Константин - Константин Матвеев Konstantin Matveev,1997-01-01 *Britain and the Politics of*
Modernization in the Middle East, 1945-1958 Paul W. T. Kingston,2002-11-07 In an historically informed critique of the
theory and practice of development assistance this book examines Britain s foreign aid programme in the Middle East in the
1940s and 1950s After an assessment of the origins of what was dubbed the peasants not pashas policy notably the link
between development sterling balances and post war imperial strategy the author focuses on planning and policy debates
between British development experts their American rivals and Middle Eastern technocrats These debates which centred on
issues such as afforestation irrigation and rural credit raise important questions about the nature and limits of the
development process within the Middle East and the Third World which the author explores in his analysis This 1996 book
will be of interest to development practitioners and scholars in development studies as well as to students of Middle East and
imperial history **Security in the Gulf** Ash Rossiter,2020-06-04 A reinterpretation of how Britain maintained order

Footnotes in the Sand Sir Bernard Burrows,1990 **Britain and the formation of the Gulf States** Shohei
Sato,2016-05-01 This book offers new insight into the end of the British Empire in the Middle East It takes a fresh look at the
relationship between Britain and the Gulf rulers at the height of the British Empire and how its effects are still felt
internationally today Over the last four decades the Persian Gulf region has gone through oil shocks wars and political
changes and yet the basic entities of the southern Gulf states have remained largely in place How did this resilient system
come about for such seemingly contested societies Drawing on extensive multi archival research in the British American and
Gulf archives this book illuminates a series of negotiations between British diplomats and the Gulf rulers that inadvertently
led Bahrain Qatar and the UAE to take their current shapes The story addresses the crucial question of self determination
versus better together a dilemma pertinent to anyone interested in the transformation of the modern world **The**

Formation of the UAE Kristi Barnwell,2024-04-04 December 2 1971 ushered the United Arab Emirates into existence and
marked the end of one hundred fifty years of British protection of the Arab states of the Gulf Today the UAE projects an
image of modernity and prosperity but before its formation the emirates endured poverty and political upheaval while the

rulers and people navigated the transition from autonomous city states to modern nation states under informal British rule This book shows how the Trucial States came to form a sovereign federation paying particular attention to the role of nationalism and anti imperialism Kristi Barnwell demonstrates that the ruling sheikhs of the Gulf Arab rulers in the Gulf strove to create their new state with close ties to Great Britain which provided technical military and administrative assistance to the emirates while also publicly embracing the popular ideologies of anti imperialism and Arab socialism that were still dominating the political discourse in the Arab world In the process she situates the Emirates modern history in the broader narratives of the history of the Middle East The research draws on primary source materials from British and American government archives speeches and government publications from the Arab Emirates as well as memoirs and secondary sources

Oman's Insurgencies John Peterson, 2014-05-22 Oman today is a rapidly modernizing and peaceful country on the fringes of a region in turmoil It does however have a long history of internal strife In the twentieth century this strife took the form of two internal conflicts The Northern Oman or al Jabal al Akhdar War of the 1950s was a struggle between the forces of the old tribally based Imamate and the newer Sultanate in the northern part of the country In the Dhufar War of the 1960s 70s an anti Sultanate and later Marxist front sought secession in the south J E Peterson takes a detailed look at these two wars in the context of insurgency and counter insurgency warfare He surveys Oman's transition from a strictly traditional regime controlling only parts of the country to a modern inclusive state particularly in terms of security concerns Peterson analyses the development of the Sultanate's successful responses to security challenges especially in the creation and evolution of modern armed forces

The Arabian Frontier of the British Raj James Onley, 2007-11-22 The Arabian Frontier of the British Raj is a study of one of the most forbidding frontier zones of Britain's Indian Empire The Gulf Residency responsible for Britain's relationship with Eastern Arabia and Southern Persia was part of an extensive network of political residencies that surrounded and protected British India Based on extensive archival research in both the Gulf and Britain this book examines how Britain's Political Resident in the Gulf and his very small cadre of British officers maintained the Pax Britannica on the waters of the Gulf protected British interests throughout the region and managed political relations with the dozens of Arab rulers and governors on both shores of the Gulf James Onley looks at the secret to the Gulf Residency's effectiveness the extent to which the British worked within the indigenous political systems of the Gulf He examines the way in which Arab rulers in need of protection collaborated with the Resident to maintain the Pax Britannica while influential men from affluent Arab Persian and Indian merchant families served as the Resident's native agents compradors in over half of the political posts within the Gulf Residency

Popular Culture and Political Identity in the Arab Gulf States Alsharekh Alanoud, Robert Springborg, 2012-08-01 As the Gulf assumes an ever more important identity in the global political economy we see the emergence of a new popular and political culture underpinning its increasingly self confident national identities This volume explores the new dynamism of the Gulf reflected not just in high rise buildings and

booming stock markets but also manifested in the realms of art ideas and expression and their relationships with political authority Contributors include figures instrumental to the emergence of these new identities including artists broadcasters and cultural commentators

Buraimi Michael Quentin Morton, 2014-05-09 *Buraimi* is an oasis in an otherwise bleak desert on the border between Oman and the UAE In the early twentieth century it shot to notoriety as oil brought the world's attention to this corner of the Arabian Peninsula and the ensuing battle over energy resources between regional and global superpowers began In this lively account Michael Quentin Morton tells the story of how the power of oil and the conflicting interests of the declining British Empire and the United States all came to a head with the conflict between Great Britain and Saudi Arabia shaping the very future of the Gulf states The seeds of conflict over Buraimi were sown during the oil negotiations of 1933 in Jedda where the international oil companies vied for control of the future industry in the Arabian Peninsula As a result of lengthy discussions including the efforts of men such as St John Philby and Ibn Saud himself the Saudis granted an oil concession for Eastern Arabia without precisely defining the geographical limits of the area to be conceded Matters came to a head in 1949 when Saudi Arabia made claim to the territory and Great Britain acting on behalf of Oman and Abu Dhabi challenged the actions of the Saudis Attempts at arbitration failed and only one year before Britain's defeat over the Suez Canal Britain expelled Saudi Arabia from the oasis In the wake of Britain's withdrawal East of Suez in the early 1970s the dispute was apparently solved between Saudi Arabia and the UAE But whilst the controversy dominated Anglo Saudi relations for more than 30 years it still casts its shadow across the Gulf today threatening to expose the fragility of the West's ever present dependency on the region for its supply of oil Morton brings a range of historical figures to life from the American oilmen arriving in steamy Jedda in the 1930s to the rival sheikhs of Buraimi itself competing for power wealth and allegiances as well as the great players in world politics Churchill Truman and Ibn Saud This entertaining and thoroughly researched book is both a story of a decisive conflict in the history of Middle East politics and also of the great changes that the discovery of oil brought to this previously desolate land
