diversity of foods that give North America the distinctive culinary identity that reflects its multi cultural heritage Included are recipes and folk traditions associated with 100 of the continent s rarest food plants and animals **Ecocinema in the City** Robin L. Murray,Joseph K. Heumann,2017-11-15 In Ecocinema in the City Murray and Heumann argue that urban ecocinema both reveals and critiques visions of urban environmentalism The book emphasizes the increasingly transformative power of nature in urban settings explored in both documentaries and fictional films such as Children Underground White Dog Hatari and Lives Worth Living The first two sections Evolutionary Myths Under the City and Urban Eco trauma take more traditional ecocinema approaches and emphasize the city as a dangerous constructed space The last two sections Urban Nature and Interdependence and The Sustainable City however bring to life the vibrant relationships between human and nonhuman nature Ecocinema in the City provides a space to explore these relationships revealing how ecocinema shows that both human and nonhuman nature can interact sustainably and thrive Food Texturology:

Measurement and Perception of Food Textural Properties Andrew Rosenthal,Jianshe Chen,2023-12-20 The concept behind this book is to take a holistic view of food texture starting with the determination of food texture its perception in the mouth and its measurement by both sensory and instrumental methods and to examine the relation between them The book has been divided into four sections Fundamentals Sensory and Human Interactions Instrumental Analysis and Food Products Essentially we cover the techniques used for measuring food texture and then apply them to the different product groups Readers of the first edition will notice the title has changed with the adoption of the term texturology In the long history of food texture research texturology has been occasionally used in literature The term texturology has not been widely accepted by texture researchers texturologists because of their concern over whether the theories and techniques are broad and strong enough to support texture research as a scientific discipline During the 24 years since the publication of the first edition the editors have observed vast developments in theories as well as the assessment methodology of food texture both sensory and instrumental and these have shaped our understanding This second edition brings the science up to date by introducing topics not previously covered e g psychophysics tribology oral processing texture maps and special foods for dysphagia patients It includes an expos of the instruments to measure food texture and also considers techniques for measuring consumer perception of food texture in addition to the sensory properties Additionally it amends omissions from the first edition such as dairy products fish bakery products and sugar confectionery asproduct groups All in all it is expanded and updated in its coverage of food texturology as a coherent scientific discipline **English for Everyone:**

Civic Engagement in Food System Governance Alan R. Hunt,2015-10-05 The local food movement is one of the most active of current civil engagement social movements This work presents primary evidence from over 900 documents interviews and participant observations and provides the first descriptive history of local food movement national policy achievements in the US from 1976 to 2013 and in the UK from 1991 to 2013 together with reviews of both the American and British local food movements It provides a US UK comparative context significantly updating earlier comparisons of American British and European farm and rural policies The comparative perspective shows

that over time more effective strategies for national policy change required social movement building strategies such as collaborative policy coalitions capacity building for smaller organizations and policy entrepreneurship for joining together separate rural farming food and health interests In contrast narrowly defined single issue campaigns often undermined long term policy change even if short term wins emerged By profiling interviews of American and English movement leaders policymakers and funders the book demonstrates that democratic participation in food policy is best supported when funders incentivize groups to work together and overcome their differences

Contrastive Functional Analysis Andrew

Chesterman,1998-01-01 The concept of similarity lies at the heart of this book on contrastive analysis The author aims to show how contrastive analysis and translation theory make use of similarity in different ways He also explains how it relates to the problematic notions of equivalence and tertium comparationis

The Origin and Diversification of Language Morris Swadesh,2017-09-04

Morris Swadesh one of this century's foremost scientific investigators of language dedicated much of his life to the study of the origin and evolution of language This volume left nearly completed at his death and edited posthumously by Joel F Sherzer is his last major study of this difficult subject Swadesh discusses the simple qualities of human speech also present in animal language and establishes distinctively human techniques of expression by comparing the common features that are

found in modern and ancient languages He treats the diversification of language not only by isolating root words in different languages but also by dealing with sound systems with forms of composition and with sentence structure In so doing he demonstrates the evidence for the expansion of all language from a single central area Swadesh supports his hypothesis by exhibits that conveniently present the evidence in tabular form Further clarity is provided by the use of a suggestive practical phonetic system intelligible to the student as well as to the professional The book also contains an Appendix in which the distinguished ethnographer of language Dell Hymes gives a valuable account of the prewar linguistic tradition within which Swadesh did some of his most important work

The Fruited Plain Walter Ebeling, 2023-11-15 Some consider American agriculture as one of the wonders of the modern world In this book Walter Ebeling tells its story Professor Ebeling grew up on a farm loves the soil and had the good fortune to have been closely associated with the land in all its aspects Beginning with a brief history of why and how preagricultural peoples changed from hunters and gatherers and eventually became tillers of the soil Professor Ebeling then deals with the seven geographic regions of the United States from the East to California giving the history and present status of agriculture for each region Although the main thrust of The Fruited Plain is the drama romance and excitement of the American agricultural experience Professor Ebeling is concerned with the environmental ecological and sociological aspects of agriculture and its supporting industries He discusses environmental problems in America that began when the Indians shifting agriculture allowing for long periods of soil restoration was replaced by the white man's permanent agriculture He examines the modern technology for a successful and environmentally viable permanent agriculture and how it can be implemented on a much larger scale The questions asked and answered are what are the principal environmental problems What is being and or can be done about soil erosion Scarcity of water Urban encroachment on agricultural lands What directions can be taken by benevolent technology Does technology have remedies for land that is susceptible to water erosion and loss of topsoil Likewise pollution and environmental degradation resulting from excessive use of pesticides Our society much recognize the importance of protecting our agricultural resources and Professor Ebeling in this monumental book gives many suggestions on how to accomplish the sustained utilization of America's great resource the farmlands Some consider American agriculture as one of the wonders of the modern world In this book Walter Ebeling tells its story Professor Ebeling grew up on a farm loves the soil and had the good fortune to have been closely associated with the land in all its aspects

Language and Literacy in Workplace Education Giselle Mawer, 2014-09-25 Just as workers are confronting the rapidly changing practices of the restructured technological workplace and the increasing convergence of working and learning so those involved in any form of workplace education or training are also restructuring their focus teaching methods and approaches This book examines the conceptual and practical challenges facing education and training professionals in redefining their contribution to improving communication and learning at work Interweaving theory and commentary with actual case studies the book explores a multifaceted approach to workplace education which

aims to develop individual workers skills as well as integrating learning language and cross cultural issues into work communication and management practices It is a strategic practical approach which draws on a range of applied linguistic and educational traditions and is informed by related disciplines such as cognitive and social psychology and organisational behaviour The book does not present formulae for success rather it illustrates the complexities and challenges faced by educators as they learn to balance different and often conflicting priorities Language and Literacy in Workplace Education Learning at Work has been written with a wide audience in mind from language and literacy professionals Human Resources staff vocational trainers managers as well as students of education and linguistics The book is clearly presented and takes care to explain specific educational or organisational terminology making the study accessible to newcomers to the field
