Leagues Under The Sea Jules Verne, 2021-02-01 Jules Verne a 19th century French author is famed for such revolutionary science fiction novels as *Around the World in Eighty Days* and *Twenty Thousand Leagues Under the Sea*. He has sometimes been called the Father of Science Fiction a title that has also been given to H G Wells and Hugo Gernsback. In all Verne authored more than 60 books most notably the 54 novels comprising the *Voyages Extraordinaires* as well as dozens of plays short stories and librettos. He conjured hundreds of memorable characters and imagined countless innovations years before their time including the submarine space travel terrestrial flight and deep sea exploration. Verne is generally considered a major literary author in France and most of Europe where he has had a wide influence on the literary avant garde and on surrealism. Verne has been the second most translated author in the world since 1979 ranking between Agatha Christie and William Shakespeare. Some of the works appear only in their original French texts due to copyright restrictions.

Apocalyptic Transformation Elizabeth K. Rosen,2008-02-15 Since its inception the story of the apocalypse has been used as a means by which to understand the world and one s place in it The appeal of the apocalyptic myth is largely rooted in its ability to make sense of instances of crisis by incorporating those crises into a larger plan for history and an end of time that God has planned Apocalypse is both an organizing principle to be imposed on an overwhelming seemingly disordered universe and a fundamentally moral story which offers hope of a new world where good and evil can be clearly delineated and addressed But all of the traditional functions and comforts of the apocalyptic myth are challenged when the myth collides with postmodernism The characteristics that define a work as postmodern ultimately destabilize the traits that make the apocalyptic myth unique Using the work of Terry Gilliam Don DeLillo Kurt Vonnegut and other writers in the genre Apocalyptic Transformation examines the collision of the postmodern mode and the apocalyptic myth explores the process of secularizing this religious story and the reasons for doing so and asks the question What happens when an author undermines the grand narrative of the apocalypse
