The Spanish Habsburgs and Dynastic Rule, 1500-1700 Elisabeth Geever, 2023-06-19 Providing a novel research methodology for students and scholars with an interest in dynasties at all levels this book explores the Spanish Habsburg dynasty that ruled the Spanish monarchy between c 1515 and 1700 Instead of focusing on the reigns of successive kings the book focuses on the Habsburgs as a family group that was constructed in various ways as a community of heirs a genealogical narrative a community of the dead and a ruling family group These constructions reflect the fact that dynasties do not only exist in the present as kings queens or governors but also in the past in genealogies and in the future as a group of hypothetical heirs This book analyses how dynasties were made by the people belonging to them It uses a social institutionalist framework to analyse how family

dynamics gave rise to practices and roles The kings of Spain only had limited power to control the construction of their dynasty since births and deaths processes of dynastic centralisation pressure from subjects relatives individual agency rivalry among relatives and the institutionalisation of roles limited their power Including several genealogical tables to support students new to the Spanish Habsburgs this book is essential reading for all students of early modern Europe and the history of monarchy The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
