Following Muhammad Rethinking Islam In The Contemporary World:

Following Muhammad (EasyRead Super Large 18pt Edition) Carl W. Ernst, 2008 **Rethinking Islam in the Contemporary World** Carl W. Ernst, 2004 An introduction to Islam today the faith of more than a billion people set in the context of world history and of religious studies **Islam in Global Modernity** Dietrich Jung, 2023-01-01 This book combines sociological theorising with studies on the Middle East and Islam The diversity of modernities that can be observed in our world is linked to the claim of living in a global modernity in a world society The book underpins this claim with numerous excursions into Islamic history It criticises the view that modernisation can be equated with westernisation and considers different projects of specifically Islamic modernities as integral parts of world society From this perspective the study contributes to the provincialisation of European history in contemporary social scientific thought Contrary to the theories of postcolonialism associated with the call for the provincialisation of Europe however this book adheres to essential traditions of classical sociology It thus aims to make a contribution to the social theoretical discussion on modernity which is empirically underpinned with the help of data from the history of the Middle East and Islam The translation was done with the help of artificial intelligence A subsequent human revision was done primarily in terms of content Christian Encounters with Iran Sasan Tavassoli, 2011-04-30 The interface between the current Shi'ite landscape and Christian thinking is of the greatest significance for the shifting political and religious dynamics of the Middle East Sasan Tavassoli here examines Iranian Shi'ite thinkers encounters with Christian thought since the Islamic revolution of 1979 and provides insight into the cultural and intellectual climate surrounding Christian Muslim dialogue in contemporary Iran The literature on Christianity in Iran reveals a wide range of approaches and attitudes and Tavassoli demonstrates that traditional polemics are giving way to a more descriptive and subjective understanding of Christian thought He also studies Muslim Christian dialogue and research conducted and supported by governmental as well as non governmental organizations and offers a close examination with interviews of the work of three prominent liberal religious intellectuals Abdol Karim Soroush Mostafa Malekian and Mojtaba Shabestari Placing contemporary Shi'ite thought in the broad historical context of pre and post revolution Iran Tavassoli relates concrete religious cultural and socio political realities to the themes and orientations in the latest phase of the Shi'ite Islam Christianity encounter and offers fresh insight into the dynamism of contemporary Islam and the religious complexities of the Muslim world **Encyclopedia of Islam** Juan Eduardo Campo, 2009 Explores the terms concepts personalities historical events and institutions that helped shape the history of this religion and the way it is practiced today Islam Cenap Çakmak, 2017-05-18 This expansive four volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity One of the most popular and widespread religions in the world Islam has attracted a great deal of attention in recent times particularly in the Western world With the ongoing tensions in the Middle East and a pervasive sense of hostility

toward Arab Americans there is ever increasing need to examine and understand Islam as a religion and historical force Islam A Worldwide Encyclopedia provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition Each entry begins with a basic introduction followed by a general discussion of the subject and a conclusion Each entry also features a further readings list for readers In addition to supplying a comprehensive authoritative overview of Islam this work also specifically addresses many controversial related issues including jihad violence in Islam polygamy and apostasy

The Teaching and Study of Islam in Western Universities

Paul Morris,William Shepard,Paul Trebilco,Toni Tidswell,2013-11-26 Public interest in the religion of Islam and in Muslim communities in recent years has generated an impetus for Western Universities to establish an array of Institutes and programs dedicated to the study of Islam Despite the growth in number of programs dedicated to this study very little attention has been paid to the appropriate shape of such programs and the assumptions that ought to underlie such a study The Teaching and Study of Islam in Western Universities attempts to address two central questions that arise through the teaching of Islam Firstly what relation is there between the study of the religion of Islam and the study of those cultures that have been shaped by that religion Secondly what is the appropriate public role of a scholar of Islam After extensive discussion of these questions the authors then continue to address the wider issues raised for the academic community having to negotiate between competing cultural and philosophical demands This edited collection provides new perspectives on the study of Islam in Western Institutions and will be an invaluable resource for students of Education and Religion in particular Islamic Studies

Islamophobia and Anti-Muslim Sentiment Peter Gottschalk,Gabriel Greenberg,2018-07-19 In the minds of many Americans Islam is synonymous with the Middle East Muslim men with violence and Muslim women with oppression A clash of civilizations appears to be increasingly manifest and the war on terror seems a struggle against Islam These are all symptoms of Islamophobia Meanwhile the current surge in nativist bias reveals the racism of anti Muslim sentiment This book explores these anxieties through political cartoons and film media with immediate and important impact After providing a background on Islamic traditions and their history with America it graphically shows how political cartoons and films reveal Americans casual demeaning and demonizing of Muslims and Islam a phenomenon common among both liberals and conservatives Islamophobia and Anti Muslim Sentiment offers both fascinating insights into our culture s ways of picturing the enemy as Muslim and ways of moving beyond antagonism

Islamic Democracy

Farid Younos,2020-09-28 Many scholars see democracy and Islam as incompatible However history has shown that Muslims were the pioneers of a democratic system 1400 years ago This book illustrates the fact that Muslim nations can establish a

democratic political system based upon Islamic teachings and principles Democracy must be a homegrown political system that meets not only the political demands of a nation but also the cultural demands In order for a democracy to work in the nation it is being presented it must align with the people s values and culture simply being a worldwide political system is not enough The time has come for Muslim nations to adopt a system that meets the demands of Muslims and non Muslims alike for the sake of peace and justice for all This is the theme of Islamic democracy that this book is attempting to portray for the Middle East

Sufism in Western Contexts Marcia K. Hermansen, Saeed Zarrabi-Zadeh, 2023-07-03 Sufism in Western Contexts explores both historical trajectories and multiple contemporary manifestations of Islamic mystical movements ideas and practices in diverse European North and South American countries as well as in Australia all traditionally non Muslim regions of the global West From early French and British colonial administrators who admired Persian poetry to nineteenth century American transcendentalists followed by South Asian and Middle Eastern immigrant Sufi guides and their movements expansive and many faceted expressions of Sufism such as its role in Western esotericism female whirling dervishes and Rumi cafes and new articulations in cyberspace are traced and analyzed by international experts in the field

The Prosthetic Arts of Moby-Dick David Haven Blake, 2024-12-13 The Prosthetic Arts of Moby Dick offers the first book length study of how physical disability shapes one of the world s most iconic novels Rather than see Ahab s lost limb as a deficiency however it explores the way that his prosthesis becomes both a means to power and a key figure for understanding the role that Islamic cultures play in the novel s plot and form

Islam and China's Hong Kong Wai-Yip Ho, 2013-06-07 Hong Kong is a global city state under the sovereignty of the People s Republic of China and is home to around 250 000 Muslims practicing Islam However existing studies of the Muslim majority communities in Asia and the Northwest China largely ignore the Muslim community in Hong Kong Islam and China s Hong Kong skillfully fills this gap and investigates how ethnic and Chinese speaking Muslims negotiate their identities and the increasing public attention to Islam in Hong Kong Examining a range of issues and challenges facing Muslims in Hong Kong this book focuses on the three different diasporic Muslim communities and reveals the city state s triple Islamic heritage and distinctive Islamic culture It begins with the transition from the colonial to the post colonial era and explores how this has impacted on the experiences of the Muslim diaspora and the ways this shift has compelled the community to adapt to Chinese nationalism whilst forging greater links with the Gulf Then with reference to the rise of new media and technology the book examines the heightened presence of Islam in the Chinese public sphere alongside the emergence of Chinese Islamic websites which have sought to balance transnational Muslim solidarity and sensitivity towards Chinese government s concern of external extremism Finally it concludes by investigating Hong Kong s growing awareness of the Muslim minorities demands for Islamic religious education and how this links with the city state s aspiration to become the new gateway for Islamic finance Indeed Wai Yip Ho posits that Hong Kong is now shifting from its role as the broker that bridged East and West during the Cold War to that

of a new mediator between China and the Middle East Drawing on extensive ethnographic research this book thoughtfully charts a new area of inquiry and as such will be welcomed by students and scholars of Chinese studies Islamic studies Asian studies and ethnicity studies **Encyclopaedia of Islam** Ian Richard Netton,2013-12-19 This Encyclopedia covers the full

Modernism on the Nile Alex Dika Seggerman,2019-08-13 Analyzing the modernist art movement that arose in Cairo and Alexandria from the late nineteenth century through the 1960s Alex Dika Seggerman reveals how the visual arts were part of a multifaceted transnational modernism While the work of diverse major Egyptian artists during this era may have appeared to be secular she argues it reflected the subtle but essential inflection of Islam as a faith history and lived experience in the overarching development of Middle Eastern modernity Challenging typical views of modernism in art history as solely Euro American and expanding the conventional periodization of Islamic art history Seggerman theorizes a constellational modernism for the emerging field of global modernism Rather than seeing modernism in a generalized hyperconnected network she finds that art and artists circulated in distinct constellations that encompassed finite local and transnational relations Such constellations which could engage visual systems both along and beyond the Nile from Los Angeles to Delhi were materialized in visual culture that ranged from oil paintings and sculpture to photography and prints Based on extensive research in Egypt Europe and the United States this richly illustrated book poses a compelling argument for the importance of Muslim networks to global modernism *Beyond Sectarianism* Tehseen Thaver,2024-05-14 In this groundbreaking book Tehseen Thaver offers a fundamental reevaluation of how one should think about the relationship

between the Qur'an and Shi'ism and religious identity. *Beyond Sectarianism* focuses on the literary Arabic Qur'an exegesis of the highly influential yet less studied poet-historian and exegete al-Sharif al-Radi (d. 1015). Al-Radi's fascinating interpretations sought to resolve Qur'anic ambiguities or *mutashabihat*. Through a philologically layered and historically attuned analysis, Thayer argues that al-Radi's efforts at resolving Qur'anic ambiguities were interlocked with the project of the canonization of the Arabic language. Although he was marked as a Shi'i scholar, the interpretive and political horizons that informed al-Radi's scholarly endeavors could not be reduced to predetermined templates of sectarian identity. Rather, Thayer argues, al-Radi was an active participant and beneficiary of critical intellectual currents and debates that animated the wider Muslim humanities during his life, especially on questions of language, poetry, and theology. Thayer thus leads her readers to reconsider their assumptions about the interaction of sectarian identity and scriptural interpretation in the study of Islam and religion. Though centered on the context of late tenth and eleventh century Baghdad under the Buyid dynasty, *Beyond Sectarianism* raises and addresses crucial questions of religious thought and identity with major ramifications for how we imagine the narrative of Islam and the place of sectarianism in it today. *The Many Faces of Political Islam, Second Edition* Mohammed Ayooob, Danielle Nicole Lussier, 2020-01-03 Analysts and pundits from across the American political spectrum describe Islamic fundamentalism as one of the greatest threats to modern Western-style democracy. Yet very few non-Muslims would be able to venture an accurate definition of political Islam. Fully revised and updated, *The Many Faces of Political Islam* thoroughly analyzes the many facets of this political ideology and shows its impact on global relations. **Writing History, Constructing Religion** James G. Crossley, Dr. Christian Karner, 2013-05-28 *Writing History: Constructing Religion* presents a much-needed interdisciplinary exploration of the significance of debates among historians, scholars of religion, and cultural theorists over the nature of history to the study of religion. The distinguished authors discuss issues related to definitions of history, postmodernism, critical theory, and the impact on the study and analysis of religious traditions, exploring the application of writing history from below, discussions of truth and objectivity as opposed to power and ideology, crises of representation, and the place of theory in the historicized study of religion's. Addressing conceptual debates in a wide range of historical and empirical contexts, the authors critically engage with issues including religious nationalism, Nazism, Islam, and the West, secularism, religion in post-Communist Russia, ethnicity, and post-modernity. This book constitutes a significant step towards the self-reflexive and interdisciplinary study of religions in history. *Suburban Islam* Justine Howe, 2018 In *Suburban Islam*, Justine Howe explores the rise of third spaces created by educated middle-class American Muslims to challenge their exclusion from the American mainstream and to enact visions for American Islam different from those they encounter in their local mosques. Howe shows how third spaces have shaped not just the development of American Islam but are also reshaping the rich religious landscape of America's suburbs.
