Elizabeth Bird, 1992 Millions of people read weekly supermarket tabloids Yet little serious effort has been made to understand why so many Americans make a valued place for these papers in their lives Instead the tabloids are dismissed as the epitome of trash sensational gossipy stereotyped ephemeral Libraries shun them As the papers are trashed by critics so by extension are their largely working class readers who are viewed as unworthy of consideration This book the first full length analysis of the tabloids within their historical and cultural contexts examines the interplay among tabloid writer text and audience Drawing on anthropology communications folklore and literary theory Elizabeth Bird argues that tabloids are successful because they build on and feed existing narrative traditions much as folklore does Men and women to judge from letters and interviews read the tabloids from different perspectives And while people buy the papers for various reasons readers tend to be alienated from some aspects of the dominant culture The tabloids are popular precisely for the reasons they are despised formulaic yet titillating they celebrate excess and ordinariness at the same time After beckoning readers into a world where life is dangerous and exciting the tabloids soothe them with assurances that be it ever so humble there is no place like home Thus while readers are active playful consumers we cannot assume that the papers offer a real opportunity to resist cultural subordination      *Millergrams* Julius Sumner Miller, 1966      Creating Enquiring Minds Sara Stanley, 2014-01-01 An introduction to philosophy for children explains how children can be encouraged to ask the right questions reason effectively think for themselves and begin to understand more about themselves and the world around them      *Pocket PAL: Creating Enquiring Minds* Sara Stanley, 2014-07-19 Inspiring intelligent and practical this user friendly guide provides a wonderful introduction to using P4C Philosophy for Children in primary schools This extremely accessible book provides an introduction to philosophy for children It explains how you can encourage children to ask the right questions reason effectively think for themselves and begin to understand more about themselves and the world around them Inspiring and intelligent with clearly presented practice based examples it is full of fun and engaging activities that work right across the curriculum      Some more enchanting questions for enquiring minds Julius Sumner Miller, 1970 Two volumes of questions and brainteasers whose solutions require the application of various scientific principles or performance of simple experiments      Some more enchanting questions for enquiring minds Julius Sumner Miller, 1970 Two volumes of questions and brainteasers whose solutions require the application of various scientific principles or performance of simple experiments      Some enchanting questions for enquiring minds Julius Sumner Miller, 1970 Two volumes of questions and brainteasers whose solutions require the application of various scientific

Exegesis/Exegesis Issue 1 David Halladay, 2016      *Tabloid Valley* Paula E Morton, 2009-05-31 With sensational headlines and scandalous photos supermarket tabloids dish out the dirt on everyone and everything from space aliens and Bat Boy to Elvis and Britney Although they were once the pariah of traditional journalism tabloids have gained credibility in recent years and today their lurid style and sometimes their reportage is even imitated by mainstream news outlets In *Tabloid Valley* Paula Morton explores the cultural impact of the sensationalist press over the years focusing on Generoso Pope Jr's decision in 1971 to move the editorial offices of the National Enquirer from New Jersey to Florida This bold step initiated a mass exodus of similar publications to the Sunshine State where six of the largest circulation weeklies the Star the Globe the Weekly World News the Sun the National Examiner and the Enquirer were eventually consolidated under a single owner American Media Inc Florida's favorable business climate and a booming southern frontier created the perfect environment for the tabloids and their writers to flourish Morton goes behind the scenes to examine every facet of modern yellow journalism what headlines sell and why how the journalists gather the news the recent and ongoing downturn in circulation what the tabloids are doing to maintain their foothold and most important what the tabloid news says about American culture

**Tabloid Culture** Kevin Glynn, 2000 An examination of the rise of tabloid television and the political cultural and technological changes that have enabled its success      **Learning in Contemporary Culture** Will Curtis, Alice Pettigrew, 2009-05-18 This book provides an accessible undergraduate level introduction to the central educational concepts of learning and culture In examining these themes it addresses key issues including what is meant by culture characteristics commonly associated with contemporary culture relationships between culture and learning changing understandings of how what where and when we learn the relationship between learning national identity and citizenship and the impact of all these on our way of life today These ideas are approached from historical philosophical sociological political and psychological perspectives the traditional disciplines of Education Studies      *Beliefs of a Reasoning Mind* Dr. V V Rampal, 2012-07-26 The articles in this book are not thematically sequential but a record of thoughts that came from day to day They are however

scattered around the core of religion and rationality You may find a few spots concerned with humanism and science Some thoughts are short and some spilling over to more than a page or two It is more in the format of a diary than a detailed discussion on one theme They represent a freethinking Many may disagree with them but that is what constitutes variety in thought
