been closely studied Home Movies addresses this oversight by assessing recent cinematic representations of the family in terms of cultural politics and representations of gender sexuality race and class Focusing on a diverse range of popular films from Meet the Parents to The Incredibles Claire Jenkins analyses the father daughter relationship within sequels and series Meryl Streep s embodiment of the mother the superhero family and extraordinary manifestations of the ordinary family disaster films which depict the president as father mom coms and Hollywood s representations of the non traditional family She combines film studies gender studies and family history to demonstrate the complexities of Hollywood s family values

Literature and Intellectual Disability in Early Modern England Alice Equestri,2021-08-30 Fools and clowns were widely popular characters employed in early modern drama prose texts and poems mainly as laughter makers or also as ludicrous metaphorical embodiments of human failures Literature and Intellectual Disability in Early Modern England Folly Law and Medicine 1500 1640 pays full attention to the intellectual difference of fools rather than just their performativity what does their total partial or even pretended irrationality entail in terms of non standard psychology or behaviour and others perception of them Is it possible to offer a close contextualised examination of the meaning of folly in literature as a disability And how did real people having intellectual disabilities in the Renaissance period influence the representation and subjectivity of literary fools Alice Equestri answers these and other questions by investigating the wide range of significant connections between the characters and Renaissance legal and medical knowledge as presented in legal records dictionaries handbooks and texts of medicine natural philosophy and physiognomy Furthermore by bringing early modern folly in closer dialogue with the burgeoning fields of disability studies and disability theory this study considers multiple sides of the argument in the historical disability experience intellectual disability as a variation in the person and as a difference which both society and the individual construct or respond to Early modern literary fools characterisation then emerges as stemming from either a realistic or also from a symbolical or rhetorical representation of intellectual disability
