The Beautiful Game? David Conn, 2004 Football has never been richer more hyped more central to Britain's culture than today Yet never has it been in greater turmoil Once football was about passion community beauty The game celebrated and honoured its past striving to uphold the values that had made it great Today football is about money Its richest club Manchester United earned 146 million last year yet since 1992 34 of the Football League's 72 clubs have been insolvent The game is in danger of losing its lifeblood and its soul David Conn the game's premier investigative journalist sets out on a journey through the heart of English football exploring how our national sport has failed and who is to blame Travelling from Highbury's art deco stands to provincial non league outposts Conn interviews players managers agents chairmen and fans building up a picture of a game mired in crisis from the casino that is today's Premiership all the way down to the lowest leagues For every all conquering Manchester United or Chelsea there are ten clubs in desperate straits ready to implode Many of these stories have never been told before many of them are shocking Along the way there are new revelations on the Hillsborough tragedy of 1989 where 96 people died because of failures which football has never fully addressed on the decline and fall of Sheffield Wednesday and on the formation of the Premier League itself born from an influx of TV money bitterly divisive and bitterly regretted Yet at its heart football is a game deeply loved by millions This is a book for those who keep the faith who believe that the sport itself stripped of the greed and self interest blighting its organisation still has values and can still be beautiful

A Beautiful Game Jean Williams, 2007-12-15. FIFA, the world governing body of association football, declared "The Future is Feminine" in a 1995 press release. Since then, football has been claimed as the fastest-growing participation sport for women globally. An estimated twenty million women play the game around the world, and that figure is on the rise. However, the history of women's participation goes back to at least 1895, and in our enthusiasm for the present, the memory of that longer history can be overlooked or forgotten. *A Beautiful Game*, supported by a two-year FIFA CIES Jo o Havelange Research Scholarship, examines contemporary women's football internationally with case studies from England, the United States, China, and Australia. In each case study, Jean Williams considers the evolution of the women's game against a backdrop of issues such as media representation, access to facilities, lack of resources, coaching, sponsorship, talent identification, training, and professionalisation. The author examines contentious questions such as why women are absent from the highest levels of professional football, combining source material from archives, oral history, and artefacts. *A Beautiful Game* analyses the status and image of the women's game from the late nineteenth century to the shifting social values of the present. **The**
