Brothwell, Patricia Brothwell, 1998-01-22 The authors describe various sources of sustenance meat cooking oils fruits and vegetables beverages etc in terms of who consumed it how it was prepared and how it spread from its region of origin They also study the impact of diet on disease among early peoples Food in Antiquity Don R. Brothwell, Patricia Brothwell, 1998 *Food in Antiquity; a Survey of the Diet of Early Peoples [by] Don and Patricia Brothwell* Don R. Brothwell, Food in Antiquity Don R. Brothwell, 1956 **Food and Drink in Antiquity: A Sourcebook** John F. Donahue, 2014-11-20 Amid growing interest in food and drink as an academic discipline in recent years this volume is the first to provide insight into eating and drinking by focusing on what the ancients themselves actually had to say about this important topic A thorough and varied sourcebook it is structured thematically and is a unique asset to any course on food and foodways The chronological scope of the material extends from Greece of the 8th century BCE to the Late Roman Empire of the 4th century CE Each chapter consists of an introduction along with a concluding bibliography of suggested readings The excerpts themselves rendered in clear and readable English that remains faithful to the original Latin or Greek are set in their proper social and historical context with the author of each passage fully identified An unparalleled compilation of essential source material for Classics courses and with a wide range of evidence drawing upon literary inscriptional legal and religious testimony Food and Drink in Antiquity will also be particularly well suited to the interdisciplinary focus of modern food studies **A Companion to Food in the Ancient World** John Wilkins, Robin Nadeau, 2015-06-29 A Companion to Food in the Ancient World presents a comprehensive overview of the cultural aspects relating to the production preparation and consumption of food and drink in antiquity Provides an up to date overview of the study of food in the ancient world Addresses all aspects of food production distribution preparation and consumption during antiquity Features original scholarship from some of the most influential North American and European specialists in Classical history ancient history and archaeology Covers a wide geographical range from Britain to ancient Asia including Egypt and Mesopotamia Asia Minor regions surrounding the Black Sea and China Considers the relationships of food in relation to ancient diet nutrition philosophy gender class religion and more **Food in Antiquity** Patricia Brothwell, 1969

The World of Ancient Greece Michael Lovano, 2019-12-02 This book opens the world of the ancient Greeks to all readers through easily accessible entries on topics essential to understanding Greek high culture and daily life The ancient Greeks provided the foundation for Western civilization They made significant advances in science mathematics philosophy literature and government While many readers might have heard of Plato and Aristotle however or be familiar with the classic works of Greek tragedy most people know significantly less about daily life in the ancient Greek world This encyclopedia opens the world of the ancient Greeks spanning Greek history from the Bronze Age through Roman times with an emphasis on the Classical and Hellenistic Eras The encyclopedia provides roughly 270 easily accessible entries on topics

essential to understanding everything from Greek high culture to daily life These entries are grouped in topical sections on the arts science and technology politics and government domestic life and other subjects Sidebars on particularly noteworthy people places and concepts provide related information while primary documents allow readers to delve into the mindset and feelings of the ancient Greeks themselves Extensive bibliographic references give curious readers direction for further research

The Staff of Oedipus Martha L. Rose, 2013-10-04 Ancient Greek images of disability permeate the Western consciousness Homer Teiresias and Oedipus immediately come to mind But The Staff of Oedipus looks at disability in the ancient world through the lens of disability studies and reveals that our interpretations of disability in the ancient world are often skewed These false assumptions in turn lend weight to modern day discriminatory attitudes toward disability Martha L. Rose considers a range of disabilities and the narratives surrounding them She examines not only ancient literature but also papyrus skeletal material inscriptions sculpture and painting and draws upon modern work including autobiographies of people with disabilities medical research and theoretical work in disability studies Her study uncovers the realities of daily life for people with disabilities in ancient Greece and challenges the translation of the term *adunatos* unable as disabled with all its modern associations

The Long Shadow of Antiquity Gregory S. Aldrete, Alicia Aldrete, 2019-02-07 A vivid exploration of the many ways the classical world remains relevant today this is a passionate justification of why we continue to read about and study the lives and works of the ancient Greeks and Romans Challenging the way the phrase That's just ancient history is used to dismiss something as being irrelevant Greg and Alicia Aldrete demonstrate just how much ancient Greece and Rome have influenced and shaped our world today in ways both large and small From the more commonly known influences on politics law literature and timekeeping through to the everyday rituals and routines we take for granted when we exercise dine marry and dress we are rooted in the ancient world Even the political upheaval celebrity obsession and blurring of public and private boundaries that we see in current news betray ancient characteristics now brought to the fore here in a new final chapter If you have ever wondered how far exactly we still walk in the footsteps of the ancients or wanted to understand how study of the classical world can inform and explain our lives today this is the book for you

World Food Problem Professor Miloslav Rechcigl, 2018-01-10 The aim of this publication is to provide the interested reader with an authoritative and comprehensive up to date bibliography on all important facets of the world food problem encompassing such questions as the availability of natural resources the present and future sources of energy environmental quality population growth world malnutrition the state of food production food consumption patterns future food needs toxicological aspects of food agricultural and industrial aspects of food production and family planning It is the first compilation of its kind in that it covers the subject from a multidisciplinary point of view including publications that deal with the description and analysis of the world food problem as well as those that offer alternative strategies and specific technological measures for alleviating the problem

Folklore and Folklife Richard M. Dorson, 1972 Describes the characteristics of folk cultures and

discusses the procedures used by social scientists to study folklife *From Betty Crocker to Feminist Food Studies* Arlene Voski Avakian, 2005-01-01 Sheds light on the history of food cooking and eating This collection of essays investigates the connections between food studies and women s studies From women in colonial India to Armenian American feminists these essays show how food has served as a means to assert independence and personal identity **Regional Cuisines of Medieval Europe** Melitta Weiss Adamson, 2013-10-14 Expert food historians provide detailed histories of the creation and development of particular delicacies in six regions of medieval Europe Britain France Italy Sicily Spain and the Low Countries Ascetic Eucharists Andrew McGowan, 1999-05-20 The early Eucharist has usually been seen as sacramental eating of token bread and wine in careful or even slavish imitation of Jesus and his earliest disciples In fact the evidence suggests great diversity in its conduct including the use of foods in the first few hundred years Eucharistic meals involving cheese milk salt oil and vegetables are attested and some have argued that even fish was used The most significant exception to using bread and wine however was a bread and water Christian meal an ancient ascetic form of the Eucharist This tradition also involved rejection of meat from general diet and reflected the concern of dissident communities to avoid the cuisine meat and wine characteristic of pagan sacrifice This study describes and discusses these practices fully for the first time and provides important new insights into the liturgical and social history of early Christianity The Diet of John the Baptist James A. Kelhoffer, 2005 James A Kelhoffer offers a comprehensive analysis of Mark 1 6c par Matt 3 4c in its socio historical context the Synoptic gospels and subsequent Christian interpretation The first chapter surveys various anecdotes about John s food in the Synoptic gospels and notes that there has never been a consensus in scholarship concerning John s locusts and wild honey Chapters 2 and 3 address locusts as human food and assorted kinds of wild honey in antiquity Chapter 4 considers the different meanings of this diet for the historical Baptist Mark and Matthew Contemporary anthropological and nutritional data shed new light on John s experience as a locust gatherer and assess whether these foods could have actually sustained him in the wilderness The last chapter demonstrates that the most prevalent interpretation of the Baptist s diet from the third through the sixteenth centuries hails John s simple wilderness provisions as a model for believers to emulate The End of Roman Britain Michael E. Jones, 1998 Jones offers a lucid and thorough analysis of the economic social military and environmental problems that contributed to the failure of the Romans drawing on literary sources and on recent archaeological evidence A Handbook of Food Processing in Classical Rome David Thurmond, 2006-07-01 Rome was able to support a huge urban population by providing it with the rudiments of human nutrition in the form of processed foods This volume contains a careful analysis of those food processes The work is organized on the basis of the presumed importance of those foods beginning with the so called Mediterranean Triad of cereals particularly wheaten bread olive oil and wine then dealing with plant products such as legumes vegetables and fruits then animal products and ending with the condiments salts sugars acids spices which were themselves the agents for the preservation of other foods The work

combines analysis of literary and archaeological evidence from antiquity with that of traditional comparative practices and modern food science Connecting Indian Wisdom and Western Science Luisella Verotta, Maria Pia Macchi, Padma Venkatasubramanian, 2015-04-24 A truly integrated collection of research Connecting Indian Wisdom and Western Science Plant Usage for Nutrition and Health compares Ayurvedic and Western conceptions of wellness healthy lifestyle and diet Examining the phyto pharmacological phytochemical clinical ethnobotanical sociocultural and biomedical approaches to plant and herb b Anchoring Science and Technology in Greco-Roman Antiquity , 2024-12-19 This collection of essays explores processes of innovation in Greco Roman technology and science It uses the concept of anchoring to investigate the microhistories of technological and scientific practices and ideas The volume combines broad theoretical essays with more targeted case studies of individual inventions and innovations In doing so it moves beyond the emphasis on achievement that has traditionally characterized modern scholarship on ancient technology and science Instead the chapters of this volume analyse the manifold ways in which new technologies and ideas were anchored in what was already known and familiar and highlight how once familiar technologies and ideas could themselves become anchoring points for inventions and innovations
