contribution to the history of humanitarianism Christianity and the politics of aid in Africa *Trade and Aid* Burton I. Kaufman, 2019-12-01 Originally published in 1982 *Trade and Aid* outlines the transition of U S foreign policy during the Eisenhower administration In the years leading up to Eisenhower's election America's predominant foreign economic program was based on the concept of trade not aid which deemphasized foreign aid and relied instead on liberalized world trade and the encouragement of private foreign investment to assure world economic growth When Eisenhower took office in 1953 he embraced this doctrine However as problems in the Third World worsened it became clear to Eisenhower and other architects of American foreign policy that trade and private investment were insufficient solutions to the economic woes of developing nations In 1954 Eisenhower began to embrace economic aid as a core axis of his foreign economic policy Burton I Kaufman contextualizes Eisenhower's foreign policy leadership in the ongoing historical evaluation of Eisenhower's leadership prowess He evaluates the outcomes of the Eisenhower administration's trade and aid program arguing that developing countries were worse off by the time Eisenhower left office Catalog of Copyright Entries. of Congress. Copyright Office,1975 **A Conflict Perpetuated** Noam Kochavi,2002-01-30 The first comprehensive account of China policy during the Kennedy years this study profiles John F Kennedy as a man whose inner struggles and disparate characteristics made for an unpredictable foreign policy While he was often a hostage to the Cold War to constrictive perceptions of the domestic climate and to the image of a predatory China Kennedy recognized Washington s finite capacity to shape events on the China Mainland With the possible exception of a preventive strike against China s nuclear installations he was also reluctant to run the risk of a military confrontation with Beijing On the eve of his assassination Kennedy may have even contemplated a China policy departure during his second term A calm appraisal of China s capabilities and intentions constituted the distinguishing feature of revisionist thinking during the Kennedy years The disjointed revisionist effort settled in late 1963 on a pedagogic course which still implied a search for American primacy The revisionist approach did ultimately facilitate the transformation of bilateral relations in the early 1970s From a shorter range perspective however the Kennedy era only added fuel to the fire of Sino American confrontation The Limited Test Ban Treaty accentuated the sense of encirclement and vulnerability in Beijing s psyche and clouds gathered ominously over Vietnam Kennedy does bear some responsibility for the bilateral impasse as he personified a decisionmaker so obsessed with the objective of deterrence as to overlook the security dilemma nonetheless Mao s preference for a radical course independent of Kennedy s conduct contributed as well Neither side was yet ready for a breakthrough **Logistical Problems in Transporting Food Aid to the Sahelian Countries of West Africa** Charles James Dean Stathacos,1983 **Economists with Guns** Bradley R.
