The Andean Cloud Forest Randall W. Myster, 2020-11-12 A book focused solely on Andean Cloud Forests ACF has never been published ACF are high biodiversity ecosystems in the Neotropics with a large proportion of endemic species and are important for the hydrology of entire regions They provide water for large parts of the Amazon basin for example Here I take advantage of my many years working in ACF in Ecuador to edit this book that contains the following sections 1 ACF over space and time 2 Hydrology 3 Light and the Carbon cycle 4 Soil litter fungi and nutrient cycling 5 Plants 6 Animals and 7 Human impacts and management Under this premise international experts contributed chapters that consist of reviews of what is known about their topic of what research they have done and of what needs to be done in the future This work is suitable for graduate students professors scientists and researcher oriented managers *Water for Food Security and Well-being in Latin America and the Caribbean* Bárbara A. Willaarts, Alberto Garrido, M. Ramón Llamas, 2014-04-24 This volume provides an analytical and facts based overview on the progress achieved in water security in Latin America and the Caribbean LAC region over during the last decade and its links to regional development food security and human well being Although the book takes a regional approach covering a vast of data pertaining to most of the LAC region some chapters focus on seven countries Argentina Brazil Chile Colombia Costa Rica Mexico and Peru A full understanding of LAC's trends progress requires framing this region in the global context an ever more globalized world where LAC has an increasing

geopolitical power and a growing presence in international food markets The book's specific objectives are 1 exploring the improvements and links between water and food security in LAC countries 2 assessing the role of the socio economic megatrends in LAC identifying feedback processes between the region's observed pattern of changes regarding key biophysical economic and social variables linked to water and food security and 3 reviewing the critical changes that are taking place in the institutional and governance water spheres including the role of civil society which may represent a promising means to advancing towards the goal of improving water security in LAC The resulting picture shows a region where recent socioeconomic development has led to important advances in the domains of food and water security Economic growth in LAC and its increasingly important role in international trade are intense in terms of use of natural resources such as land water and energy This poses new and important challenges for sustainable development The reinforcement of national and global governance schemes and their alignment on the improvement of human well being is and will remain an inescapable prerequisite to the achievement of long lasting security Supporting this bold idea with facts and science based conclusions is the ultimate goal of the book
