over the world economic system So they obsessively tinker with nature and ignore the fundamental rules a tyranny of small decisions and this great experiment goes wrong and these ultimate insiders create a magnificent freak a true techno glory and yet a serious affront to nature a gross mockery of nature law as well as sick abomination associated with a dystopia and creature or thing far ahead of everyone beyond foresight and before black site powers that be realize the full potential and implications and the device gains control over the creator *George Platt Lynes* Allen Ellenzweig,2021 A precocious American youth who entered the orbit of American and British expatriates populating Paris and the South of France in the 1920s George Platt Lynes went on to become a supremely assured portrait photographer documenting the great figures of literature painting opera and dance of mid twentieth century This new biography tells his story in full Nostalgia in Vogue Eve MacSweeney,2011 Vogue fashion photography with essays drawn from the magazine s Nostalgia column Body Language Nick Mauss,Angela Miller,Anthony W. Lee,2023-10-24 Examining this innovative collaboration as a turning point in the history of photography and in queer American culture Body Language is the first in depth study of the extraordinary interplay between photographer George Platt Lynes and PaJaMa painters Paul Cadmus Jared French and Margaret Hoening French These enigmatic photographs issuing from intimate private networks and queer sexualities helped ground friendships and also found their way into the public worlds of fashion and fame Nick Mauss and Angela Miller offer timely readings of how practices of staging collaboration and psychological enactment through the body arced across the boundaries of art and life private and public worlds anticipating contemporary social media For these audacious artists the camera was used not to capture but to actively perform Renouncing photography s conventional role as mirror of the real Lynes and PaJaMa energized forms of worldmaking via a new social framing of the self Fashioning the City Agnès Rocamora,2009-04-30 While much attention has been paid to the making of Paris in the work of writers and artists little is known about the city as defined and created by the fashion media Filling this gap in studies of the French capital this original and illuminating book focuses on how the French fashion press with its rich conjunction of words and images has been able to construct Paris as a leading world fashion city Based in an original analysis of fashion writing and images in contemporary French fashion magazines and newspapers the book shows how the fashion media have been central to the consecration of the city of Paris on the fashion map as well as its celebration in the collective imaginary Agnes Rocamora explores for example the figures of la Parisienne and la passante the female passer by and the presence of the Eiffel tower in fashion visuals She gives attention to the continuum between the French journalistic discourse and that of cultural forms such as films paintings and literature thus revealing the persistence across texts and time of visions of Paris and shedding light on the production and reproduction of the Paris myth
