Tinker, 2004-09-15 Writing from a Native American perspective theologian Tinker probes American Indian culture its vast religious and cultural legacy and its ambiguous relationship to the tradition historic Christianity that colonized and converted it He offers novel proposals about cultural survival and identity sustainability and the endangered health of Native Americans Bad Land Pastoralism in Great Plains Fiction Matthew J. C. Cella, 2010-04-15 At the core of this nuanced book is the question that ecocritics have been debating for decades what is the relationship between aesthetics and activism between art and community By using a pastoral lens to examine ten fictional narratives that chronicle the dialogue between human culture and nonhuman nature on the Great Plains Matthew Cella explores literary treatments of a succession of abrupt cultural transitions from the

Euroamerican conquest of the Indian wilderness in the nineteenth century to the Buffalo Commons phenomenon in the twentieth. By charting the shifting meaning of land use and biocultural change in the region he posits this bad land the arid West as a crucible for the development of the human imagination. Each chapter deals closely with two novels that chronicle the same crisis within the Plains community. Cella highlights for example how Willa Cather reconciles her persistent romanticism with a growing disillusionment about the future of rural Nebraska how Tillie Olsen and Frederick Manfred approach the tragedy of the Dust Bowl with strikingly similar visions and how Annie Proulx and Thomas King use the return of the buffalo as the centerpiece of a revised mythology of the Plains as a palimpsest defined by layers of change and response. By illuminating these fictional quests for wholeness on the Great Plains Cella leads us to understand the intricate interdependency of people and the places they inhabit. Cella uses the term pastoralism in its broadest sense to mean a mode of thinking that probes the relationship between nature and culture a discourse concerned with human engagement material and nonmaterial with the nonhuman community. In all ten novels discussed in this book pastoral experience the encounter with the Beautiful leads to a renewed understanding of the integral connection between human and nonhuman communities. Propelling this tradition of bad land pastoralism are an underlying faith in the beauty of wholeness that comes from inhabiting a continuously changing biocultural landscape and a recognition of the inevitability of change. The power of story and language to shape the direction of that change gives literary pastoralism the potential to support an alternative series of ideals based not on escape but on stewardship community continuity and commitment.

The Lakota Ritual of the Sweat Lodge
Raymond A. Bucko, 1998-04-01. For centuries a persistent and important component of Lakota religious life has been the Inipi, the ritual of the sweat lodge. The sweat lodge has changed little in appearance since its first recorded description in the late seventeenth century. The ritual itself consists of songs, prayers and other actions conducted in a tightly enclosed dark and extremely hot environment. Participants who sweat together experience moral strengthening, physical healing and the renewal of social and cultural bonds. Today the sweat lodge ritual continues to be a vital part of Lakota religion. It has also been open to use often controversial by non-Indians. The ritual has recently become

popular among Lakotas recovering from alcohol and drug addiction This study is the first in depth look at the history and significance of the Lakota sweat lodge Bringing together data culled from historical sources and fieldwork on Pine Ridge Reservation Raymond A Bucko provides a detailed discussion of continuity and changes in the sweat ritual over time He offers convincing explanations for the longevity of the ceremony and its continuing popularity [Dancing at Halftime](#) Carol Spindel,2002-10 A topical discussion of the controversial use of American Indian mascots by college level and professional sports teams

and survival amid loss pervade the stories told by Natives about themselves and their past when discussing the inundation of the original Standing Rock Sioux village during the Oahe Dam construction in the 1950s Immigrant Germans and Alsatians struggled to reconcile the hardships of the northern Plains with what they left behind in the Old World and the narratives of a German Russian community reflect and encourage survival in the face of transition Jahner also studies how two prominent novelists James Welch a member of the Blackfeet community and Mildred Walker who left her native New England for the West perceive a single landscape the state of Montana and how it has influenced their thought and narratives Spaces of the Mind provides a fresh understanding of Western literature and culture encourages a reconsideration of the formation and modern character of the American West and contributes to a fuller appreciation of the significance of narrative **Artistry**

in Native American Myths Karl Kroeber, 1998-01-01 This challenging study analyzes nearly forty superb stories from mythic narratives predating Columbus to contemporary American Indian fiction representing every traditional Native American culture area Developing recent ethnopoetic scholarship and drawing on the critical ideas of Mikhail Bakhtin and Pierre Bourdieu Karl Kroeber reveals how preconceptions deriving from our hypervisual print dominated culture distort our understanding of essential functions and forms of oral storytelling Kroeber demonstrates that myths do not merely preserve tradition but may transform it by performatively reenacting the concealed sociological and psychological conflicts that give rise to social institutions Showing how the variability of mythic narrative fosters communal self renewal Kroeber offers startling insight into Native Americans perception of animals as cultured their creation of visually unrepresentable tricksters by aural imagining and the rhetorical means through which oral narratives may not only reflect but even redirect political change By making understandable the forgotten artistry of oral storytelling Kroeber enables modern readers to appreciate fully the tragic emotions hilarious ribaldry and haunting beauty in these astonishing Native American mythic narratives Karl Kroeber is Mellon Professor of Humanities at Columbia University His most recent books are Ecological Literary Criticism Romantic Imagining and the Biology of the Mind and Retelling Rereading The Fate of Storytelling in Modern Times *Other Destinies* Louis Owens, 1994 This first book length critical analysis of the full range of novels written between 1854 and today by American Indian authors takes as its theme the search for self discovery and cultural recovery In his introduction Louis Owens places the novels in context by considering their relationships to traditional American Indian oral literature as well as their differences from mainstream Euroamerican literature In the following chapters he looks at the novels of John Rollin Ridge Mourning Dove John Joseph Mathews D Arcy McNickle N Scott Momaday James Welch Leslie Marmon Silko Louise Erdrich Michael Dorris and Gerald Vizenor These authors are mixedbloods who in their writing try to come to terms with the marginalization both of mixed bloods and fullbloods and of their cultures in American society Their novels are complex and sophisticated narratives of cultural survival and survival guides for fullbloods and mixedbloods in modern America Rejecting the stereotypes and cliches long attached to the word Indian they appropriate and adapt the colonizers language English to

describe the Indian experience These novels embody the American Indian point of view the non Indian is required to assume the role of other In his analysis Owens draws on a broad range of literary theory myth and folklore structuralism modernism poststructuralism and particularly postmodernism At the same time he argues that although recent American Indian fiction incorporates a number of significant elements often identified with postmodern writing it contradicts the primary impulse of postmodernism That is instead of celebrating fragmentation ephemerality and chaos these authors insist upon a cultural center that is intact and recoverable upon immutable values and ecological truths Other Destinies provides a new critical approach to novels by American Indians It also offers a comprehensive introduction to the novels helping teachers bring this important fiction to the classroom
