Moon Phase Whitetail Hunting Jeff Murray, 2001 No longer a guarded secret, hunting whitetails using a lunar strategy is one of the most effective tactics employed by successful trophy hunters. The father of hunting deer by the moon, the man who started it all, Jeff Murray shares his best kept secrets and insights on this fascinating aspect of white-tailed deer hunting and tells you how to make it work for you. From game tracking experts and professional biologists to hunting club managers, outfitters, and guides, great hunters know that deer are inextricably linked to the lunar cycle. In his latest book on the subject, Murray teaches how to predict peak rutting activity and how to plan to be afield when big bucks are moving. Reinventing the Wheel Bronwen Percival, Francis Percival, 2017-09-05 In little more than a century, industrial practices have altered every aspect of the cheesemaking process from the bodies of the animals that provide the milk to the microbial strains that ferment it. *Reinventing the Wheel* explores what has been lost as raw milk, single farm cheeses have given way to the juggernaut of factory production. In the process, distinctiveness and healthy rural

landscapes have been exchanged for higher yields and monoculture However Bronwen and Francis Percival find reason for optimism Around the world not just in France but also in the United States England and Australia enterprising cheesemakers are exploring the techniques of their great grandparents At the same time using sophisticated molecular methods scientists are upending conventional wisdom about the role of microbes in every part of the world Their research reveals the resilience and complexity of the indigenous microbial communities that contribute to the flavor and safety of cheese One experiment at a time these dynamic scientists cheesemakers and dairy farmers are reinventing the wheel **The Popular Engineer** ,1918
