**Modernizing the United Nations System** John E. Trent, 2007-06-20 This book contends that civil society must mobilize its capacities to bring a new will to national and international politics and oblige governments to act. It starts by demonstrating the need for institutional change at the UN and then shows how both in the past and the present leading individuals and nongovernmental organizations using their knowledge base and their organizational networks have led the fight for international organizations. After a summary of major UN reform proposals over the years, the book concludes by identifying leading global reformers and elaborating a detailed plan for a global reform movement to spearhead the modernization of the UN system. **The UN and the Global South, 1945 and 2015** Thomas G. Weiss, Pallavi Roy, 2018-04-19 There is a woeful neglect of the current United Nations in the academic and policy literatures and so it is unsurprising that an examination of that multilateral structure before 1945 shows an even more egregious absence of analytical attention. Such ignorance conveniently ignores the forgotten genius of 1945, namely in the wide substantive and geographic relevance of multilateralism during the World War II and in the foundations for the contemporary world order. The wartime and immediate post-war United Nations was not simply dictated by the US State Department, Whitehall, and the foreign ministries of the West; even a generation before decolonisation had proceeded apace and two thirds of UN member states moved into the limelight as erstwhile colonies. These essays interrogate the extent to which anti-colonialists and other nationalists resisting imperial rule embraced the promise of a rule-based world order as a normatively and operationally valuable projection in 1945. They critically review the worlds of 1945 and 2015 of then and now to determine the role of continuity and change of the continuing bases for compromise and for the clashes between the Global South and North. This book was previously published as a special issue of *Third World Quarterly*. *Reforming the United Nations* Joachim Müller, 2021-12-28 The context in which the United Nations operates is one of change and reorientation: change in the political climate resulting in changes in the tasks the organisation is called upon to undertake; reorientation of the organisation's internal structures and procedures in response to these changes. The principal goals and objectives of the United Nations have recently been reassessed. This reassessment highlighted in the Reform Agenda of Secretary General Kofi Annan and during the Millennium Summit has led to a reaffirmation by the 189 Member States of their belief in the organisation. New forms of consensus and co-operation are developing regarding what the United Nations should be striving to achieve and how best it should be organised to improve its operations. The UN and Kofi Annan were awarded the Nobel Peace Prize for their role in reforming the 56-year-old institution. *Herald Tribune* Honor Awarded to Annan and UN, October 13-14, 2001, p. 1. The Quiet Revolution is essentially about the reform efforts of Kofi Annan. The book therefore describes a major part of his activities leading to the award. Dr Joachim Müller presents a detailed review of the reform initiatives undertaken during the period from 1996 to 2000, which was of such importance for the evolution of the United Nations. A wealth of information from primary sources is

**Democratizing Global Governance** E. Aksu, J. Camilleri, 2002-07-15 Is globalization beyond human control In this thought provoking text the myths and mantras of this apparently irresistible force are challenged and dissembled By examining a number of fundamental questions the contributors put forward a radical reform agenda for global governance Can the global multilateral system be democratic Are security and economic concerns separable Can the development of a global civil society contribute to effective global governance An important and wide ranging study this book will be essential reading for graduates and researchers in international relations
