Bornstein, 2002 Despite the fact that most people become parents and everyone who has ever lived has had parents parenting remains a mystifying subject about which almost everyone has opinions but about which few people agree Striking permutations on the theme of parenting are emerging single parenthood blended families lesbian and gay parents and teen versus fifties first time moms and dads Divided into four volumes the Handbook of Parenting is concerned with different types of parents basic characteristics of parenting forces that shape parenting problems faced by parents and the practical sides of parenting Contributors have worked in different ways toward understanding all of these diverse aspects of parenting and look to the most recent research and thinking in the field to shed light on many topics every parent has wondered about Because development is too subtle dynamic and intricate to admit that parental caregiving alone determines the course and outcome of ontogeny **The Romantic Lives of Emerging Adults**

Varda Konstam, 2019-01-21 The romantic lives of emerging adults are often baffling and contradictory While they prize committed and authentic relationships they appear to be reluctant participants They prefer to foster ambiguity in their romantic relationships even as they value honesty and clarity There is at once a valuing of long term as well as a decentering of romantic relationships Although our current understanding is incomplete this text grapples with these perplexing questions In attempting to understand emerging adults and their romantic lives researchers must consider the challenging economic conditions in which today's emerging adults find themselves With an emphasis on commitment and sacrifice and their centrality to one's readiness for a long term relationship this book reviews the main milestones in transitioning from an I identity to a we identity and discusses the concepts of choice and risk Further the book examines structures such as asymmetrically committed relationships cohabitation and marriage through the lens of commitment risk and risk avoidance

Probing extensively into the romantic lives of emerging adults their attitudes values and expectations this text examines some of the developmental and contextual realities against which romantic attachment must be viewed Critical topics such as casual and sexual experiences and relationships integration of work and love breakups marriage going solo and social media and its influences are considered The commonality and the individuality of the emerging adults presented throughout this text contribute to a rich understanding of emerging adults and how they live and love

Failure to Flourish Clare Huntington, 2014-05-20 Exploring the connection between families and inequality Failure to Flourish How Law Undermines Family Relationships argues that the legal regulation of families stands fundamentally at odds with the needs of families Strong stable positive relationships are essential for both individuals and society to flourish but from transportation policy to the criminal justice system and from divorce rules to the child welfare system the legal system makes it harder for parents to provide children with these kinds of relationships exacerbating the growing inequality in America Failure to Flourish contends that we must re orient the legal system to help families avoid crises and when conflicts arise intervene in a manner that heals relationships To understand how wrong our family law system has gone and what we need to repair it Failure to Flourish takes us from ancient Greece to cutting edge psychological research and from the chaotic corridors of local family courts to a quiet revolution under way in how services are provided to families in need Incorporating the latest insights of positive psychology and social science research the book sets forth a new more emotionally intelligent vision for a legal system that not only resolves conflict but actively encourages the healthy relationships that are at the core of a stable society
