high quality and job rich growth strategy Amid a changing global economic landscape the authors argue that South Asia will need to leverage on all sectors of the economy in a balanced way supporting improvements in agricultural productivity and a sustainable expansion of manufacturing while promoting higher skill services to achieve this goal **DK Eyewitness Travel Guide:**
